A POPULAR CALENDAR.

A POPULAR CALENDAR.

~~~~~  
CALENDAR AND ALMANAC.

THE word **CALENDAR** (which is sometimes spelt "Kalendar"), is properly a register of times or dates; in which acceptation it was used by the Romans, as the word **ALMANAC** was by the Germans and our Saxon forefathers.

Calendar, as some state, is derived from the Latin "Calendarium," which was the account-book kept by the Roman usurers of the money which they lent out upon interest, and which they were in the habit of calling in, or claiming, on the Calends or first day of each month. But it is more probable that the words Calendar and Calendarium are both to be traced to the ancient Roman custom of publicly proclaiming or calling the Calends and other periods of each month, on the appearance of every new moon. This practice continued until the year 450 after the building of Rome, when Caius Flavius, the ædile or chief magistrate, ordered the Fasti or Calends to be affixed upon all the places of public resort, in order that the dates of the approaching festivals might be more generally and exactly known. In fact, these public notices or registers of coming events were called "Fasti Calendares."

The etymology, or derivation, of **ALMANAC**, has been much disputed: many writers derive it from the Arabic article "Al" (the), and the Greek word "Manakos" (a lunar circle); others, from the Hebrew "Manack" (to count); whilst Dr. Johnson says that the Greek word "men," pronounced masen (a month), enters into its composition. The explanation given by the celebrated antiquarian Verstegan, of the origin and use of this word, seems worthy of notice. He says—"Our Saxon ancestors used to engrave on certain squared sticks, about a foot in length, the courses of the moons of the whole year: thereby they could certainly tell when the new moons, full moons, and changes, should happen; as also their festival-days: and such a carved stick they called an **AL-MONAGHT**; that is to say, Al-monheed; to wit, the regard or observation of all the moons; and hence is derived the name of Almanack.—An instrument of this kind, of a very ancient date, is to be seen in St. John's College, Cambridge; and there are still in the midland counties several remains of them.

~~~~~  
YEARS.

THE word **YEAR** is purely Saxon, and is supposed to be derived from *æra*; whilst others deduce both words from the Greek "Ear," or Latin "Ver" (Spring); because many of the ancients were in the habit of dating the commencement of

the year from Spring. In the Hebrew, Greek, and Latin languages, the word year^a is expressive of a ring or circle; the Egyptians also represented it by a snake placed in a circular position, with its tail in its mouth, whence, perhaps, the name of the Zodiac, or that imaginary circle which is made by the sun in the heavens during the twelve months.

The time in which the sun performs its journey through the twelve signs of the Zodiac comprehends 365 days, 5 hours, 48 minutes, and 48 seconds; and is therefore styled the NATURAL, SOLAR, or TROPICAL YEAR.

The SIDEREAL or ASTRAL YEAR, is the time which elapses from the Sun's passage from any particular fixed star until its return to it again; and is just twenty minutes and twenty-nine seconds longer than the Natural or Solar Year.

The LUNAR YEAR consists of twelve Lunar months, or that period during which the moon passes twelve times through its various phases, or changes.

The COMMON or CIVIL YEAR in use with us, and established by law, contains 365 days, during three successive years; but in each fourth year an intercalary or additional day is inserted, in order to make up the number 366; such additional day being considered equivalent to the time lost by not counting the five hours and forty-nine minutes at the end of each of the four years, from one BISSEXTILE or LEAP Year, to another. The word "Leap" sufficiently explains the act of passing over the hours in question. This plan was invented by Julius Cæsar, or by Sosigenes the Egyptian mathematician, who assisted him in rectifying the Calendar. The additional or intercalary day is with us always placed in the month of February, which, consequently leap year, consists of 29 days, the usual number being 28. Cæsar placed it in the month of March, by reckoning the 6th day of the Calends of that month twice over; hence the term Bissextile, from the words "bis" (twice) and "sex" (six,) or, "sextiles" (sixth day). But, by the Gregorian alteration, the fourth year, coming at the close of a century, is not a leap year, unless the number of hundreds be a multiple of four. Thus 1,600 was a leap year, 1,700 and 1,800 were not, 2,000 will be.

The reckoning of time by the course of the sun or moon was attempted in various ways by different ancient nations, but they, finding that their minor divisions of time did not correspond with the courses in question, endeavoured to prevent confusion by ordaining a certain number of days to be intercalated, or inserted out of the common order, so as to preserve the equation of time. The Egyptian Year (as used by Ptolemy) consisted of 365 days, which were divided into twelve months of thirty days each, beside five intercalary days at the end. The Egyptian Canicular, or Natural Year, was computed from one heliacal rising of the star Sirius, or Canioula, same to the next.

By the regulation of Solon, the ancient Greek year was lunar, and consisted of twelve months, each containing thirty and twenty-nine days

alternately : and, in every revolution of nineteen years, the third, fifth, eighth, eleventh, sixteenth, and nineteenth, it had an intercalary month, in order to keep the new and full moons to the seasons of the years.

The ancient Jewish year was the same as the Greek one, only that it was made to agree with the Solar year by adding eleven and sometimes twelve days at the end, or an intercalary month when necessary. The modern Jewish year consists of twelve lunar months generally, but sometimes of thirteen, that is, when an intercalary month is inserted.

The Turkish year consists of twelve lunar months of thirty and twenty-nine days, alternately, sometimes of thirteen.

The ancient Roman year, as settled by Romulus, was lunar, but contained only ten months, which were irregular, and comprehended 304 days in all, being a number fifty days short of the true lunar year, and sixty-one days of the solar. Romulus added the requisite number of days at the end of the year. Numa Pompilius added two months, making the year consist of 355 days : thereby exceeding the lunar year by one day, but being short of the solar one by ten days. Julius Cæsar, during his third consulship, and whilst he was Pontifex Maximus, or high-priest of Rome, reformed the Calendar by regulating the months according to their present measure, and adding an intercalary day every fourth year to the month of February, but he being assassinated before his plan could be fully brought into operation, the Emperor Augustus perfected and established what his kinsman had begun. The Julian year, which consisted of 365 days and 6 hours, was however still incorrect, for it was found to be too long by about eleven minutes, which in 131 years would be equal to one day,—consequently there was a further reformation of the Calendar by Pope Gregory, in the year 1582. He cut off eleven days, by calling the fourth of October the fifteenth. This alteration of the style was gradually adopted in the several countries of the European continent, but in Russia, in some of the Swiss cantons, and in the countries of the East, the old style is still preserved.

The Parliament of England adopted the Gregorian plan in 1752, by enacting that eleven days should be omitted that year : all dates, therefore, previous to 1752, are said to be according to the OLD STYLE, whilst those since that period are deemed to be according to the NEW STYLE. In 1800, which was properly a bissextile or leap year, the intercalary day was omitted : hence, the difference between the old and new style is now twelve days. The Gregorian regulation does not absolutely preclude all error in future, but that is likely to be so trifling as not to require particular attention.

The beginning of the year has by no means been the same in different ages and countries. The Chaldeans, the Egyptians, and the Jews, in all civil affairs, began it at the autumnal equinox. The ecclesiastical year among the Jews, the common year of the Persians, and of the Romans under Romulus, commenced in the Spring, a mode still followed in many of the Italian states. Both the

equinoxes, as well as the summer solstice, were each the commencing date in some of the States of Greece. The Roman year, from the time of Numa, began on the calends of January; the Arabs and Turks compute from the 16th of July. The Christian clergy formerly commenced the year on the 25th of March,* a method observed in Great Britain, generally in civil affairs, until 1752, from which period our civil year has begun on the 1st of January, except in some few cases, in which it still commences on the Day of Annunciation, or the 25th of March. In Scotland the year was, by a proclamation bearing date so early as the 27th of November 1599, ordered thenceforth to commence, in that kingdom, on the 1st of January, instead of the 25th of March.

The English Church still, in her solemn service, renews the year on the first Sunday in Advent, which is always that next to, or on, St. Andrew's Day.

Our ancestors, after the establishment of Christianity, usually began their year at Christmas, and reckoned the commencement of the æra from the Incarnation, or birth of Christ. William the Conqueror, however, introduced the method of substituting the first year of his own reign for the Christian æra. At subsequent periods, the English reverted to the ancient customs; but all state proclamations, patents, charters, and Acts of Parliament, have continued to be dated from the commencement of the reigns of the respective Sovereigns, with the addition of the words,—“and in the year of our Lord,” &c.

The Russian Government did not adopt the Christian æra until the time of Peter, in 1752: their previous practice had been to reckon from the world's age, or the year of the creation.

MONTHS.

THIS division of the year appears to have been used before the flood,† and as it was naturally framed by the revolution of the MOON, the months of all nations were originally lunar,—that is, from one New Moon to another. In a more enlightened period, the revolutions of the Moon were compared with those of the Sun; and the limits of the Months, as the component parts of a Year, were fixed with greater precision. The Romans divided each month into Calends, Nones, and Ides. The Calends were the first day of the month; the Nones were the 7th; and the Ides the 15th of March, May, July, and October: in the other months the Nones fell on the 5th, and the Ides on the 13th. The days of each month, according to this form, were counted backwards, thus, the 18th of October was called the 15th day before the Calends of November, &c.—which method of counting we shall further explain on a future occasion.

* The Church of Rome dated from the Sunday succeeding the full moon which occurred next after the vernal equinox; or if the full moon happened on a Sunday, the new year commenced on that day.

† Noah, as we find it recorded in the Bible, reckoned by months of thirty days each; and from him that mode of computing the year is supposed to have been adopted by the Chaldeans, Egyptians, and other Oriental nations.

In the year 1793, the French Government had a new Calendar constructed, in which they adopted the following fanciful designations for each month :—

	French Months.	Significations.	Eng. Months.
AUTUMN...	1. Vendemaire.....	Vintage Month, ...from	Sept. 22
	2. Brumaire.....	Foggy Month.....	Oct. 22
	3. Frimaire.....	Frosty, or Sleety Month.....	Nov. 21
WINTER. {	4. Nivose.....	Snowy Month.....	Dec. 21
	5. Pluiose.....	Rainy Month.....	Jan. 21
	6. Ventose.....	Windy Month.....	Feb. 19
SPRING. {	7. Germinal.....	Spring or Budding Month.....	Mar. 21
	8. Florial.....	Flowering Month.....	Apr. 20
	9. Prairial.....	Hay Harvest Month.....	May 20
SUMMER.. {	10. Messidor.....	Corn Harvest Month.....	June 16
	11. Thermidor.....	Heat Month.....	July 19
	12. Fructidor.....	Fruit Month.....	Aug. 19

This new Calendar, which after all was only a plagiarism or copy of one used in Holland from time immemorial, like many of the absurd institutions which sprang from the French Revolution, was laid aside in a few years, from the circumstance of its utter unfitness for the seasons, even as they occur in the several provinces in France itself ;—how much less applicable, therefore, must they have been to other countries, where the climates and seasons vary so much from each other ! A Calendar, to be worthy of universal adoption, must be capable of universal application : not so that of the French philosophers, which, independently of its discordance with those of all civilized nations, has not even the merit of indicating those very seasons from which it professed to derive its character. The late, Mr. Gifford ridiculed this new-fangled method of registering time by the following ludicrous, but happy translation of the Republican months and seasons :—

AUTUMN.....	Whoozy, sneezy, freezy ;	SPRING.....	Showery, flowery, bowery ;
WINTER.....	Slippy, drippy, nippy ;	SUMMER.....	Hoppy, croppy, poppy.

WEEKS.

It is probable that this measure of time has existed in the East from the earliest ages, but the Greeks certainly never used such a mode of division. They divided each month of thirty days into three "Decades," or equal portions of ten days each. Thus the 5th day of the month was the 5th day of the first Decade; the 15th was the 5th of the second Decade, and the 25th of the third Decade. This division was adopted by the French, in their Revolutionary Calendar, in order to get rid of the Sabbath-day.

The Jews have ever marked their time by sevenths, according to the command given by God himself, for labouring during only six days of each week, and resting on the seventh, which was consequently set apart, or consecrated, to the service of their Creator ;—nay, they not only hallowed the seventh day, or SABBATH, which formed a portion of their week of days, but they had, also, their weeks of years, which consisted of seven years ; and their Jubilees, or rejoicing periods, which were celebrated by many acts of justice, forgiveness, and restitution, at the end of every week of seven times seven years. The Hebrews, the Assyrians, Egyptians, Arabians, and Persians, all had this custom of reck-

oning by weeks. The origin of computation by sevenths has been vehemently contested by some authors, who say that the four quarters or intervals of the Moon (the phases, or changes, of which are about seven days distant), originally gave occasion to this mode of division ; but it seems more reasonable to conclude that it arose from the traditional account of the first seven days of the world's existence.

Although each lunar month contains four weeks, or four sevenths, the solar month, or that regulated by the passage of the Sun through each of the twelve signs of the Zodiac, generally contains two or three days more ; consequently, as we have twelve solar months in each year, we have fifty-two weeks and one day over, instead of fifty-eight weeks, which would be the exact number, were our year regulated merely by the revolutions or changes of the moon.

The word WEEK is of Saxon origin, and signifies a numerical series, generally, (having nearly the same meaning as "way," which is measured by successive steps,) although now expressive only of the space of seven days.

~~~~~ DAYS.

THE word DAY is derived from, or synonymous with, the Saxon "Daeg" ; and the Saxons are supposed to have had it from the same source as the Roman word "Dies" (a day,) which in its turn is said to be derived from "Di," or gods, by which name the Romans called the planets.

The word Day, in its strict sense, signifies that portion of time during which we receive the light of the Sun, but, more properly speaking, it includes the night also, and is that space of time during which the Sun appears to us to make one revolution round the Earth :—to speak with astronomical precision, it is that space of time in which the Earth makes one revolution round its own axis, during its annual or yearly progress round the Sun.

In different nations and ages the modes of reckoning the beginning of the day have been various. According to the computation of the ancient Syrians, Babylonians, Persians, and the inhabitants of Hindustan, the day commenced at the rising of the Sun ; with the modern Greeks it is the same. The Athenians, and other ancient inhabitants of Greece, as well as the ancient Gauls, began theirs at Sun-set, which mode is still followed by the Jews, the Austrians, the Bohemians, the Silesians, the Italians, and the Chinese. The ancient inhabitants of Italy computed their day from midnight ; which mode is now in common use with us and all other European nations, with the above exceptions. The Mahomedans calculate from one twilight to another. The ancient Egyptians dated from noon to noon,—which mode is at this day, and has always been, followed by astronomers,—because that instant of time can be ascertained with greater precision than any other.

The Romans gave to each of the seven days of their week the name of one of the heavenly bodies : thus "Dies Solis," signifies the day of the Sun (Sunday) :

"*Dies Lunæ*," the day of the moon (Monday); "*Dies Martis*," the day of Mars, (Tuesday); "*Dies Mercurii*," the day of Mercury (Wednesday) "*Dies Jovis*," the day of Jupiter (Thursday); "*Dies Veneris*," the day of Venus (Friday); and "*Dies Saturni*," the day of Saturn (Saturday).—From this source the English language has received Sunday, Monday, and Saturday, by translation; but Tuesday, Wednesday, Thursday, and Friday, were derived from the ancient Saxon and Danish deities, *TUESCO*, *WODIN*, *THOR*, and *FREYA*, or *FREYA*.—In all Parliamentary bills, acts, journals, and other documents, the Roman names of the days of the week have at all times been used.

CHRISTIAN FESTIVALS AND FASTS.

JANUARY.

1. **CIRCUMCISION.**—This festival was originally called the Octave of Christmas, and the first mention found of it is in the year 487. It was instituted by the Church to commemorate the ceremony under the Jewish law to which Christ submitted, on the eight day of the nativity; and was introduced into the Liturgy of the Church of England in 550.

6. **EPIPHANY.**—The word EPIPHANY signifies APPEARANCE or APPARITION. This festival is kept in commemoration of the "Manifestation" of the Saviour of mankind to the Gentiles, and appears to have been first observed, as a separate feast, in the year 813. The primitive Christians celebrated the Feast of Nativity for twelve days, observing the first and last with the greatest solemnity. From the circumstance of this festival being twelve days after Christmas, it is vulgarly called "Twelfth-day."

12. **PLOUGH MONDAY**—is the first Monday after the Epiphany, and received this appellation from its having been fixed upon by our forefathers as the period when they returned to the duties of agriculture, after the festivities of Christmas.

13. **HILARY.**—St Hilary was a pious father of the Christian Church. He was a native, and afterwards Bishop, of Poitiers. He was banished by the Emperor Constantius to Phrygia in 365, and died at Poitiers in 368.

17. **ANTHONY.**—Observed in Italy and Spain as a particular festival. St. Anthony is the patron saint of tailors.

18. **PRISCA.**—In 275 St. Prisca was beheaded by order of the Emperor Claudius, after having been in vain horribly tortured to make her abjure Christianity.

20. **FABIAN.**—St. Fabian was the nineteenth bishop of Rome. He was chosen to that office in the year 241, and after being bishop thirteen years suffered martyrdom in the Decian persecution. St. Fabian sent St. Dionysius and other preachers into Gaul, to perpetuate the Christian doctrine.

21. **AGNES.**—St. Agnes was a young Romish maiden, who suffered martyrdom in the reign of Dioclesian, 303. In several parts of England, females are accustomed to meet together on St. Agnes' Eve, to perform certain ceremonies, by which it is imagined they will be enabled to dream of their future husbands.

25. **CONVERSION OF ST. PAUL.**—The title conveys its own explanation.

30. **KING CHARLES THE FIRST'S MARTYRDOM.**—The death of Charles I. is celebrated as a fast of the Church of England, to perpetuate a remembrance of the beheading of that monarch, termed in the Book of Common Prayer, Charles the Martyr. Kept as a holiday in several of the public offices in England.

~~~~~ FEBRUARY.

2. **PURIFICATION.**—This day is kept in the Reformed Church as a solemn festival, in memory of the purification of the Virgin Mary, who submitted to the injunction of the law under which she lived, and presented the infant Jesus in the temple. The festival was celebrated in the Christian churches with an abundance of light, and was originally called **CANDLEMAS DAY**, as well as the Day of Purification. The practice of lighting the churches has been discontinued in England since the second year of Edward the VI. In the Romish Church the original name, and all its attendant ceremonies, are still retained.

2. **CANDLEMAS DAY.**—A festival of the Romish Church, and a holiday in that of England. It commemorates the attendance of the Virgin Mary in the temple, forty days after the birth of the Saviour. There is an ancient superstitious notion universal in Europe, that if Candlemas be a sunshiny day the winter is not half finished. The Germans say—"The badger peeps out of his hole on Candlemas day, and if he finds snow he walks abroad, if he sees the sun shining he draws back again into his hole." It is an ancient custom in Scotland for scholars on this day to make presents of money to their masters, and to enjoy it as a holiday.

3. **ST. BLAISE.**—The patron saint of the wool-combing craft, but upon what ground, we are not acquainted—or how he came into the Calendar of the Church of England. At Bradford, there is still a procession of the wool trade every seventh year, upon this day.

5. **ST. AGATHA.**—A female martyr; was put to death by the order of Decius in 251. Her memory is superstitiously celebrated in Sicily.

8. **SEPTUAGESIMA SUNDAY.**—Septuagesima Sunday is a Sunday dependent upon Lent, as that season is upon Easter. It is to be considered as the prepara-

tion for the fast of Lent. Its observation was instituted by Pope Gregory the Great. The name of the first Sunday in Lent having been distinguished by the appellation of Quadragesima, and the three weeks preceding having been appropriated to the gradual introduction of the Lent Fast, the three Sundays of these weeks were called by names significant of their situation; and reckoning by "decades" (ten:th,) the Sunday preceding Quadragesima received its present title of Quinquagesima, the second Sexagesima, and the third Septuagesima.

14. **ST. VALENTINE.**—The practice of choosing a "Valentine," as it is called, on this day, is too well known to need explanation. The origin of this custom has been much controverted: it is indisputably of very ancient date. Valentine was a presbyter of the Church, who suffered martyrdom under Claudius II. at Rome, A. D. 276. At Rome patron saints are chosen on this day.

24. **ST. MATHIAS THE APOSTLE.**—A festival of the Church of England. St. Mathias was chosen by lot after the crucifixion, in the place of the traitor Judas.

24. **SHROVE TUESDAY.**—After the people had made the confession required at this season, by the discipline of the ancient Church, they were permitted to indulge in festive amusements, although not allowed to partake of any repast beyond the usual substitutes for flesh; and hence arose the custom, yet preserved, of eating pancakes and fritters at Shrovetide. On these days of authorized indulgence, the most wanton recreations were tolerated, provided a due regard was paid to the abstinence commanded by the Church, and from this origin sprang the Popish carnival. From the loose pastimes of the age in which the carnival originated, are also to be traced the nearly exploded diversions of cock-fighting and cock-throwing.

25. **ASH-WEDNESDAY.**—The primitive Christians did not commence their Lent until the Sunday now called the first in Lent. Pope Felix III, in the year 487, first added the four days preceding the old Lent Sunday, to complete the number of fasting days to forty. Gregory the Great introduced the sprinkling of ashes on the first of the four additional days, which give it the names of **DIES CINERUM**, or Ash-Wednesday. At the Reformation, this practice was abolished, as being a mere shadow, or vain show.

29. **QUADRAGESIMA, OR FIRST SUNDAY IN LENT.**—Ercombert, King of Kent, first appointed the fast of Lent in England, in the year 641. Succeeding generations marked the distinctions between the various fasts. We find flesh to have been early prohibited during Lent, though Henry VIII. published a proclamation, in 1543, allowing the use of **WHITE-MEATS**, which continued in force until, by proclamations of James I. in 1619 and 1625, and by Charles I. in 1627 and 1631, flesh was again wholly forbidden.

MARCH.

1. **ST. DAVID'S DAY.**—St. David, the patron saint of Welshmen, was Archbishop of Menevy. He was a man of considerable learning, and was reputed to possess the power of performing miracles. He died in 544, and was buried in the Church of St. Andrew, but his remains were afterwards removed to Glastonbury Abbey. On this day Welshmen wear a leek in their hats, a practice supposed to have originated from their countrymen, in a great battle with the Saxons, fought in the adjacence of a leek field, having adopted that feather-formed vegetable as a military mark of distinction, by which they might distinguish each other from the enemy during the battle.

EMBER-DAYS.—After the first Sunday in Lent, the Wednesday, Friday, and Saturday are Ember-days, and the week in which they occur, Ember-weeks. On Ember-days our forefathers ate no bread but what was baked in a simple and primitive fashion under hot ashes; hence the name. The other Ember-days of the year are the Wednesdays, Fridays and Saturdays after the Feast of Pentecost, Holyrood Day, (Sept. 14,) and St. Lucia's Day, (Dec. 15.)

14. **MID-LENT SUNDAY.**—This day received its appellation because it is the middle Sunday between Quadragesima and Easter Sunday. It is by some called the "Mothering Sunday,"—a term expressive of the ancient usage of visiting the Mother or Cathedral churches, of the several dioceses, when voluntary offerings were made, which are now called Easter offerings.

17. **ST. PATRICK'S DAY.**—A grand festival of the Church of Rome, and on which every true Irishman considers it his bounden duty to make himself as happy as a Welshman does on the 1st of March. The Irish venerate St. Patrick as the introducer of Christianity into Ireland. He is supposed to have been a Scotchman by birth. The shamrock, a species of three-leaved grass, is generally worn by the Irish on this day. The favour thus bestowed upon it is said to have arisen from the saint having used it as an instrument for explaining the doctrine of the Trinity.

25. **THE ANNUNCIATION OF OUR LADY.**—This day is more familiarly known in England as Lady-day. It is kept as a festival in the English Church, in commemoration of the Incarnation of Christ. In England it is one of the quarter-days, on which rent and other dues become payable. The other quarter-days are, Midsummer-day (June 24), Michaelmas-day (September 29), and Christmas-day (Dec. 25).

~~~~~  
APRIL.

1. **ALL-FOOLS' DAY.**—This is a holiday, the origin of which cannot be traced, unless it be a travestie upon All Saints' Day, (see November 11.)

1. **MAUNDAY THURSDAY**—Edward III., in the year 1363, appears to have been the first English monarch who introduced into the country the practice of feeding, clothing, and distributing money to indigent persons on Maunday Thursday. The custom has continued without intermission to the present period; and yearly, on this day, the Lord Almoner, or in his absence the Sub-Almoner, attends for that purpose in Whitehall chapel.

4. **ST. AMBROSE**.—St. Ambrose was born about the year 340. He was son of the prefect of Gaul, and received his education in his father's palace. He composed the hymn of "Te Deum," so well known in our Church, and he converted and baptized St. Augustine.

4. **PALM SUNDAY**.—Palm Sunday is the Sunday preceding Easter, or the last Sunday in Lent. In the ancient Church, Palm Sunday, with the whole of the week which it commences, was held in strict devotion, and observed with greater rigour, as to fasting and humiliation, than any other part of the Lent season. The festival commemorates our Saviour's triumphal entry into Jerusalem, when branches of palm were spread before him.

9. **GOOD FRIDAY**.—From the earliest records of Christianity, this day has been held as a solemn fast, in remembrance of the Crucifixion. Its appellation of GOOD, appears to be peculiar to the Church of England. Our Saxon forefathers denominated it "Long Fridy," from the length of the offices and fastings on that day.

11. **EASTER SUNDAY**—Is a moveable festival, held in commemoration of the Resurrection, and being the most important and most ancient in observance, governs the whole of the other moveable feasts throughout the year.

18. **LOW SUNDAY**.—So termed from the Church service being somewhat abridged or lowered from the preceding Sunday.

\* \* Nearly the whole of the moveable feasts and holydays of the Church are determined by Easter-day, which is itself moveable, according to the following canonical regulation, viz. Easter Sunday always falls upon the first Sunday after the first full moon after the 21st day of March. If the first full moon happens on a Sunday, then the following Sunday is Easter Sunday. The first of these moveable feasts in the year is Septuagesima Sunday, and it takes place nine Sundays before Easter.

23. **SAINT GEORGE**.—Edward III., at the Battle of Calais, in the year 1349, joined to England's then supposed principal guardian, St. Edward the Confessor, the name of St. George, both of whom he earnestly invoked to aid his arms. The next year, the Order of the Garter was established, dedicated to St. George; and the saint himself has, from that period, been considered as protector of England.

25. **ST. MARK THE EVANGELIST**.—His Gospel was written in the year 68. The Order of Knights at Venice, taking his name, was instituted in the year 737

The custom of sitting and watching in the church porch on the Eve of St. Mark, to see the ghosts of those who should die in the following year, was kept up in some Northern countries till very lately.

### MAY.

1. **PHILIP AND JAMES.**—Philip was born at Bethseda ; he was one of the first disciples, and an apostle. James the Less, called also the Just, was the son of Joseph the carpenter by a former wife, prior to his espousal with the Virgin Mary. St Philip was stoned to death, and St. James thrown from a high place, and killed by falling on a fuller's staff.

[This day is more familiarly known as MAY-DAY. It has been celebrated from the earliest ages, as a kind of Nature's birth-day; and notwithstanding the havoc which the march of science and the schoolmaster have made with the good old customs of our forefathers, it is probable that May-day will long continue its hold upon human affections. May-day can hardly be said to be known in great cities. It is in the green fields, amid the song of birds and bursting of flowers, that Nature must be worshipped on a morn of May. We read of Henry VIII. and Queen Catherine riding to Shooters' Hill to meet the Lord Mayor of London, the Aldermen and Citizens, going a-Maying; but all that May-day is now known by in London is the "Jack-in-the-green" vagaries of young chimney-sweeps.]

3. **INVENTION OF THE CROSS.**—Commonly known as **ROOD-DAY**, a festival of the Romish Church, in commemoration of the supposed discovery by Helena, mother of Constantine the Great, of the Cross upon which Christ suffered. St. Paulinus, in his epistle to Severus, relates that though chips were almost daily cut off from it, and given to devout persons, yet the sacred wood did not thereby diminish.

16. **ROGATION SUNDAY.**—Rogation Sunday received and retains its title from the Monday, Tuesday, and Wednesday immediately following it, which are called **ROGATION-DAYS**, derived from the Latin "rogare," to beseech. The earliest Christians appropriated extraordinary prayers and supplications for those three days; a preparation for the devout observance of our Saviour's Ascension, on the day next succeeding to them, denominated "Holy Thursday," or Ascension day. The whole week in which these days happen is styled Rogation-week; and in some parts it is still known by the other names of Crop-week, Grass-week, and Gang or Procession-week. The perambulations of parishes are made in this week.

20. **ASCENSION-DAY, OR HOLY THURSDAY**—Is the day on which the Church celebrates the Ascension of our Saviour,—the fortieth day after his Resurrection from the dead.

27. **VENERABLE BEDE**.—Born on this day, 678, at Yarrow, in Northumberland. He was a man of great learning and piety. In King Alfred's version, Bede is styled Mass-priest, because it was his employment every day to sing the conventual mass.

29. **RESTORATION OF KING CHARLES II.**—A form of prayer is given in the service of the Church of England to be read on this day, but the day itself has lost much of the weight that was formerly attached to it. Thirty or forty years ago, it was pretty generally observed throughout England as a holiday, especially in rural districts, the country people wearing a plain or gilded oak-leaf and oak-apple in their hats.

30. **PENTECOST OR WHIT-SUNDAY.**—The seventh Sunday after Easter-day. It was on the feast of Pentecost (a great feast of the Jews), that the Holy Ghost miraculously descended on the Apostles. This and the two following days comprise Whitsuntide; and in many parts of England it is a time for hiring servants. It is named WHIT, signifying "White Sunday," because on this day the catechumens appeared in the ancient Church in white garments.

## JUNE.

1. **NICOMEDE**.—Beaten to death with leaden plummets on account of his religion, in the reign of Domitian.

5. **ST. BONIFACE**.—In 745, St. Boniface was created Bishop of Mentz: He was a Saxon presbyter, born in England, and at first called Winefrid; he was a friend and admirer of the Venerable Bede. While preaching Christianity at Utrecht, he was set upon and barbarously murdered by the populace.

6. **TRINITY SUNDAY**.—Trinity Sunday is a festival observed by the Latin and Protestant Church on the Sunday next following Pentecost, or Whitsuntide,—of which, originally, it was merely an octave.

10. **CORPUS CHRISTI**.—A festival of the Romish Church, held on the Thursday after Trinity Sunday. It celebrates, as the name indicates, the doctrine of the transubstantiation, and is observed in Catholic countries with considerable ceremony.

11. **BARNABAS**.—His proper name was Josias: he was descended of the tribe of Levi, and born at Cyprus, but educated under Gamaliel at Jerusalem. He preached the Gospel with St. Paul, in various countries, for fourteen years. He suffered martyrdom at Salamis, in his native isle, being stoned to death by the Jews.

15. **ST. VITUS**.—A Sicilian martyr.

17. **ST. ALBAN**.—The first Christian martyr in the island, who, refusing to perform the sacrifice to Pagan gods, was first miserably tortured, and then put

to death in 303. He was converted to Christianity by Amphialus, a priest of Caerleon, Monmouthshire, who flying for protection from persecution, was hospitably entertained by St. Alban at Verulam, in Hertfordshire, now called after his name, St. Alban's. Amphialus being closely pursued, made his escape in St. Alban's clothes. This, however, being soon discovered, exposed St. Alban to the fury of the Pagans, and he, refusing to perform the sacrifice to their gods, was first miserably tortured, and then put to death.

20. **TRANSLATION OF EDWARD, KING OF THE WEST SAXONS.**—In 978, Edward being barbarously murdered by his mother-in law, was first buried at Wareham without any solemnity, but after three years was carried by Alferus to the Minister of Shrewsbury, and interred with great pomp.

24. **ST. JOHN THE BAPTIST.**—The Nativity of St. John the Baptist ; a holiday of the Church of England. The Eve of St. John, variously called Midsummer Eve, was formerly a time of high observance amongst the English, as it still is in Catholic countries. Fasting St. John's Fast was a great feat of young women a century or two ago. There was also a custom of holding vigil in the church porch.

29. **ST. PETER'S DAY.**—A high festival of the Romish Church, and a holiday of the Church of England. It is celebrated at Rome with illuminations and magnificent ceremonies. In England, till a recent period, bonfires and watching of St. John's Eve were also customary on the eve of this festival. This is a great day at Rome.

## JULY.

4. **ST. ULRIC'S DAY.**—On this day, in ancient Catholic times, the people brought fish to the altar to obtain the favor of St. Ulric, and one stood there selling the same back to the public for the benefit of the church.

4. **TRANSLATION OF ST. MARTIN BULLION.**—Retained in the Church of England calendar, though not observed.

7. **ST. THOMAS A'BECKET.**—Commemorative of the assassination of this extraordinary man before the altar in Canterbury cathedral.

15. **ST. SWITHIN'S DAY.**—Remarkable on account of a well-known popular notion, that if it rain on this day, there will be more or less rain forty days to come. He was an eminent and learned bishop of Winchester, and priest to King Egbert. He was the deviser and originator of tithes in England. The story runs, that being buried at his own request in the churchyard of the cathedral, the priests, a hundred years after, felt desirous of doing him greater honor, and commenced the work of translating his remains into the interior. This was on the 15th July. They were stopped in their work by a heavy fall of rain ; neither could they resume their duty next day, for the heavy rain still continued. In short,

this rain lasted forty days, by which time the priests became convinced that it was to stop them in a work which, though well meant on their part, was ill taken on that of the saint, and they gave up the point. Ever since then it has been held as a maxim, that if there be rain on St. Swithin's Day (the 15th of July), there will be rain for forty days ensuing.

20. **St. MARGARET'S DAY.**—St. Margaret, an Italian virgin, was martyred in 278. The day has ceased to be kept, although the name is still retained in the calendar.

22. **MARY MAGDALEN.**—Both Latins and Greeks keep this festival. It is in some places a holiday of precept, and was such formerly in England, as appears from the Council of Oxford in 1222. She died at Ephesus.

25. **JAMES THE APOSTLE.**—This day has ceased to be observed. Formerly apples were blessed on St. James's Day by Catholic priests, and there was a popular belief that whoever eat oysters on this day, the first (old style) of their appearance in London, would not want money for the remainder of the year.

26. **St. ANNE.**—Mother of the Virgin Mary. The Hebrew word *ANNE* signifies "gracious." A church was built to her honor at Constantinople about the year 550.

## AUGUST.

1. **LAMMAS-DAY, CALLED THE GULE OF AUGUST.**—It is now only remarkable as a day of term for some purposes. It was probably one of the great festival days of our heathen ancestors, and it is worthy of observation that it occurs exactly three months after another of them—Beltane. Cormace, bishop of Cashel in the tenth century, records that in his time four great fires were lighted upon the four great festivals of the Druids, namely, in February, May, August, and November; probably Beltane and Lammas were two of those. Lammas seems to have been held as a day of thanksgiving for the new fruits of the earth. It was observed with bread of new wheat, and there was a custom in some places, at no distant period, for tenants to be bound to bring in wheat of the new crop to their lord, on or before this day. The most rational explanation of the word is that which derives it from the Saxon "Halfmasse" (loaf-mass, or the loaf-festival), the *f* being in time softened away on account of the difficulty of pronouncing it before *m*. The Gule of August is probably from the Celtic *Cul* or *Gul*, (a festival anniversary.)

6. **TRANSFIGURATION.**—Instituted by Pope Calixtus, in commemoration of Christ's transfiguration on the Mount.

7. **NAME OF JESUS.**—A festival of the primitive Roman Church; first dedicated to Afra, afterwards to Donatus.

10. **St. LAWRENCE.**—Assassinated by the soldiers of the Emperor Valerian,

and his body roasted on the gridiron. The church of the Escurial at Rome, dedicated to him, is built in the form of a gridiron. St. Lawrence is the tutelary saint of the Spawiards. In the reign of Constantine the Great a church was built over his tomb on the road to Tibur : it is one of the five patriarchal churches in Rome.

15. **THE ASSUMPTION OF THE BLESSED VIRGIN.**—A grand festival of the Romish Church, and a day noted in the calendar of the Church of England. It was instituted in 813, to celebrate the ascension of the Virgin into Heaven. In Catholic countries, this day is marked by splendid ceremonies and processions.

24. **ST. BARTHOLOMEW'S DAY.**—A holiday of the Church of England. St. Bartholomew was an apostle, but there is no Scriptural account of his labours or death. The legend of the Romish Church represents him as preaching in the Indies, and concluding his life by being flayed alive by order of a brother of the King of America. In memory of his death it was customary at our monastic institutions, in the middle ages, to distribute small knives amongst the people. The day has a horrible celebrity in connection with the massacre of the Protestants at Paris, in 1472.

28. **ST. AUGUSTINE.**—A learned bishop of the Romish Church, who died in 430. Luther affirms that since the Apostles' time the Church never had a better minister.

~~~~~  
SEPTEMBER.

1. **ST. GILES'S DAY.**—St. Giles was a native of Greece, and became Abbot of Nismes in 715. He literally obeyed the Scriptural injunction by selling his patrimony for the benefit of the poor, and on one occasion gave his coat to a sick mendicant, who was cured miraculously by putting it on. St. Giles has thus become the patron saint of beggars and cripples. St. Giles's Church, Cripplegate, London, and the High Church in Edinburgh, are dedicated to him, and he is the patron saint of the Scottish capital, as far as it can be said to have one.

8. **THE NATIVITY OF THE BLESSED VIRGIN.**—A grand festival of the Romish Church, and still retained in the Church of England calendar. This festival has been held in honor of the Virgin, with masses, homilies, collects, processions, and other ceremonies, for upwards of a thousand years. According to the Catholic writers, a religious contemplative, every year, upon the 8th of September, heard most sweet music in Heaven, with great rejoicing of angels. Once he asked one of them the cause, and was told that upon that day was celebrated in Heaven the nativity of the Mother of God. The birth-day of the Virgin being thus miraculously communicated to mankind, Pope Servius instituted this festival to hold it in honor.

14. **HOLY CROSS.**—Or **HOLY ROOD-DAY**, the day of the exaltation of the Holy Cross.—A festival of the Romish Church, still retained in the Church of England

calendar. It celebrates the miraculous appearance of a cross in the heavens to the Emperor Constantine. The Wednesday, Friday, and Saturday after Holy-rood-day, are Ember-days, and the week in which they occur consequently an Ember-week.

21. **ST. MATTHEW**.—One of the four Evangelists. St. Matthew wrote his Gospel to satisfy the converts of Palestine; St. Mark for the faithful at Rome; St. Luke to oppose false histories; and St. John, at the request of the bishops of Asia.

26. **ST. CYPRIAN**.—First a conjuror, next a martyr, and now a Roman saint.

29. **MICHAELMAS-DAY**.—A grand festival of the Romish and English Churches, established 487, in honor of St. Michael and all the holy angels. St. Michael is singled out for peculiar mention as being the chief of angels or archangels. It is an ancient and extensively prevalent custom to have a goose for dinner on Michaelmas-day. Very curious and recondite origins have been assigned to the custom, but it seems to have arisen simply from the goose being at its best immediately after it has had the range of the reaped harvest field. The theological character of Michael is obscure. Suffice it here to quote the remark of Wheatley, in his Exposition of the Book of Common Prayer, "that the feast of St. Michael and all Angels is observed that the people might know what benefits are derived from the ministry of angels."

30. **ST. JEROME**.—A learned Romish priest, who died this day 402.

OCTOBER.

6. **ST. FAITH**.—A female Martyr; tortured by the tyrant Dacian, prefect of Gaul under Dioclesian and Maximian.

9. **ST. DENIS**.—The patron saint of France. St. Denis was put to death with some companions, in the year 272, upon an eminence in Paris, since called from the circumstance, Montmartre (Mons Martyrum). According to the legend, his head had no sooner been cut off than the body rose, and taking up the head, walked with it two miles. Portraits of St. Denis carrying his head in his hand abound in many of the old prayer-books.

13. **EDWARD**.—Edward, king and confessor, the founder of Westminster Abbey. He was the first monarch who touched for the King's Evil.

18. **ST. LUKE THE EVANGELIST**.—The festival, held in commemoration of this Evangelist, was first instituted by the Christian Church in the year 1130.

25. **ST. CRISPIN AND CRISPINIAN**.—The name of St. Crispin is in the Church of England calendar. Crispin and Crispinian are said to have been two Roman youths of good birth, brothers, who in the third century went as Christian missionaries to France, and preached for some time at Soissons. In imitation of St. Paul, they supported themselves by working at the trade of the shoemaker by

night, while they preached during the day. They were successful in converting the people to Christianity until arrested in their course by Ricitus Varius, governor under the Emperor Maximian Hercules. Butler, in his *Lives of the Saints*, says, "They were victorious over this most inhuman judge by the patience and constancy with which they bore the most cruel torments, and finished their course by the sword about the year 287." The two young martyrs were of course canonized, and a splendid church was built to their honor at Soissons, in the sixth century. The shoemaker craft throughout the whole Christian world, from an early period, regarded Crispin and Crispinian as their patron saints, but particularly the first. They often celebrated the day set apart for these saints in the calendar with processions, in which Crispin, Crispinian, an Indian prince, and some other personages whom tradition had associated with their history, are represented in splendid antique dresses. Sometimes a coronation is part of this ceremony, for there is a notion that he was a royal personage; and hence we find the shoemakers in Scotland, at least, assuming for their arms a leather knife surmounted by a crown, and styling themselves "the royal craft."

23. **ST. SIMON AND ST. JUDE.**—A festival of the English Church. Simon, usually surnamed "the Canaanite," remained with the other Apostles till after the Pentecost. It has been surmised that he visited Britain, and there suffered martyrdom. Jude, otherwise called Thaddeus, and thought to have been the son of Joseph by a former wife, is said to have suffered martyrdom in Persia.

~~~~~  
NOVEMBER.

1. **ALL SAINTS.**—All Saints, or All-Hallows, in the Protestant Church, is a day of general commemoration of all those saints and martyrs in honor of whom, individually, no particular day has been expressly assigned.

2. **ALL SOULS' DAY.**—A very solemn festival of the Romish Church, which has masses and ceremonies in favor of the souls of all the dead.

4. **KING WILLIAM LANDED.**—"On the 3d of November," says Burnet, who was in the fleet, "we passed between Dover and Calais, and before night saw the Isle of Wight. The next day, the 4th, being the day on which the Prince was both born and married, he fancied, if he could land that day, it would look auspicious to the army, and animate the soldiers; but others, who considered the day following was Gunpowder Treason day, thought our landing that day might have a good effect on the minds of the English nation. And Divine Providence so ordered it, that after all hopes of our landing at Torbay were given up, and Russell bid me GO TO MY PRAYERS, FOR ALL WAS LOST, the wind suddenly shifted, and carried us into the desired haven-

Here the prince, Marshal Schomberg, and the foot soldiers, lauded on November the 5th." The almanac is thus at variance with the historian.

5. **GUNPOWDER PLOT.**—This day is commonly called Gunpowder Treason, and has been kept as an anniversary in commemoration of the Great Plot of 1605. Celebrated in the Church of England by a form of prayer with thanksgiving; but the day is chiefly noted by the triumph of schoolboys over the effigy of Guy Fawkes.

11. **ST. MARTIN'S DAY, OR MARTINMAS.**—Popularly this is one of the most remarkable days of the year, especially in Scotland, where Whitsuntide and Martinmas are the two great terms for leases and engagements of servants, the latter being that at which the occupation of farms usually commences. Martin is said to have been born in Lower Hungary, about 316, and to have originally been a soldier. After a number of miraculous adventures, he settled as a hermit in the hollow of a rock near Tours, in the South of France, where he was greatly venerated. He died Bishop of Tours in 397. When a few fine days occurred about this time of the year, they were called St. Martin's summer. Formerly this was a quarterly day in England. A payment of corn at Martinmas occurs in the Domesday Survey. It is still retained in the Church of England calendar.

13. **ST. BRICE.**—Bishop of Torres: died 444. He was not a saint of any great mark.

15. **MACHUTUS.**—Can any learned reader inform us who was Machutus?

22. **EDWARD,** King of the East Angles, murdered by the Danes in the invasion in 870.

22. **ST. CECILIA.**—Suffered martyrdom in the reign of Alexander Severus. St. Cecilia is regarded as the patroness of Church music.

23. **ST. CLEMENT.**—Clement is spoken of by St. Paul as one of his fellow-labourers. Monkish imagination has supplied him with a history and a martyrdom. He is said to have been thrown into the sea with an anchor fixed about his neck. St. Clement is held as the patron saint of the blacksmiths.

25. **ST. CATHERINE.**—Condemned to suffer martyrdom by order of the Emperor Maximian, on a spiked engine made of four wheels—hence the "Catherine Wheel." It is alleged that at the first stirring of the terrible engine, the cords broke asunder by the invincible power of an angel, and the engine, falling in pieces, she was delivered from that death. Our readers will, of course, believe as much or as little of these Romish miracles as they think fit—a privilege we deem it proper also to adopt for ourselves. Our business is simply to relate these things as we find them.

28. **ADVENT** [literally "the coming"]—a term applied from an early period of ecclesiastical history to the four weeks preceding Christmas, which was observed with penance and devotion in reference to the approaching birth of Christ. There are four Sundays in Advent, the first of which is always the nearest Sunday to St. Andrew's Day, (November 30.)

30. **ST. ANDREW'S DAY.**—St. Andrew was one of the Apostles. His history, as related by the Catholic writers, represents him as martyred in the year 66, at Patræ in Greece, upon a cross of the form of the letter X, which accordingly is still recognised as St. Andrew's Cross.

~~~~~  
DECEMBER.

6. **ST. NICHOLAS.**—Retained in the Church of England calendar. St. Nicholas was Archbishop of Myra, in Greece, A. D. 302. He is regarded as the patron saint of children and mariners, probably in consequence of his benevolent zeal in the protection of orphans and stranded seamen. Churches built near the sea are in many instances dedicated to St. Nicholas.

8. **CONCEPTION.**—A Romish festival in remembrance of the Virgin Mary being born purified from original sin.

13. **ST. LUCIA.**—St. Lucia was a young lady of Syracuse, who retained a high character for a charitable life, and died in the year 304. The last of the four series of Ember-days commences on the Wednesday following this festival.

16. **O SAPIENTIA.**—So marked in the Church of England calendar, from an anthem sung on this day in the Romish Church, beginning "O Sapientia."

21. **ST. THOMAS.**—A festival of the English Church. It was customary in England to go "a gooding" on St. Thomas's Day; that is, they went about begging money, and presenting in return sprigs of palm and bunches of primroses, with a view to the decoration of their houses against Christmas.

25. **CHRISTMAS-DAY.**—Observed from an early period as the nativity of our Lord. In England, Christmas-day is kept by the Church as a solemn festival, and is distinguished by the complete cessation of business—an honor paid to no other day besides Sunday and Good Friday. In many country places the celebration of Christmas begins the latter part of the previous day—Christmas Eve.

26. **ST. STEPHEN.**—One of the seventy-two disciples of Christ. He was stoned to death. He was the FIRST MARTYR to the Christian faith.

27. **ST. JOHN THE EVANGELIST.**—Observed by the Church of England, because John drank poison without dying. In consequence, it was supposed that those who put their trust in him were safe from all injury from that cause.

28. **CHILDERMAS, OR HOLY INNOCENTS' DAY.**—Observed by the Church of Rome with masses for the children killed by Herod. It was considered unlucky to marry, or to begin any work, on Childermas-day. The learned Gregory says,—"It hath been a custom to whip up the children on Innocents' Day morning, that the memory of Herod's murder might stick the closer, and in moderate proportion to act over the cruelty again in kind,"—a custom, certainly calculated to make upon children a lively impression of the faith they were born to.

Under the word YEARS, find the year above which is the Dominical or Sunday letter for the year; then against the month in the other table, find the same letter, over which are placed the days of the month for every Sunday in that month.—Each blank space shows the year following to be leap year.

N. B.—In every leap year, for January and February use the letter above the blank space before that year, and for the other months, use the letter belonging to the respective year.

To find out when it is leap year, divide the year by 4; if there is no remainder, it is leap year, and if any remainder, it is 1, 2, or 3 years after leap year.

JANUARY was placed as leader of the months by Numa Pompilius, when he added two months (January and Feb.) to the Alban Calendar, though it was not admitted to the same precedence in this country until a motion was made to that effect on March 18, 1750. The name is derived from Janus, the god of the year, in the Roman mythology, to whom the day was sacred. The idol Janus was placed over the gate of a temple at Rome; and was represented with two faces, the one that of an old man, being typical of his retrospect of the past; and the other, a youthful countenance, denoting prospect of the future. This ingress of the year, should, in fact, convert every man into a Janus, that he might look back and survey the past year of his life, as well as look forward and contrive for that which is just begun. The Romans sacrificed to Janus on the 9th day of this month, and to Jove on the 13th; and on the last, or 31st day of the month they had a ceremony with their household gods, called diis penatibus. Janus presides over gates and avenues: thus symbolically he admitted the new year, and attended the departure of the old.

FEBRUARY was made the second of the twelve months by Numa Pompilius. Its name was derived either from Februus, a title which the Romans gave to the Feralia sacrifices; or more probably from Februus, to purify, because this being originally held to be the last month of the year, the people offered an expiatory sacrifice for their 12 months' sin. Feralia, or feast in honour of the Ghosts, was held on the 11th—the Lupercalia, in honour of Pan, the god of hunters, the shepherds, and country people, on the 18th—and the Terminalia, or feast in honour of Terminus, the guardian of boundaries or landmarks, on the 22nd or 23rd of the month.

MARCH, which with the ancients ranked the first month of the year, was named in honour of Mars, the supposed father of the founder of Rome. Our Anglo-Saxon ancestors called it *Lent* Month, that is *Lent* or *Spring Month*. Marriages in this month were seldom solemnized, as they were counted likely to become inharmonious and unhappy. The 15th day of March, or according to the Roman Calendar, the 15th of the month, was the *Paricidium*, the day on which Julius Cæsar was murdered in the Senate House by Brutus and Cassius, with other conspirators. The same day was also the feast of Anna Berenna, the sister of Dido, who fled into Italy to Æneas. On the Calends of March, the 1st of the month was the *Matronalia*, kept by the matrons to the honour of Mars.

APRIL.—By the Saxons it was called Ostre Month, probably from the same word from which Easter is supposed to have been derived. The Dutch and Germans called it Gras Month. The name of this month is derived from the Latin word Aperio, to open or disclose. The term applies to the opening of the year, or to the unfolding of the buds and flowers, by the influence of the genial warmth and moisture of Spring. The reason why our months, and many of our festivals, are to be ascribed to Roman designation and institutions, is the early footing which that people obtained in Britain, and the sanction that their customs received in consequence of the higher orders of British youths being sent to Rome for education.

MAY.—The Hebrews named this month of their calendar, which is synonymous with the fifth of our own, Sivan, from a Chaldaic word signifying "to rejoice." The Anglo-Saxons knew it as Tri-milch, because their cows, stimulated by the fresh herbage, were so productive of milk as to enable the proprietors with advantage to bring them to the pail three times a-day. The Romans offered sacrifice to Bona Dea, or Maia, on the first day of the month.

JUNE—was the Thamur or Tamuz of the Hebrews, that is, after their escape from the Baby-
lonish captivity, for previously to that they had simply distinguished their months by aid of nu-
merations. Thamur, or Tamuz, signifies continuance and perfection, alluding, probably, to the
almost uninterrupted daylight maturation of fruit, &c., which occur during its continuance.

JULY, the fifth month of the Roman Calendar, received, in consequence, the name of Quintilis, to denote its numerical position. It was sacred to Jupiter, and had in the Alban Calendar thirty-six days. Romulus took from it five days. Numa reduced it to thirty, but Julius Cæsar enlarged it to thirty-one, the present number. In honour of this conqueror, Mark Anthony changed its name from Quintilis to Julius—hence our July. Our Saxon forefathers, who commonly named their months from certain appearances or events, denominated this month *How-monath*, or *Hey-monath*, since this was their hay harvest.

AUGUST.—This month derived its name from Augustus, the Roman Emperor; it was called Sextilis, or the sixth month, in the Alban Calendar, in which it had only twenty-eight days assigned to it. Romulus added two, and Augustus a third, which number it has since retained. The Anglo-Saxons called it either Barn Monath, alluding to this being the period when their barns were commonly filled, or Wood Monath, clothing month, alluding to their fields being then clothed with corn, just as the Romans dedicated this month to Ceres, the goddess of harvest.

SEPTEMBER.—In the Latin and Roman Calendar, this was the seventh month; and hence its name for Septem, seven, Imber, a shower of rain, this being the commencement of the rainy season. It had only sixteen days assigned to it in the Alban Calendar; these were increased to thirty by Romulus, to thirty-one by Julius Cæsar, but Augustus reduced it to its present number. The ancient Saxons called it Berst Monath, or Barley month.

OCTOBER was called by our Saxon forefathers Wynn monath, or Wine month, and sometimes winter fylleth, from the approach of Winter. It was the eighth month of the Alban Calendar, in which it had thirty-nine days. Its name is derived from the Latin, octo, eight, and imber, a shower of rain. Romulus reduced it to thirty-one days, Numa to twenty-nine: Julius and Augustus each added one, and this number has not since been altered.

NOVEMBER.—The early Saxon inhabitants of England called this *Blott monath*, or slaughter month, because, in these primitive days winter food was so scarce in England that it was usual to kill and salt the great part of their winter meat in this month; they called it also *Wirt month*, or Wind month. Its name is derived from the Latin *Novem*, nine, and *Imber* a shower. It was so called in the Alban Calendar.

DECEMBER.—The month of December, so named by the Romans from being the tenth or last month into which they divided the year, was denominated by the Saxons *Winter monath*; but after Christianity, they pliously gave the name of holy month, or, *Heligh monath*.

INTRODUCTION.

THE only explanation which is conceived necessary to render the scheme of the following Calendar fully understood, is that the Christian months indicated at the top of each page divide the Native months as they appear represented in the space below allotted to their names:—January, for example, partakes of the Hindoo months Marroo, Poush and Magh,—Guzeratt, Duxun and Concan, Margashirsh, and Poush,—and Malabar, Dhanuh and Magaram,—the Parsee months Shaenshoyee, Teer, and Amoordad ; Kudmee, Amoordad and Sharaver ; and the date of Nowroz 127 to 157,—and the Mahomedan months Suffer and Rubee-ul-avul.

From the columns is to be collected, that the 1st of January corresponds with the 9th of Poush Shood, Marroo,—the 10th of Margashirsh Vud, Guzeratt, Duxun and Concan ; 19th of Dhanuh, Malabar ; the 7th of Teer, Shaenshoyee ; the 7th of Amoordad, Kudmee ; the 127th day of Nowroz or Kudmee ; and the 16th of Suffer, Mahomedan : and so throughout the year.

We have also endeavoured to discriminate the feasts and festivals of each nation by different sorts of type : the Hindoos, for example, we have distinguished by Roman small letters, as Magh Shood ; the name of the Malabar month by

Roman capitals, as **MAGARAM** ; the Parsees by small capitals, as **AMOORDAD** ; the Mahomedan, by Italic small letters, as *Mohurrum*.

HINDOOS.

It may here be observed, that the Hindoo lunar months invariably consist of 30 Tithes, or lunar days ; and the whole month is divided into two equal parts, of 15 Tithes each: the one called Shookla Puksh, or Shood—the bright half or increase of the Moon ; the other the Krishna Puksh, or Vud, the dark half or decrease of the Moon. The lunar month begins, on the Western side of India, and South of the Nurbudda River, with the first day of the Shookla Puksh, (Shood Prutipuda) or bright half of the Moon.—At Benares, Oojein, and the countries North of the Nurbudda, the lunar month begins with the first day of the Krishna Puksh, (Vud Prutipuda) or dark half of the Moon. The first is designated the Shookladee mode of reckoning, and the latter, the Krishnadee. The lunar year begins with the first day of the Shookla Puksh, or bright half of the Moon in Chytr, both North and South of the Nurbudda, in every country in India; but as the dark half of the Moon precedes the other, or Shookla Puksh at Benares, the half lunar month of Chytr is taken from the last lunar month of the year preceding, and considered to belong to it.

It has been already stated that the lunar month invariably consists of 30 Tithes or lunar days, but it has been customary with all Eastern nations, in order to regulate their fasts and festivals, to drop certain lunar days, and to reckon others twice, to make up the deficiency: the first of these are termed by the Hindoos Kshuvu Tithes (perishable days,) and the days repeated twice are called Vridh Tithes (additional days.) The rule of these is exceedingly simple:—those lunar days on which the Sun does not rise, (Sooryoduyu nuheen) are struck out; those in which it rises twice are Vridh, or additional; and it is obvious that such circumstances will occur about six times in the course of the lunar year.

PARSEES,

THERE are at present two branches of the Parsees, who differ one month in the year from each other; those that forward one month in their year are styled Kudmees, and the rest Shaenshoyees. The present scheme embraces the Parsee æra of Yezdezard, commonly styled Kudmee or Dureeayee Nowroz, or Sea-reckoning, the same being made use of in all nautical calculations among the Asiatic mariners, the new year of which always commences on the 1st day of Furverdeen. The Kudmees reckon the new year, and the Dureeayee Nowroz, to fall on the 28th of August, one month earlier than the commencement of the Shaenshoyees' new year.—It also embraces the Parsee æra of Yezdezard, commonly called Shaenshoyee, the new year of which generally begins on the last day of Furverdeen. The Shaenshoyees compute the new year to commence from the

27th of September, a month later than the commencement of the Kudmees' new year.

MAHOMEDANS:

THE first day of Mohurram, or the commencement of the year, is ordinarily reckoned from the first appearance of the Moon, after the conjunction observed from an eminence of any sort, or even in cloudy weather, from the time at which, but for these obstacles, it would be visible: and this can scarcely happen earlier than 24, or later than 48 hours after the conjunction.—After this manner each several month is reckoned, and the lapse of twelve such months constitutes the Mahomedan year.

NATIVE FESTIVALS.

HINDOO.

MUCKUR SUNKRANT.—On this day the sun enters the sign 'Muokur,' or Capricorn.—[Vide 12th January.] The Hindu festivals are so numerous, and the observances of them are so intricate, that they often bewilder a mind when he sits down to describe them. And it is equally difficult to point out which of the festivals is the greatest. The writers of the Hindu legends have set such enormous merit on the observances of each of them, as to surpass all human comprehension; and they have ever unhesitatingly said that those observances themselves will obtain heaven. Great rejoicings are held among the Hindus, but particularly among the Brahmins, on account of the feast of Muckur Sunkrant, when the sun reaches the most Southern sign of the Zodiac Muckur, or Capricornus. From this day till the time of his leaving the most Northern and returning towards the Southern signs of the Zodiac, he is called Utarayan, and his passage to the most Southern sign is called Dukshanayan. The vernal and autumnal equinoxes divide the Utarayan and Dukshanayan into two equal parts: the days Utarayan are esteemed lucky, and those of the Dukshanayan unlucky. During the days of Dukshanayan it is said that the gates of heaven are shut, and in the Utarayan they are open. For men to die in the Utarayan is considered more blessed,—because they get immediate entrance into heaven; but if the righteous die in the Dukshanayan, they shall have to wait outside of the gates till the Utarayan sets in. In the days of Utarayan Moonj, the ceremony of investing the youths with the sacred cord, and marriages, are celebrated. The ceremonies that are solemnized at the day of Muckur Sunkrant, just at the time of the sun's entrance into the sign, are these:—The Hindus go to the sea, accompanied by a Brahmin priest, to bathe: there they rub their bodies with tillas,* and wash

themselves in the manner perscribed in the Shastra. The Brahmin then repeats certain incantations suited to the occasion, and closes the ceremony by receiving due adoration, and a present of money for himself. On their return home they invite Brahmins, present them with a cup of bell-metal filled with tillas and some money, according to the ability of the Yazaman. Some even present the Brahmins with copper pots, new dhoturs, umbrellas, &c., and the whole family receives benediction from them, which is done by the Brahmins repeating certain words, and throwing on their heads a few grains of red coloured rice. After the performance of this ceremony, they go to take their meal, which consists of sweetmeats. They invite their friends and relations to dinner; and towards evening, they wear new clothes, gold and other ornaments, and frequent the houses of their friends and relations, distributing tillas mixed with sugar. At the time of putting the tillas into the parties' hands, they repeat these words: "Receive these tillas mixed with sugar, and be friendly with me throughout the whole year." All the praise and prayers that are offered this day are to the Sun, and to no other god. The second day of Sunkrant is named Kur, which is generally celebrated by women by making small presents among those of their own sex.

WUSUNT PUNCHAMEE seems to have been instituted in honour of the Spring, which season is personified under the name of Wausunta, who is fabled as attending on Kama or the god of love.—[Vide 6th February.]

RUTHSOPTUMEE is dedicated to the worship of the Sun. This day is the beginning of the Munwuntura, or period embracing the reign of a Munoo, of which 14 govern in succession during the different ages of the world. The present age is under the dominion of the 7th Munoo—and at the commencement of this period a new sun is supposed to have mounted his chariot.—[Vide 8th February.]

SHEVARATREE.—A fast day in honor of Shiva, during which the Linga, or Bacchio-phallus, is worshipped.—[Vide 1st March.] Vudh Chuttoordasee, or the 29th of every month, is kept sacred by the votaries of Shiva; but Magh Vudh Chuttoordasee has obtained its peculiar epithet, Maha Shiva Ratree, or the great night of Shiva. The Hindu legends account in the following manner for its notoriety among the rest of Shiva Ratrees.—In time immemorial an archer of wicked and licentious habits went into a forest this day, to shoot deer. He spent the whole day in the pursuit of his game, and on a sudden night came on, and he was left to the mercy of the wild beasts. When he found himself in such a forlorn condition, he had recourse to a Bale or Bilwa tree* to secure himself from attack. Having got up on the tree, by way of relaxation, or to get a clearer view, he broke off all the branches that hung around and above his head, and flung them down: fortunately the twigs which he threw fell on the Linga of Shiva, which was near the foot of the tree. Shiva was so much pleased and satisfied by the accidental worship of his votary, that he forthwith sent a Veman,

* A favourite tree of Shiva's, and which is held sacred among the Hindoos.

or heavenly chariot, and took the hunter into Kylas, his own abode, with acclamations of joy. To commemorate this great event of the entrance of the archer into Kylas, the Hindus observe a fast this day, and worship Shiva in hopes of obtaining like merit. Observance of Shiva Ratree :—This day the votaries of Shiva fast, and, in the night, repair to the temples of Shiva, accompanied by a Brahmin priest, who performs Pooja by repeating certain incantations : first he pours some water over the Linga, and washes it, and afterwards he decorates it with choice flowers. When this is done, the priest takes his sacred book, wherein Shiva's thousand different names are written, and reads the names : and the Yajaman, the worshipper, flings a leaf of Bale over the head of the Linga each time. This kind of Pooja is performed four different times during the night, and thus wake is kept up for the whole night. This is styled the Pooja of the four Praharas, or watches. It commences at about eight P. M., and ends at five A. M. This night the Pagodas of Shiva are thronged by devotees. Some persons engage twelve Brahmins and others four, &c., to perform the Pooja, according to the abilities of the Yajaman. The Brahmins must be liberally paid for their labours.

HOLEE (Sanskrit—*HOLIKA* OR *PHALGUTSUVA*.)—This festival, called also *Doluvatra*, or the swinging festival, is supposed by Sir W. Jones to relate to the vernal equinox, and to be similar to the Persian *Nowroz*. It commences 15 days before the full moon, on which the ceremonies are terminated, and is held in honor of Krishna. In the freedom with which the lower classes now behave towards their superiors, this festival resembles the Roman *Saturnalia*; and in the sending people on bootless errands, it corresponds with our 1st of April. Red powders are daubed upon the image of the god, and thrown and squirted by his worshippers on each other, while females are saluted by exclamations and jests of no very chaste description. The wheaten cake which is placed on the pile lighted at the close of the festival is called *pollee*, and the right of first offering it in a village is considered as an honorary privilege. Neither the origin of this festival nor the manner in which it is observed can be described. Nor is this manner of observing it confined to the lower classes of the native community—the highest apparently joining in it with the same zest as the lowest. This festival nominally continues from the new to the full moon, but only a few of the last days are practically and openly devoted to it. For two or three days no respectable women appear in the streets, so obscene and abusive is the language in almost every one's mouth, and applied to any woman they may happen to see. It is often called *Shimga*, from the name of the month in which it occurs.—[Vide 17th March.]

THE HINDOO NEW YEAR (*Shalivan*, called *Goody Padwa*.)—On the morning of this day a Hindoo first rubs oil upon his body, and then bathes himself with warm water. A pole bearing a flag, and surmounted with a brass or copper vessel, is erected in front of the house. One such pole must

be erected by each family. This represents the banner of Indra, the king of the gods, which on this day is also raised in honor of him by the gods. What is done here on earth is therefore in imitation of what takes place in the heaven of Indra—The leaves of the bitter nimb tree are then to be eaten, which secures health to the body, because this tree is the offspring of the Ambrosia of the gods. The almanac for the new year is then to be worshipped, and its predictions in regard to the year just commencing are to be heard from the mouth of the Jotishes. They tell whether there is an abundance or a scarcity of rain, whether there will be unusual heat or cold; whether robberies, insurrections, &c., are to abound, whether unusual sickness is to prevail, &c. &c. Each individual on this day also learns what he is to expect during the year; whether health or sickness, prosperity or adversity, is to be his portion, &c. &c. All this important information is not of course to be obtained without some compensation. And not only are presents to be given to the Jotishes, but the poor people are taught on this day to extend their liberality also to the Gooroos and Brahmins. The day is also to be celebrated by feasting. This is an auspicious day for commencing a new building, or engaging in any new undertaking.—[Vide 2nd April.]

RAM NOWMEE.—On this day Ramchundru, the 7th incarnation of Vishnoo, was born at Ayodhya or Oude, about B. C. 1600.—[Vide 29th March.] Rama is supposed to be the same as the Grecian Dionysius or Bacchus, and the object of the incarnation was to effect the destruction of Rawun, the ten-headed tyrant of Lunka or Ceylon, which was at last done with the assistance of Hunooman, the chief of the Monkey tribe. The birth of Rama is, strange to say, celebrated eight days previous to its occurrence, that is, from the first of Chytru Shoodh to the ninth. From the first day the temples of Rama are whitewashed, and illuminated in the evening, and the image of Rama is adorned with costly ornaments. In the evening the Ramayan, or the sacred legendary history of Rama, is read in the temples, and in the night Kirtun is preached by the Hurridas, who describes the morality and heroic actions of Rama. Nantohes are also not omitted during the nights. In some temples Brahmins are fed with a rich and substantial dinner for eight successive days; these days are denominated Rama Naoratree, or nine nights of Rama. During these days, many Hindus, both males and females, go to the temples of Rama to hear the Kirtun and Pooran. The last or principal day is Ramnowmee, when, it is said, Rama became incarnate at noon. In honor of this incarnation, the Hindus fast the whole day. They get up in the morning, wash themselves, and put on rich clothes and ornaments, and repair to the temples of Rama at about 9 o'clock. Every temple of Rama is well furnished this day, and images are decorated with precious ornaments and rich brocade. A Hurridas is engaged to describe the birth and circumstances that attended this incarnation. He continues his prattling till twelve o'clock, when he brings a small image of Rama nicely ornamented and well clad, and shows it to his audience, and tells them that it is Rama, who became incarnate; and puts it into a small

cradle prepared for the purpose. The assembly then throw themselves prostrate before the image and worship it. Great is the rejoicing and acclamation of the assembly on this occasion; they fling golal, a red powder, on each other, and with great mirth about one o'clock they return home, and again go to the temples in the evening. The feast of Ramnowmee is more particularly observed by the votaries of Vishnu.

VUD SEVITREE (SAVITREE VRUTUM.)—A fast observed by women at the root of the Indian fig-tree, to preserve them from widowhood.—[Vide 2nd June.]

ASHADY EKADASSEE is the 11th of the light half of the month Ashad, and is dedicated to Vishnoo. On this day, which refers to the summer solstice, commences the night of the god, during which the deity reposes for four months on the serpent Seshu.—[Vide 27th June.]

NAG PUNCHAMEE is sacred to the demigods in the form of serpents. Ceremonies are performed on this day to ensure protection against the bites of snakes. [Vide 21st July.] The serpent Kaliya, slain by Krishna, is worshipped at this festival, as was Python at Delphi.

SHRAWUN NARUYUL.—(OR **NARULL POORIMA.**)—On this day the rainy season is considered to be at an end, and a cocoanut is offered up to the sea to gain its favour towards those who now begin to trust themselves to its mercy.—[Vide 30th July.]

JUNMA AND GOKUL USHTUMEE.—(**JUNMA USHTUMEE.**)—Instituted in commemoration of the birth of Krishna, which took place at midnight in the City of Bluthoora. Krishna, who in many respects agrees with the Grecian Apollo, was the eighth incarnation of Vishnoo, in which, according to a large sect of Hindoos, was manifested a greater portion of divinity than in any of the preceding ones. His uncle Kowsu, who it was predicted would be slain by one of his own family, endeavoured to ensure the destruction of the infant god by placing guards over his pregnant sister, but the child was preserved from this and other attempts of his relations, who subsequently gave directions for the slaughtering of all newly-born infants.—[Vide 7th and 8th August.] This holiday is considered one of the greatest among the Hindus, and is therefore observed by almost all the Hindu community; there are two sects among the followers of Krishna, and they solemnize the feast on different days. Those belonging to the one keep the birth-day of Krishna on the 8th day of the dark moon, and those belonging to the other, the day following, being the one on which he was removed to Gokul, to the house of Nanda, through fear of his maternal uncle, who sought his destruction; and some even keep both days. The former fast on the day of Junma Ushtumee, and the latter on the day of Gokul Ushtumee. They fast the whole day, and at night they bathe and worship an image of the infant Krishna, adorning it with tulsee, a favorite plant of Vishnu's, and with other flowers in the

manner enjoined by the Shastra; and at about 10 or 11 P. M. they eat their Plahar food, which consists of fruits and some kind of grains, being prohibited from eating rice and other grains that day. A Brahmin is called in to perform the Poojah, and afterwards he himself is worshipped, and sent away loaded with Dakshuna and other presents. This is all done according to the rules of the Shastra. The holiday is thus observed among the people of the higher castes:—On the day of Gokul Ushturnee, gowlees (or keepers of cattle) keep a great jubilee among themselves, as Krishna was bred up among their race. They join themselves into a company, and frequent the houses of the people who follow their profession, holding each other's hands, dancing in the street, and repeating these words, "Govinda! Govinda!" where they are honored either by throwing over them curds, or presenting them a certain quantity of curds. These people are called Gopall's protectors of cows. But the most extraordinary thing relating to this festival is the following:—On the night of Junma Ushturnee, crowds of people, generally of the lower ranks, flock into the temple of Canoba, which is commonly known by the name of Muth; there they hire native music, and continue shouting and making a great noise, so as to deafen one's ears. The Bhugat of Canoba, or the head of the temple, who is very often of the Shudra caste, and who is considered a supernatural being, at least at that time, with great solemnity and grave countenance makes his way through the assembly and stands before the shrine of Canoba, and offers prayer to the idol of Canoba, which is richly decorated on the occasion, accompanied by the playing of tom-toms, and acclamations of joy from his disciples. He is at first quite calm, but shortly after shows signs of inspiration by the god. He begins to untie his shendi, or the tuft of hair on the crown of his head, and then slowly shakes his limbs. By degrees his whole frame quivers, and he throws his whole body into violent contortions, dancing and muttering strange ambiguous and wild sounds, which no one can understand. He then takes his scourge, which is kept near the shrine, and scourges himself as if he were insane, and performs many other equally strange actions. No sooner does the assembly around see him in this predicament, than, believing that the spirit of the god has entered into him, they burn incense before him, and fall prostrate, and pray to him to be merciful to them. When he has received divine homage, he quietly takes his seat; but does not cease quaking and trembling. His disciples, who are always near him, then commence one after another to shake themselves and dance in the same way; and the spirit of the god is believed to enter them also. This day the great Bhugat can create new disciples, and give them the power of bringing the spirit of the god into their bodies. Sick persons, persons possessed of devils, children, &c., are brought to the temple to receive the benediction of the Bhugat and his disciples: he rubs a little ashes on their foreheads, passes his hand over their heads, and gives them full assurance of their speedy recovery from their sickness without taking any medicine. The poor patient, with full confidence, returns home, expecting the fulfilment of the Bhugat's promise; but probably, to his great disappointment and distress, he gets worse, or is perhaps cut

off next day. It is a great wonder, notwithstanding such disappointments, that the eyes of the ignorant are not opened to see the impotency and imposition of the Bhugat, for they still remain as faithful to him as ever. It is the subtlety of his speech, and the dexterity of his notions, that delude them. The Bhugat receives large presents on this occasion from the followers of his tenets, and he is held in great respect among the orthodox Hindus, and even among persons of some other tribes too. On the following morning, Bhugat collects the circle of his disciples in front of the temple, and orders a sufficient quantity of curds to be thrown over their heads to wet their whole bodies: they all begin to dance in company, holding each other's hands, and occasionally throwing themselves on the ground and besmearing their bodies with mud, shouting as loudly as they can. The Bhugat, in the mean time, with a scourge in his hand, forces his way into the crowd with all his pretended dignity, and stands in the midst of the crowd, and looks in all directions in his feigned solemnity, and then lifts up his powerful scourge and puts it around the neck of one of his disciples as a token of his regard, and draws him towards himself,—when the disciple trembles a little, and then stands firm, stretching his hands towards the sky with his eyes closed. No sooner does the Bhugat see him in this state, then he scourges him two or three times, so adroitly that it gives him no pain, while to the eye of the spectators it appears a prodigy that he does not feel it. This is repeated till he has shown the same mark of approbation to the whole body of his disciples,—when he ceases, and sweetmeats are distributed among the disciples and to all the spectators. Thus terminates the feast of Gokul Ushturnee among the people of the Shudra caste.

PITHOOREE OR PRACHEEHIE AUMAWASYU.—A ceremony observed at the new moon of the month Shrawan, at which the 64 Yoginees, or female attendants of the goddess Doorga, are worshipped,—particularly it is said by women, with the hope of obtaining issue.—[Vide 15th August.] The 30th of the month of Shrawan, or the last day of the dark half of the moon, is denominated “Prachee Aumawasyu.” Prachee is, it is supposed, one of the goddesses of the East. She is commonly known among the people of the Konkan and Deccan by the name of Pithooree. Wealthy banians and other people of Guzerat go to Walkeshwar on the previous evening with their families, to remain in the Dhurnumsala during the night; and, on the subsequent morning, they bathe in the tank of Walkeshwar. (This tank is called by the natives Ban-gunga, (i. e.) the Ganges produced by an arrow; and they give a marvellous account of its origin. They say, when Rama visited this part of the world, and found that there was no pure water to drink, he pierced the ground with an arrow from his bow, and thus brought the Ganges into existence.) They also perform shraddhas on the margin of the tank, and ceremonies for procuring the deliverance of their departed ancestors from the thralldom of Yama, the king of the infernal regions, if they still remain at his court or in his dominions. They afterwards repair to the temple of Walkeshwar

and worship his image, after which they take their meals. The remaining part of the day is spent in amusements, among which gambling is not overlooked or neglected. Booths are erected on the locality of the temple, and furnished with all kinds of the choicest articles that please the fancy or delight the taste. The Hindus on this occasion squander away hundreds of rupees in hiring vehicles and buying toys and sweetmeats for their children. This holiday is not observed by the majority of the inhabitants of the Konkan and Deccan. It is kept up chiefly by those women who lose their children in infancy. They fast this day, and worship an image of Pithoree by adorning it with various kinds of fruits and flowers, through the medium of a Brahman priest.

GUNESH CHOUTH ;—OR CHUTHOORTHEE.—On this day was born Gunputtee or Gunesh, who is considered as the god of prudence, and invoked like Janus at the commencement of all undertakings. The manner of his birth is differently told : one story relates that as the god Kartikeyu was created by Siiva without connubial assistance, in like manner Gunputtee was formed by his consort Parwuttee from the turmeric and oil scraped off from her own body while bathing. The loss of his human head, and the substitution of that of a female elephant with one tusk, is also variously explained. By some, his head is said to have been cut off by Shiva when he endeavoured to prevent the god from entering the chamber of Parwuttee when performing her ablutions as above. According to other accounts, it was reduced to ashes by a glimpse from the eyes of Shunee or Saturn, when all the gods went to look at the newly-born child, and its place supplied by that of the animal first found, which happened to be an elephant. Clay images of the deity are formed, and after having been worshipped for nine or ten days, are thrown into the water. The Chinchor, or Chinchwad (properly Deo,) who resides at the village of that name near Poona, is supposed to be an incarnation of this god, who granted to a holy Gosayeen, who had won his favour, that the divinity should be continued in his family for seven generations : and though the present one has exceeded that limit, the miracle is perpetuated by the Brahmans for self-interest.—[Vide 17th September.] It is commonly said among the Hindus, that the Shashtra enjoins its followers the worship of Mritica, (earth,) in the following forms, three times a year. The first of these is Nagpunchmee, on which day a snake of clay is made and worshipped : the second is Gokul Ushtumee, when a clay image of the infant Krishna is made and worshipped ; and the third and last is Gunesh Chuthoorthee, on which day a clay image of Gunesh is worshipped. This being the last day of the worship Mritica, it is observed with greater pomp and more ceremonies, conviviality, and music, than the two others. The image worshipped on this occasion has four hands and an elephant's head. The mouse, being Gunputtee's favourite vehicle, is also placed near his image, richly saddled and bridled. Besides this, the worship of Gunesh may be traced to his origin : but different accounts are given in different Purans of that origin, and the consequent introduction of his worship, which it would be rather a

difficult task to detail. The image of Gunputtee is either made in the house or purchased from an artist ; it is gilt with the finest gold, and painted with superior and variegated colours : much labor and ingenuity is bestowed on it by some to render it elegant and attractive, according to the taste and pecuniary means of the worshipper. The 4th of the month of Bhadrapad is the appointed period for the celebration of this feast. On the previous day, the worshipper cleans and white-washes his house, and furnishes it with all sorts of costly furniture that can be procured. The profusion of light is the first thing that would attract one's eye. On the following morning, (i. e.) on the day of Gunesh Chuttoothee, they bring the image home (if it be bought) with great splendour, accompanied by native music, and with all the honors of a god. A place where the god is to be seated is prepared, either in the form of a covered shrine or open space, which is adorned with all kinds of fruits and flowers, strewn round it, and twigs of trees hung over in clusters ; after which commences the business of the officiating priest, who sits near the master of the house, and begins consecrating the idol, by reciting incantations or muntras from his book, and throwing over it red coloured rice : thus, after performing many consecrative ceremonies, he brings from heaven the godhead into the image on earth. Being thus installed, the devotee places before him Nayavedh, (food,) which consists of sweatmeats, and invokes the god to partake offering. Afterwards, he falls before him, and prays him to be gracious to him and his family. To perform the whole puja, according to the rules of Shastra, requires at least three or four hours' time. By the generality of the people Gunputtee is kept one day and a half ; but by some five or ten days, according to the wealth and wish of the proprietor. A discourse is delivered in commemoration of his godly exploits, by a Hurridas in his presence, to which friends and relatives are invited to attend. A large party of Brahmans are entertained at a sumptuous dinner, in honor of Gunesh, and they are then dismissed with the usual dakshuna. On the last day, preparations for his departure are made. Evening is the appointed time for parting, when the master of the house performs ooterpuja through the priest, who takes away the divinity with which the image was invested, by repeating certain muntras, or charms ; flowers, fruits, and sweetmeats, are offered to the idol, and artee, (i. e.,) lighted wicks, are moved before him, accompanied with music and hymns ; and he is invoked to bless the owner and his family, and remove any calamity that might befall them throughout the year. Afterwards, the Brahmans are presented with dakshuna, and the image is seated in a palankeen, or in an ark expressly made for the purpose, adorned with fresh flowers, and carried to the sea or tank in a procession which consists of the master of the house, his children and relatives, who are richly attired on the occasion. When they reach the place, they take out the image and commit it to the water, with every devout feeling of regret for its absence till next year. On the day of Gunesh Chuttoothee, the Hindus are prohibited by the Shastra from looking at the moon, and therefore prejudiced and credulous Hindus are afraid to look at her this evening, for fear of

incurring any calamities throughout the year. If the vulgar people happen to see the moon, they try to provoke their neighbours to abuse them, and comfort themselves with the idea that the calamities incurred will be all comprehended in that abuse, and removed by it.

RUSHEE PUNCHAMEE.—Observed in honor of the seven Rushees, or sages, who are supposed to be the seven bright stars in the Great Bear.—[Vide 18th Sept.]

GOWREE.—One of the names of the goddess Parwatee.—Cakes are made in the shape of pebbles, and eaten at night time.—[Vide 19th September.]

WAMUN DWADASHEE.—Instituted in commemoration of the 5th incarnation of Vishnoo, in the shape of a dwarf, to prevent Bullee from obtaining dominion over the three worlds through the effects of his religious austerities. Bullee promised the dwarf at his own request to grant him as much land as he could comprise at three steps. On the ratification of this promise, the first two strides of the incarnate deity embraced the heaven and the earth; there being now no place for him to put down his foot for the third time, Bullee magnanimously told him to put it on his head, which the dwarf having done, crushed him down to Patala, the dominion of which was conceded to the ambitious monarch.—[Vide 25th September.]

PITRU PUKSH.—The dark half of the month Bhādrapad, and sacred to the Pitris, or progenitors of mankind, to whose heaven the souls of the deceased ascend after the celebration of funeral rites, which is particularly proper during this season.—[Vide 28th September.]

DUSSEERA.—This festival, called Doorga Pooja, or Dorgotsava, is supposed to relate to the autumnal equinox. On this day, in commemoration of the victory of Dewee, the wife of Shiva, over the monster Maheeshasoor, her images, after having been worshipped for nine days, are thrown into the water.—[Vide 22nd October.] On this day also Rama marched against Rawan, on which account the Mahrattas seem to have selected it as a proper period for commencing their plundering excursions. This day is observed thus:—Early in the morning the Hindoos, having washed themselves, perform the puja of their household gods in conjunction with that of all their shastrical granths, or religious books. Mahrattas and Kshitrias, or those who consider themselves of the military race, worship the implements of war, and ask protection of them throughout the year, under a conception that to the propitiousness of the sword they owe every prosperity. Thereafter, at noon, they take dinner in the company of their relatives, who have been invited on the occasion. In the afternoon, they go to the temples in procession with friends, relatives, and children, richly attired. Moombadavee and Boolaishwar are the principal scenes. Both of these places are thronged by dense masses of Hindoos, bearing each in his hand flowers and a branch of a certain tree (Apta) denominated Sona, (gold), which is held highly sacred and indispensable in commemorating this day. On entering the temple they offer the sona and flowers

to the image, accompanied with prayer; they also give sundry daxshana to the Brahmans, and return home, visit their friends and relatives, present them with a hearty embrace, and receive similar treatment in return at the time. The sona forms the chief article of the Dussera holiday. The vicinity or front of the above temples is surrounded by the vendors of this plant, who range themselves with baskets full of branches in bundles. At night an illumination is made. This day is considered by the Hindoos most auspicious for sending their children, who are beginners, to school. The preceding days of the Dussera are called Naoratree, a compound word for nine nights. During these previous nine days, the devotees of Durga keep themselves holy, engage a Brahman to read hymns before her in which her exploits are extolled, and her rewards to her votaries are described. On the ninth day, at every temple of Durga, or Huvun, a sacred fire is created and fed with rice and clarified butter, and adored by the repeating of muntras. It is customary among the Banian women to keep up a dance during these nine nights, called Gurbha, which is accompanied with religious songs. The celebration of the Dussera owes its origin to the Panduwas, the five sons of Pandoo having selected this day, after completing their exile of twelve years, as an auspicious one for making preparations for the tremendous war with their paternal cousins, the Gourouwas, of which the Purans give an account, occupying the whole volume. The Hindoos decorate the horses with flowers this day, putting garlands of flowers around their necks. It is said that Parth—the most invincible of the five Panduwas, who had a peculiar fondness for horses, and a pre-eminent skill in the art of chariot fighting, and from being auxiliaries in the matters of battle—washed his favorite milk-white horses with great warlike spirit, put garlands of flowers around their necks, and tapped them, in token of fondness and approbation, with his own hand: owing to this legend, it seems, the decorating the horses with flowers this day is observed.

DEWALEE.—(from Depawali, Sanscrit, signifying a row of lamps)—is celebrated in honor of the goddess Kalee, or Bluwane, who was formerly propitiated by human sacrifices, and of Vishnoo's victory over the demon Tareeke.—[Vide 11th Nov.] The festival, however, seems to be more peculiarly consecrated to Lukshmee, or the goddess of prosperity. The first day (Ushwin Vudh) is termed Dhanootridayashee, and Sowkars now count their stores and perform pooja to their wealth. On the Umawasya, or new moon, there being a fresh account, pooja is again performed before the old and new books. The festival lasts altogether five days. The Dewalee means the feast of illumination, or ranges of light. It is celebrated for the period of five days, during which houses are cleaned, white-washed, and illuminated: a quadrangular floor is made in front of the house, and painted with different coloured powders; it is called Rangoollee. Gambling is the chief recreation of the feast. The Dewalee commences from the 28th day of Ushwin Vudh,—this day is denominated Dhuntri-yodashi. This day they collect all the treasure in their houses and worship it, giving the name of Lukshmee, the

goddess of wealth. A light is made and dedicated to Yama, the god of the infernal regions, and every preparation is made for the succeeding morning. Fireworks, crackers, spouters, &c., are displayed, and gambling shops are opened, which continue till the end of the holidays. The 29th is Nurruckohuttordashi. This day Vishnu killed Nurruckasoor, an invincible giant, after a desperate battle, and entered his city early in the morning with the palm of victory, when the people illuminated the city, and received him with great joy and acclamation; and the women of the city having adorned themselves, went before him with lighted lamps and congratulated him. The Hindus keep this day to commemorate this great conquest. This day they get up early in the morning, fill the house with lights, rub their bodies with perfumed ointment, and bathe themselves with hot water. No member of the family is left unbathed: new clothes and ornaments are put on, and children are decorated. When this is done, the mistress of the

house performs a sort of ceremony called **आरती**—by placing wicks either in silver or brass dishes, which mean that God would remove all the difficulties and make the year happy,—when each male member makes her a present of money; sweetmeats are distributed, and friends are invited to dinner. The 30th, Amawashin, last day of the moon, is the day of Saraswuttee, the goddess of learning and wealth. It is vulgarly known by the name of Pedipoojun, or the worship of the shops. This day the year of Vikram Samvut, or Vikram's year, closes: all the merchants close their accounts this evening. New journals, ledgers, and day-books, are bought and worshipped through a Brahman priest; new entries are made in the account books; writers are sent to different shops with rupees to credit in their names, on this auspicious evening. Saraswuttee is invoked to render the subsequent year prosperous, and to be with them throughout the year; then the Brahmans are sufficiently paid for their labors, and servants receive a present of some money according to their rank: this day is celebrated by all classes of people—Banians, Parsees, Mahomedans, &c. The 1st day of Kartik Shoodh is Baliraj, the day of King Bali. This day Bali was sent to Patal, or the lower region, by Vishnoo, for his great merit. They also rise up very early in the morning, make the lights, clean the houses, wash their bodies, and fill a basket with all the rags and rubbish of the house, put a lighted lamp over it, and throw it outside of the house, repeating these words: "Let all the misery and troubles go, and the kingdom of Bali come." After the abjuration, the women make an image of Bali Raja and worship it; presents are given to the Brahmans and other mendicants; and playing with dice is continued with greater ardour and spirit than ever. The 2nd day of Kartik Shoodh is Yama Dwitiya, which is commonly known by the name of Bhavbij. This day Yama, the king of the infernal regions, went to his sister to dine, and to perpetuate the memory of this, the Hindus must go to their sisters' houses and take their meal with them, and make them a present of some money or gold ornaments, and thus please the king, who will save them from the punishment of their sins.

KARTIK EKADASHEE is the eleventh day (in some years the fourteenth) of the

light half of the month Kartik, and is celebrated in honor of Vishnoo. On this day the god is supposed to rise from his slumber of four months,—a fable which has reference to the sun at the winter solstice.—[Vide 22nd November.]

KARTIK POORNIMA is the full moon of the month Kartik. On the fifteenth of this month, as well as of Magh, Ashad, and Vaishak, each of which days is called "Donumasya Kuru," gifts to Brahmans are considered indispensably necessary. Shiva also is said to have gained his victory at this season over the monster Tripoorasoor. —[Vide 26th November.] Kartik Shood Poornima, the full moon in the month of Kartik, is called the Tree Poora Soora, (master of the three cities.) This demon is said to have become so powerful that he defeated almost all the gods, and drove them out of their habitations; when they formed a levee, and went to Kylas, the abode of Shiva, and represented to him their grievances; who after lending an ear to their pitiful supplication, comforted them by the assurance that the evil should be soon removed, and sent them back to their respective homes. He accordingly made a car of the earth, the wheels of which were the sun and the moon. Brahma was chosen his charioteer, the mountain Hymalia formed his bow, and Wasookey, the king serpent, his bow-string. Vishnoo himself became his quiver. This equipped, Shiva rode himself in it, and destroyed the mighty giant after a struggle. To perpetuate the memory of this great event, the women of the Hindus get up very early in the morning this day, at about two o'clock, and wash themselves in cold water, and repair to the temple of Shiva and worship his image. Afterwards they return home, and present a Brahman with a lighted lamp, made either of silver, copper, or brass, according to their ability, along with some fruits and dakshina, a present in hard cash—this is called Deepdan, or present of a lamp. In the evening an illumination is made in the temples of Shiva, and a pillar of stones built in front of them for this special occasion. A grand fair is also celebrated this day in honor of Walkeshwar, an image of Shiva at Malabar Hill. It is kept for three days, when booths are erected, and shops are adorned with all kinds of articles by people of all denominations. The Hindus, both the rich and poor, Brahmans and Shoodras, go there and worship the image of Shiva, and buy sweetmeats and toys for their children. Some of the wealthy Hindus remain there with their families for three or four days, in the dhurmsala or inns built by them, but the poor return the same evening. During these days hundreds of rupees are spent in hiring conveyances, and purchasing sweetmeats and toys. Among the many other entertainments, gambling is not overlooked.

BIRTH CEREMONIES.

Different ceremonies are prescribed by the Shastras to be observed at the period of conception, and the different stages of pregnancy. "Jatkurm" is to be per-

formed at the birth of the infant, and consists in giving it a drop of honey out of a golden spoon before dividing the navel string. Other rites are to be observed on naming the child, twelve days after birth—on bringing him outside the house when three months old—on feeding him with the hand at six months—and, if a male, on shaving his head at the age of three years.

MARRIAGE CEREMONIES.

Among Brahmans the male may be married at any time after the "moonj," or investiture with the sacred thread, which is done within the age of eight years, and among other castes at any age. The female should not be ten years old, and her age must be less than that of her husband; and she should be married before the appearance of the signs of puberty. The Shastras mention eight kinds of marriage, but one only is observed by the higher castes, named Bruhma, when the charges are severally incurred by the fathers of the parties. The principal marriage ceremonies among Brahmans are the *Lugunptricks*, or writing by the *Joshee*, or astrologer, of the names of the parties, and the day and hour at which the wedding is to take place; the *Suptupuddee*, or walking round a fire three times, at each time seven steps, and tying together the garments of the parties, and the home or burnt offering; after which the contract is indissoluble. The girl is given away by her father in his own house, in which it is usual for her to remain till the appearance of the signs of puberty, after which she proceeds to the residence of her father-in-law, where her husband also resides, or to that of the latter, should it be otherwise. Particular months and junctures of the planets are prescribed for the celebration of marriages in different castes, as also the same castes, in different countries, have their peculiar ceremonies, which are too various to be described here. The *Phulshobun* is the performance of certain ceremonies on the occurrence of the first menstruous symptoms.

DEATH CEREMONIES.

On the death of a man, the performance of his funeral obsequies (*Kriyas*), and of the monthly and annual purificatory ceremonies, devolves on his heir. The principal times for performing *Shraddh* are eleven days after death; secondly, every month; and thirdly, on the anniversary of death. Brahmans are unclean for ten days after the death of a relation,—the military class for twelve,—the mercantile for fifteen,—and *Shoodras* for thirty. Among the Hindoos generally, the body of the deceased is burnt, but that of an infant under two years of age is buried. The *Shraddh* consists in the offering of rice, flowers, water, &c., to the deceased and to his manes, in order to enable his soul to ascend to the heaven of the *Pitris* or great progenitors of the human race.

MAHOMEDAN FESTIVALS

RAMZAN.—This Mahomedan fast commences each day throughout the month of this name, when the first streak of light borders the Eastern horizon, and continues until the stars are clearly discerned in the heavens. During the whole period not the slightest particle of food, not one single drop of water nor any other liquid, passes the lips from the dawn till the appearance of the stars in the evening. Each day during the fast is passed in occasional prayer, besides the usual namouz, and in reading the Koran or the Lives of the Prophets.—[Vide 19th July.] The fast is first broken by a cooling draught called dandhie, the same which is used in fevers. It is composed of the seeds of lettuce, cucumber and melon, with coriander, all well pounded, and afterwards diluted with cold water, rose-water, sugar, syrup of pomegranate and kurat are also added: the whole preparation is made in the zeenanah, and then drunk by basins full by true Rozedhaurs. Plain boiled rice, with dhie (sour-curd) and sugar, forms the first morning's repast of the Eed: dried dates are eaten with it in remembrance of the Prophet's family, whose greatest luxury was supposed to be the dates of Arabia. The conclusion of the month Ramzan is celebrated as an Eed or festival, and is hailed with great rejoicing and merriment, as a sort of reward for their severe abstinence. In every house the same dainties are provided, every amusement that can be thought of is indulged in, the nautoh women in the apartments of the gentlemen, and the domonee in those of the ladies, are in great request; the zeenanahs ring with festive songs; and all is life, joy, cheerfulness, and cordiality on this last day of the Ramzan, when the lady of the mansion sits in state to receive nuzzurs from inferiors, and grant favors to others.

EED.—The followers of Mahomet claim to be the descendants of Abraham through his son Ishmael, who they aver was chosen as the offering to the Almighty, and not Isaac, thus differing from the belief of the Jews and Christians, and supporting their assertions by traditions which they deem conclusive evidence on the subject, in opposition to the authority of the Bible. The offering thus made to heaven is annually commemorated by the sacrifice of particular animals, such as camels, sheep, goats, kids, or lambs, according to each person's means, and answers the double purpose of honouring the memory of Abraham and Ishmael, and also assisting to a meal in a time of great need. The followers of Mahomet believe that the entrance to Paradise is guarded by a bridge made of a scythe, or some such equally sharp instrument, affording a precarious and unstable footing. To enable them, therefore, to pass without danger, they believe that the number of animals they have sacrificed at the feast of Eed will be present to lend their aid to help them over in safety.

EED KORBAN.—In commemoration of Abraham offering up Isaac, but in Mahomedan estimation Ishmael, and this is the day on which they annually perform the Haj at Mecca.—[Vide 25th September.]

MOHURRUM.—A celebrated mourning festival, held annually, in remembrance of the first martyrs of the Mussalmans—Hassein and Hoossein, the eldest sons of Fatima and Ali, from whom the whole race of the Syuds have generated. Hassein was poisoned by an emissary of the usurping Calipha, and Hoossein, the last victim of the descendants of the Prophet's family to the King Yuzeed's fury, suffered a cruel death, after the most severe trials, on the Plain of Kurballa, on the tenth day of the Arabian month Mohurrum, the anniversary of which catastrophe is solemnized with the most devoted zeal. Hassein and Hoossein were, as above stated, the two sons of Ali, by his cousin Fatima, the daughter of Mahomed, and after the murder of their father by the contrivances of the Calipha, they with their families removed from Shawn, the capital, to Medina. After residing there for several years, the people of Shawn, being tired of King Yuzeed's tyrannical rule, invited Hoossein to return to the capital and take up his lawful right as Emaum, ("Leader of the Faithful.") Before accepting this invitation, Hoossein sent Moslem, his cousin, as a messenger, to report the true state of affairs to him; but on his arrival with his two sons at Shawn, he was seized by order of King Yuzeed, and cast from a precipice, and his two innocent sons were barbarously murdered, for the sake of the reward offered for their heads. This forms the subject of the ten days' bewailing during the Mohurrum. The Mahomedans are divided into two distinct sects, called the Sheas and the Soonies. The former believe Ali and his descendants to be the lawful leaders after Mahomed, and the latter are persuaded that the Caliphas, as Aboubuker, Omer, &c., are the only leaders to be accredited—hence quarrels, animosities, and dislikes are hoarded up, to be avenged during the Mohurrum. The festival begins on the first day of the moon (Mohurrum.) Tazias, (a term signifying "grief" and applied to a representation of the mausoleum erected over the remains of Emaum Hoossein at Kurballa, made of ivory, ebony, sandalwood, cedar, and some wrought in silver filigree, and indeed of every variety of material from pure silver to bamboo and paper, according to the rank and wealth of the party, are exhibited in every direction, and conveyed in procession through the streets. Mourning assemblies are held morning and evening, in the Emaum Barrahs, during the Mohurrum, and the head priest or preacher recites a subject for each day's service from the various books composed on the subject descriptive of the life and sufferings of Hassein and Hoossein. The Murseeah, a poetical composition of great merit, and embracing all the subjects they meet to commemorate, is chaunted with great effect: the names of their lawful leaders are recounted with blessings, and that of their usurpers, the Caliphas, with curses. Then comes the procession of Dhull Dhull, the name of Hoossein's horse killed at Kurballa, beautifully caparisoned; and finally the Tazias are deposited with

funeral rites in the public burial ground, when the Mohurram ceases, until the return of another year. The taboot is a slight framework of bamboo, in the shape of a mausoleum, covered and ornamented with coloured paper and tinsel and is designed to represent the mausoleum built over the remains of the slaughtered Hoossein. They vary considerably in size and appearance, according to the taste and ability of those who build them. In some of them are the representation of the tomb of Hassein and Hoossein. Before these taboots incense is burned, and various other rites are also performed. The taboots, it is said, are peculiar to India. They, of course, are not mentioned in the Koran, and they are not built either by the inhabitants of Persia or Arabia. Many Mahomedans regard them with strong disapprobation. In Bombay, the large portion of the Mahomedans unite in building the taboots. These are taken out, and, accompanied with music, carried in procession through the Bhendy Bazaar from midnight of the ninth until 3 o'clock of the morning of the tenth day, and from 2 to 6 o'clock on the afternoon of the same day, on their way to the Beach on Back Bay, where the greater part of the taboots, after being stripped of whatever was possessed of value, are cast into the sea. The practice of building taboots seems to be losing ground in Bombay, a portion of those who formerly united in this having adopted the views of those opposed to those things. The Indian Mahomedans, who do not unite in building the taboots, are accustomed to go on this occasion to the mosques for five successive evenings, to listen to the account of the death of Hoossein. Their demonstrations of grief, however, are not equal to those of the Moguls and Persians, who, while listening to the recital, weep aloud, and smite violently upon their breasts. These are accustomed to meet at the Musjid, a little to the East of the American Mission Chapel, near the Baboola Tank, in Mirza Mahomed Ali Khan Street. In Bombay there is, strictly speaking, no representation of the battle which was fought previous to the death of Hoossein. Some two or three horsemen bearing flags enter the large yard adjoining the Emaum Barrak, with loud wailings, and are followed by two horses caparisoned to represent those which were for the use of the fallen Hoossein. One person on horseback, with a long sword apparently run through the head and covered with blood, joins in the wailings. A female infant in deep mourning, sitting at the door of a small mausoleum, which is carried on the shoulders of men, constantly casts ashes or cut straw upon her head in token of grief. These pass round in a circle, accompanied or followed by a company on foot, who beat upon their breasts, crying, "Hai Hassein! Hai Hoossein!" Sometimes a person represented in a dying state, his body covered with wounds, and blood and darts and daggers run into it, is carried about in the procession. The whole is indeed a strange exhibition, fitted to excite in the mind of the enlightened spectator mingled feelings of pity, wonder, and grief. We are not sufficiently informed to give an accurate account of all that occurs on this occasion. It would seem that this festival is now celebrated with less effort and effect than formerly. It is apparently becoming more and more a farce. The grief is doubtless for the most part feigned. The decline of the peculiar zeal of the Mahomedans must necessarily lead them to enter into these with less spirit.—[Vide 15th October.]

GARDENERS' CALENDAR FOR BOMBAY.

WRITTEN BY A MEMBER OF THE HORTICULTURAL SOCIETY,
BOMBAY.

Mean temperature during the rains 80°, in the cold season 70°, and in the hot season 90° Fahr.

MAY.

During this month little can be done in the garden beyond breaking up the soil and collecting manure: on light and poor soils, the dry mud from the bottoms of tanks may be spread with advantage. Dry leaves and grass may be collected and spread on the beds, and burnt a week or two before the rains set in, for manure.

JUNE.

But little more can be done than in the previous month. After the first rain has fallen, the growth of weeds is so rapid, that constant attention is required to prevent the soil being impoverished by them. The best way to get rid of

weeds, and roots of grass, is by trenching the soil two spades depth, and turning it over previous to burning; or after the first fall of rain, when the ground has become well softened. The Doub or Huresala grass roots (*Agrostis Linearis*) are the most troublesome.

At the commencement of this month you may put down beans, white and black; cucumber gourds of sorts; Jerusalem artichoke, and sweet potatoe. It is generally best to wait until the first heavy burst of the monsoon is over, in July, before transplanting all sorts of Europe vegetables, from turnips to lettuce and radish, for heavy continual rain is usually detrimental to the young plants as well as caterpillars. The climbers may be sown. Turnips, onions, tomatta in baskets, and also nolo-cole, cabbage of sorts, vegetable marrow, parsley, lettuce, and radish, for early sallading, and most native vegetables.

JULY.

This is generally the month to which the rain is heaviest. The use of the plough when practicable will be of great assistance in checking the weeds. It is of importance to ascertain before hand whether your seeds be good, by putting them into water before sowing; such as are light, and float on the surface, are to be rejected. Vegetable seeds may be sown in boxes and baskets, but not too thickly; they must be carefully sheltered from the weather, and require great care. The young leaf must be examined every morning, and cleared of all insects, particularly of a small slug or caterpillar: the transplanting must be frequent, and the young plants allowed room. Cauliflower, brocoli, cabbage, celery and beet, may be thus brought forward, till at the season (August) for planting out they may have attained four to six inches high—sufficient size to be put each in a small basket, from which the plant can be removed without disturbing the root, and an early crop secured.

Put down beet, lettuce, cabbage, turnips, nolo-cole, asparagus, beans of sorts, spinage, country gooseberry, and tomatta. It being sometimes difficult to get beans to germinate readily, they should be steeped in soft water for twenty-four hours previous to sowing, which will effectually remedy this difficulty.

AUGUST.

Plants of the cabbage tribe that have been grown in boxes or baskets, will now require great attention, both in daily picking off insects and protecting them from heavy rains. A species of caterpillar, dark in colour—some smooth and some hairy—have been found most destructive in this month. A solution of tobacco, lime, and wood-ashes, effectually destroys them.—Continue to sow lettuce, plant out celery, country gooseberry, tomatta, brinjals, cucumber, vegetable marrow, and parsley.

In sheltered spots and light soils, lettuces may be brought to a very fair state of perfection.

SEPTEMBER.

After Coconut-day, which usually falls in the end of August, the heavy rains generally cease, and you have passing showers with occasional sunshine. After transplanting, care should be taken to shade the young plants during the day with the shade-baskets, and to preserve them from the wet by earthing up.

The ground should now be well manured and prepared for the young plants, which may be set as soon as the rains hold off. This may be expected early in the month, but as the heat is great, care must be taken that they do not grow too luxuriantly; to this, frequent transplantation is the most effectual check. For cauliflowers the soil can hardly be too rich: when the plant attains strength, dried fish pounded and applied to the roots will be found beneficial, and water must be liberally supplied and the beds frequently flooded. Trenches, eighteen inches deep and twelve or fifteen wide, should be dug for celery, and the young plants put in about eight inches apart. The soil should be rich but light, and in positions where the black earth prevails a mixture of sand will be found advantageous. Towards the end of this month and the next, transplanting must continue.

Sow peas if in a favorable situation, artichoke, beans, carrots, spinach, cabbage, cauliflower, lettuce of sorts, and early sallading: attend to strawberry plants, and prune all your fruit trees moderately.

Strawberry runners, which during the heavy period of the monsoon have been placed in baskets, should also be now planted out in beds. These, as well as the vegetables, will require shelter from the sun as they attain strength: additional manure must be applied, and they should be flooded at least every other day. When they begin to produce blossom, straw or hay should be placed under them: it keeps the ground moist, and preserves the fruit from being injured by the water. Towards the middle of the month open the roots of your rose bushes, and do not water them for ten or fifteen days; cut the plants to within a foot of the ground, and at the expiration of the above period cover the roots well with rich manure and fish, and water abundantly. Lettuce plants should now be put out, and the first crop of potatoes planted. The best plan seems to be to place the cuttings, which should each have at least two eyes, on the side of the ridges; these should be about a foot apart, leaving a trench between them for watering, which should not be more frequent than every third day; the root requires three months to bring it to perfection, but in six weeks young potatoes may be dug for daily use. The best soil is the red earth or sand. They will grow to equal size in the black, but the produce is generally inferior in flavour. Where water is abundant, Lucerne may be sown in beds of convenient size. Parsley, turnips, spinach, radish, &c., may be sown in beds, and the first crop of peas; these may be either planted in rows or circles; in the latter way they occupy more space, but are more ornamental.

tal, and the produce is more easily gathered. They should be sheltered from the North-Westerly winds as much as possible, and well watered. In planting the peas in circles, the best plan is to put the seeds in two concentric circles about three or four inches apart, the outer circle being from three or five feet in diameter, according to the height to which the plant is expected to grow,—strong supporting sticks being placed in the centre. As it requires full two months to bring them to perfection, no seed should be put in after December.

The season for trimming vines is the latter end of September and beginning of October: great care must be taken in smoking the vines every evening about sunset while in blossom, and till the fruit is well set. After the smoking, the stem should be gently tapped with a stick, to shake off a small insect which is most destructive to the blossom. With respect to Dr. Riddell's directions for the culture of the different vegetables and trees he enumerates, there can be little added; and his instructions regarding budding, grafting, and enarching, cannot be too closely attended to.

Now plant out strawberry runners, also your cabbage plants: sow celery, beet, spinach, onions, salsify, and sweet herbs, also turnips and carrots. Towards the end of the month trim your roses, and get ground ready for potatoes. Peas may be put down safely.

NOVEMBER.

Plant out all the cabbage species, York, drum-head, Savoy, red pickling do.; also cauliflower. Sow crops of peas, turnips, carrots, salsify, beet, spinach, radishes of sorts, onions, leeks, shallots, celery, lettuce, and endive.

DECEMBER.

Plant out cauliflowers, cabbages, peas, beans, nole-cole, lettuce, salsify, scorzenora, radishes, onions, leeks, tomata, carrots, and turnips.

JANUARY.

The same as last month, after which your vegetables will continue in perfection until the different crops are over; but radishes, sallads, and other such esculents, may be continued to be put down until the end of February.

GARDENERS' CALENDAR FOR THE DECCAN.

MAY.

This month is so hot and dry, that very little can be expected from your garden, though much may be done in clearing away weeds, dead leaves, and plants, that are about and under your trees. Plough up your ground, well for ensuing crops, and as the clods of earth become dry, have them knocked to pieces, and the weeds removed. Collect now your manure for after use.

Fruits in season are—mangoes, peaches, pumblenose, pomegranates, plantains, grapes, melons, oranges, pineapples, a few strawberries, and apples.

VEGETABLES, EUROPEAN—are nearly out. The following are to be had, but not by any means in perfection,—cabbages, asparagus, artichokes, beet-root, carrots, red cabbages, lettuce, potatoes, and celery.

VEGETABLES, COUNTRY,—Cucumbers, brinjals, dill pussand, bulam-keira, kuckrie, peesaz root, tur kuckrie, ambarie ka bajee, chillies, and various others. Strawberries are not abundant, and can only be preserved with great care. In the part of the Deccan about Poona, pineapples and grapes are brought into the market in abundance,—the latter chiefly grown at Sattara.

Asparagus beds may be opened and trimmed: if well watered, they produce fine heads towards the end of the month.

[Obs.]*—Onions, if not taken up before, should now be stored, and when sorted, dried for a few hours in the sun: after that, remove them into baskets, or lay them on the ground in a dry place, secure from rats and other vermin.

Towards the latter end of this month, if the appearance of the season indicates an early setting in of the rains, then get ready boxes, or baskets, with light rich earth for sowing the following seeds,—cabbage, nolo-cole, celery, parsley, beet, lettuce, and sea-kale. If the seed is fresh and good, the cabbage will be up in five or six days. Great care is requisite both for watering and protecting the plants from birds, which at this season eat every sort of young green vegetable they can get at: covering the boxes or baskets with dry thorns is the most efficient method of protecting them. The boxes or baskets should for the first fortnight be kept under a shade or verandah, and from heavy rain.

In the garden you may, towards the latter end of the month, put down French beans, cucumbers, vegetable marrow, lettuce, peas, radishes, and various sorts of native vegetables, also Jerusalem artichokes.

Rain generally towards the latter end of the month, and the average at Aurangabad may be calculated at two inches. The thermometer ranges in the shade from 90 to 100 deg. The nights are mostly cool, as the hot winds cease soon after sunset.

JUNE.

In the early part of this month the rains generally commence, and much depends on the mildness of the season for the thrift of the garden. If your young plants, sown last month in boxes or baskets, are looking well, remove them into beds that have been a little raised and edged with tiles or bricks, so that the rain does not lodge: put each plant about four inches apart: protect them still with

thorus, and examine them as often daily as you possibly can. A small fly settles on them during the evening and deposits its eggs, which are hatched in a few hours, when a small caterpillar is produced, hardly perceptible at first to the naked eye; in the course of a few days it has arrived at maturity, during which time it had been feeding, it left unmolested, upon the tenderest leaves of the cabbage plants. The centre of the sugar-loaf cabbage they seem most fond of; *nole-cole* next. This small caterpillar has the power of protecting itself from dust or water by spinning a thread from one edge of the minute leaf in which it is hatched to the other, thereby drawing them together, when it feeds in security. I think that I have observed that they cast a skin once during this stage, and like the silk-worm, cease to feed for a time: when removed, they again feed voraciously and become quite green. If you shake the leaf and detach one, he immediately emits from his mouth a fine thread, by which he suspends himself, at the same time that he is connected with the spot to which he can and does draw himself up again for food. About the fifth day it ceases to feed, when it sets to work and spins a cocoon of silk over itself; in a few hours, about twenty-four, it has assumed a chrysalis state, and in three days after becomes a most beautiful little brownish golden-coloured fly, which I have since observed on the table-shades at an evening. It seems to hop more than fly, or rather makes strong bounds of at least a foot. As I have found the male and female together on the leaves, no doubt the female soon lays her eggs and then disappears. These observations were made by me, being desirous to trace the insect through all the stages. When I found that it had formed its cocoon, I placed it in a covered wine glass, and the little golden-winged fly was the result.

Fruits procurable are mangoes, pumblenose, pines, melons—going out; plain-tains, pomegranates, a few oranges, and late peaches, if the rain has not been very heavy.

EUROPE VEGETABLES.—Beet-root, celery, asparagus, artichokes, and small salad.

COUNTRY VEGETABLES.—The same as last month.

[OBS.]—Sow peas, French-beans, and other runners; parsley in beds, where it is to remain; also spinach, turnip-radishes, and native vegetables. You will find the small caterpillar very destructive to your young plants: look them over continually, and scatter wood-ashes from the kitchen over them; although this is not an effectual method of destroying them, it is useful. Carrots for an early crop may be sown on ridges, also onions. Beet, endive, and lettuce for early salading. If you find towards the end of the month any young shoots round the old celery, have them carefully taken up and planted in rows: they will in the course of eight weeks make an excellent addition to your vegetables. Towards the end of the month cucumber plants and French beans should be well forward. If much

rain has not fallen, keep them well irrigated by any means you possess. Potatoes for a first crop may be sown, but except in particular situations I have seldom seen them thrive; for if there is too much rain they run to stalk, and if too little, from the very great heat, they wither and dry. The potatoes produce are so small, and few, that it is almost labour thrown away. Weeds are now also very troublesome, and require to be removed.

The average of rain this month may be calculated at about four inches; the thermometer in the shade from 86 to 92 deg.

JULY.

This month is excessively warm, and your plants will require much water if the rain has not fallen regularly, and also protection from the sun, though the cabbage plants should not have too much, and are better watered by the hand: be careful to earth up your peas and beans, which are now sufficiently forward to climb the sticks, and should be towards the latter end of the month in flower.

EUROPE VEGETABLES in season are—radishes, turnips, cabbage-sprouts, and mole-colo from old plants; lettuce and French beans.

COUNTRY VEGETABLES,—Turnips, radishes, pumpkins, mathie ka bajee, coolie, maut ka bajee, chooka, &c.

[OBS.]—Peas when about six inches high may be brought into blossom earlier, by having their tops nipped off about half an inch.

Fruit is now very scarce; plantains, jamoon, and a few oranges to be had. Mangoes by the latter end of the month gone out. In Bombay, pines and pumblenose in abundance, also custard-apples and guavas. Sow carrots, pumpkins, vegetable marrow, artichokes, onions, peas, beans, turnip radishes, &c. and all the native greens enumerated in another part of the work. Be careful to smoke well your orange plants morning and evening, by burning damp litter under, to windward of those that are bearing, to protect them from a fly or gnat very destructive to the young fruit. Rain this month about nine inches. Thermometer from 76 to 90 deg.

AUGUST.

The weather still very hot during the whole of this month, but as there is generally much rain, all vegetables grow fast. Those now coming, and in season, are—

EUROPE VEGETABLES,—French-beans, peas,* cabbage sprouts, spinach, celery, lettuce, turnips, and cucumbers.

* Peas sown the latter end of this month, and during the next, do not bear so abundantly, the stalks yet mildewed in the latter end of the rains.

NATIVE VEGETABLES of all sorts,—gourds, chillies, radishes, &c.

FRUITS.—Oranges, custard-apples, limes, figs, jamoon, plantains, pumblenose, pineapples, &c.

[OBS.]—Sow vegetable seeds as last month ; plant out your cabbages from the nursery beds, also beet and celery. Trim and cut blackberries ; put down cuttings of every description required, shading them from the Sun during the day by mats or otherwise, and take care that rain is never allowed to lodge in the beds. Weed all your plants carefully, earthing up such as require it ; and during the mornings and evenings burn all the rubbish you can collect, as directed last month for the orange trees. Apples begin now to blossom. Towards the end of the month, prepare your strawberry beds for putting down the first stock of runners.

The average rain this month is from nine to twelve inches. The thermometer as last.

~~~~~

## SEPTEMBER.

The weather is still warm and close, the same as last month. Native vegetables are now brought into the market in great abundance, and about Poona, some grapes, but green, and only fit for tarts—these are from their second crop.

**EUROPE VEGETABLES** procurable are—nole-cole, peas, French beans, white beet tops, spinach, radishes, lettuce, turnips, small carrots, Jerusalem artichokes, onions, asparagus, celery, parsley, and a few potatoes.

**NATIVE VEGETABLES** are—pumpkins, turnips, native greens of all descriptions, sweet potatoes, Indian corn, brinjals, kurrula, keira, and numerous other sorts.

**FRUITS.**—Oranges, pumblenose, guava, plantains, papaw, mulberries, figs, rose-apples, sweet and sour limes, coconuts, loquats, pomegranates, roselle, white and red hybiscus, and custard-apples.

[OBS.]—Now plant out your strawberries from the nursery, selecting the first runners from the old plant. Sow the following seeds in boxes or baskets, for your cold season crop, as they can be better looked after than in beds, using the same precaution for their preservation as recommended in May :—cauliflower, broccoli, cabbage, nole-cole, &c.

In the garden you may put down potatoes, asparagus, artichoke, cucumbers, salad of every description, onions, beet—white and red—peas, beans, and all other kinds of runners ; scorzenora, leeks, cress, turnips, and carrots. Also plant out any of the above from the nursery, if ready, in beds where they are to remain,

The latter end of this month is a good time for budding trees, such as apple, peach, orange, &c.; also to prune your vines. Mulberry outtings thrive remarkably well if put down.

Average of rain, five or six inches. Thermometer as last month, from 75 to 90 degrees.

~~~~~  
OCTOBER.

The weather continues hot during the early part of this month, but about the 20th a change is very perceptible, and the first crop of vegetables, or rain crop as it may be called, are now going out.

EUROPEAN VEGETABLES in season are,—peas, radishes, love-apples, beet—red and white—vegetable marrow, and Jerusalem artichokes.

COUNTRY VEGETABLES.—Pumpkins of every description, also native greens, carrots, irvin, brinjals, sweet potatoes, &c.

FRUITS.—The same as last month.

[OBS.]—Put down vegetables as directed for last month. Sow kidney-beans, parsnips, carrots, peas, potatoes, and all vegetable seed for the cold season. Attend particularly to your vines, open apple trees, &c. This is the best month for planting out strawberries.

The rain varies very much during this month; seldom any quantity falls—from two to three inches,—when the monsoon may be considered over. Thermometer until the 20th or 25th from 75 to 84 deg.

~~~~~  
NOVEMBER.

Now the cold season has set in, and your garden should be well stocked with young plants. The Europe vegetables which would not come to perfection before, if planted now will thrive well,—such as broad-windsor and kidney-beans and parsnip.

EUROPE VEGETABLES in season,—the same as last month.

COUNTRY VEGETABLES.—Almost every description enumerated in the list.

[OBS.]—Plant out your cabbages, cauliflower, broccoli, celery, and beet. Sow turnips—white and red, Cape carrots and onions for stock. Look to your artichoke plants; have them well earthed up: remove weeds well from strawberry beds, and put out plants for the latest crop. Cape gooseberry and roselle are now in abundance, and fit for preserve. Open your peach trees. Blackberries coming in. Towards the end of the month your apples and peaches are in blossom. Put down potatoes: earth up the Jerusalem artichokes: cover the

globular kind with ashes all over, to protect them from flies, which do great damage. Rain seldom falls this month, though the clouds are heavy and threatening generally end in a blight. The grape-vines suffer most—those that have not been cut and opened until late, particularly.

### DECEMBER.

In this delightful cool month, your garden should be in the best and most promising condition, and the European vegetables well forward : and those now in season are—

**EUROPE VEGETABLES.**—Savoy, sugar-loaf, and drum-head cabbages, (broccoli and cauliflower coming on) mole-cole, potatoes, beet-root, French beans, peas, love-apples, Jerusalem artichokes, radishes, leeks, scorzenora, lettuce, carrots, asparagus, cucumber, water-cress, &c.

**COUNTRY VEGETABLES.**—Lussun, coolfie, chooka ka bajee, brinjals, umbario, soe, pollok, &c. Fruits as last : oranges particularly fine.

[OBS.]—A fine crop of potatoes may be expected if sown as late as the 30th. Plant out onions for store, sow beet for a late stock, and put out the last of your cabbage and broccoli plants. Bud any trees you require, and graft by approach : plant out cuttings that may have taken root in the nursery, and attend to your grapes. The common sort are, near the latter end of the month, brought in for sale, and sell when in full season from twelve to thirty seers or more for the rupee. Sugar-cane is now ripening.

### JANUARY.

The weather continues fine, as last month, and your garden is now in its best condition ; all vegetables, enumerated as coming forward last month, will be in perfection : the broad windsor beans and kidney in blossom ; cauliflower in head.

**EUROPE VEGETABLES.**—Boor-cole, savoys, celery, beet, carrots, broccoli, broad-beans towards the end of the month.

**COUNTRY VEGETABLES.**—Are all the vegetable greens, brinjals, bhendi, yams, sweet potatoe, &c.

**FRUITS.**—Apples, oranges, pumblenose, guavas, grapes, citron, plantains, figs, blackberry, Cape gooseberry, papaw, and strawberries : roselle going out.

[OBS.]—Peas are now going out ; attend well to the earthing up of artichokes\* and potatoes ; if the former are much infested with flies, sprinkle them with tobacco water. During this month occasional showers of rain fall. Thermometer about 57 deg.

\* But in some parts of the Deccan, at Hyderabad particularly, the artichokes sown in the latter end of May gave fruit in October, and crops continued until June in succession.

## FEBRUARY.

The weather now is becoming warmer, the dust annoying, the nights variable, and the garden shows great symptoms of change; vegetables droop during the day, and regular irrigation is required.

**EUROPE VEGETABLES.**—The same as last month. Artichokes, of the glo-bular kind, are now coming in: broad beans continue.

**COUNTRY VEGETABLES.**—Of almost every description, yams and sweet potatoes in abundance.

**FRUITS.**—Towards the latter end of the month, a few early peaches. Strawber-ries in abundance; the other fruits the same as last month.

[Obs.]—Now take up all your yams and Jerusalem artichokes for seed. Attend to the watering of fruit trees: put out any cabbage-plants you may have remaining, as they will, during the hot winds in May, serve to be cut as sprouts.

The nights still continue cool, and sometimes the thermometer will be found as low as 64 deg. in the early part of the morning; during the warmest part of the day 84 deg.

## MARCH.

Now begins every appearance of hot weather, though the nights are cool. Much is not now to be expected from the garden. Peas are quite out, so are broad beans; parsnips just coming in.

**EUROPE VEGETABLES.**—Cauliflower still continues good; cabbages getting hard and coarse. Nole-cole may be had; artichokes in abundance: scorzenora, potatoes, endive, French beans, leeks, celery, and lettuce, good.

**NATIVE VEGETABLES.**—Irvin, sweet potatoes, carrots, brinjals, and almost every other native produce for the bazaar.

**FRUITS.**—Grapes in perfection: oranges getting scarce: guavas, peaches, apples, figs, plantains,

[Obs.]—By the latter end of this month, if the hot season is advanced, it will be necessary to take up your potatoes sown in December; but the longer you can keep them in the ground the better. During this month, showers continually fall. Be careful to attend to and water your fruit trees. Porcupines and other animals are very destructive in gardens at night time, owing to all the grain in the field being now gathered in. Thermometer from 84 to 90 degrees.

## APRIL.

The hot weather has now decidedly set in. The vegetables in the garden, half an hour after sunrise, look in a drooping state, and regular irrigation is necessary.

## 82 GARDENERS' CALENDAR FOR THE DECCAN.—EUROPE VEGETABLES.

**EUROPE VEGETABLES** now procurable, but by no means in perfection, are—cabbages, artichokes, asparagus, celery, beet-root, carrots, tomato, salading.

**NATIVE VEGETABLES** are—cucumbers, dill-passund, kudoo, mathie, soe, pollock, kumruk, brinjal, gnjar, &c.

**FRUITS**—Grapes, peaches, strawberries, rose-apples, apples, oranges, pines, plantains, melons (mangoes just making their appearance towards the latter end of the month); besides many sorts of native fruits.

[**Obs** ]—Very little can be done in the garden now, as it is useless putting out plants. Constant irrigation is necessary for all vegetables, and the more they are sheltered from the hot winds the better. Ground may be ploughed and got ready for the ensuing rains. Now lay out your garden walks, as the mallies have not much to do. Asparagus beds will be in full perfection if attended to and looked after. The small kinds of tomato continue, and salad, if well sheltered by the shade of plantains or other trees, may be preserved.

Rain occasionally falls this month. The thermometer in the shade 92 degrees and upwards. No doing without tatties from the middle of the month.

**ANISE.** *Hind. Sone.*—Sown in a light soil after the rains, and allowed to remain where sown, thinning out the weaker plants.

**ARTICHOKE.**—There are four species—only two cultivated for use. It has large pinnatifid leaves, erect, and of about two or three feet long. From the centre arises a long stalk, which gives off branches, on the top of which is a large round scaly head composed of numerous oval scales enclosing the florits setting on a large fleshy base, which, with the fleshy part on the base of the scales, is the only part eaten: it is called the artichoke bottom.

The two sorts grown are, the French conical spine-leaved, and round Dutch globular-headed. The seed may be sown in June, and continued during the

rains ; the soil should be light and of a good loamy description ; the seed sown at least six inches apart. When they are in four or six leaves they may be transplanted in rows, and in open situation and good soil, three or four feet asunder. The ground should be of a light consistence and well manured. Let the trenches be about six inches deep, and at least from one to two feet broad : they will require occasional irrigation if the weather is dry, after having been well watered by the hand. When first removed, at the latter end of the rains, and the plants have arrived at almost their full size, a small black fly collects upon them in the greatest abundance, and destroys the whole of the leaves. This also happens to plants raised from seed sown in October, or at the close of the rains. When the plants, in January, February, and March, have arrived at their full perfection, they may be propagated from slips that grow on the sides of the old plants, which wither and dry as soon as the fruit is ripe and gone to seed. Care must be taken in removing both plants and shoots, that a sufficient quantity of earth is taken up with the roots, so that the spongioles are uninjured. When they appear to have taken root well, let the ground occasionally be loosened round them, and the stalks well earthed up. The best means of preserving the plants from being destroyed by the fly is to cover the leaves well over with ashes from the kitchen, or sprinkle with tobacco water. The seed from Europe, the Cape, Persia, and Hindoostan, all grow well, but those that I have succeeded best with were from the upper provinces of Bengal : they were of the large globular kind, and from being acclimated, I thought they did not suffer so much from the fly as others. More than one head should not be allowed on each stalk : pick all the others off. If a piece of stick is run through the stalk, across under each head, I think that it tends to enlarge it. The seed may be collected whenever ripe, which is mostly in May or June. The largest and finest heads do not always give the most seed—often the reverse. Young artichoke shoots, if blanched, may be eaten as salad.

**ASPARAGUS.**—The species are many, but only one is cultivated for use. The method of first raising the plants from seed, is either by broad-cast, in beds of six feet square, or in long beds of about two feet broad, where they are to remain. If sown in square beds, when the grass is about six or ten inches high, and begins to bear small flowers, it may then be transplanted, and must be carefully taken up with sufficiency of earth attached to the roots, and planted in trenches at least six inches deep and eighteen broad. Between each trench should be a space of one foot or more. The plants may then be laid down in double rows in the trench, prepared at six or eight inches asunder—perhaps a greater distance may be better. The roots must be carefully covered, and well watered. The beds cannot be of too rich and light a soil, and must be kept clear of weeds, and watered as occasion requires. When the asparagus is sufficiently strong to commence working the beds after the stalks have gone to seed, the watering should be discontinued, and the stalks allowed to dry

and wither; then uncover carefully the roots, being cautious not to injure the crowns; cut or twist off the stalks, and cover up the crowns again with rich manure about two inches high; then turn over upon it the spare ground that has been left between the trenches. Thus you will have in the middle of the rows a water-course, which will serve to irrigate the plants below. The watering must now be continued daily if necessary, which will cause the plants to send shoots up through the loose soil above them, and if well managed, the grass will be white and fine. Before putting down your plants in trenches, plenty of good manure should be well dug into them, so as to form a rich soil for the roots to strike in. After the grass has been cut, and the shoots are getting thin, cease working the beds and let them go to seed, when they may be again worked. You will seldom get more than two crops in the year from the same beds, therefore you should have them in succession. I do not know of any animal, except rats, destructive to the roots: flooding with water is the only remedy.

**BASIL, SWEET BORAGE**.—Grows as a shrub, and is only used for seasonings with other sweet herbs.

Grows in all parts of India, from seed or slips, in any light soil. Is used chiefly for flavoring sherbet, &c.

**BEANS, BROAD AND WINDSOR**.—Should be sown in the cold weather, in drills the same as peas, each bean at six inches apart; the rows sufficiently separated to admit a person to pass between them for picking, weeding, &c.

The best time in the Deccan for sowing is in November, and if the ground is light and well manured, there is no chance of failure. I would also recommend the seed to be changed every season. Rats and porcupines are very destructive to them.

**BEANS, FRENCH—WHITE, BLACK, AND YELLOW**.—These beans are runners and dwarfs: they should be sown in rows about two feet apart, and you may commence sowing them at the close of the hot winds. The dwarf white are preferable at the early part of the season, as they bear sooner than the other sort, which require sticks at least six feet high, and strong, so that they may stand the rain and wind; you can continue to plant them until March with success. All that is necessary is not to put them too close, and to remove caterpillars that are found upon them during the months of July and August. These beans are very hardy, and grow well in almost any soil.

The Portuguese bean, or "chevaux de frize," is cultivated like all other beans. Its pod has four fringed angles, the edges jagged; they are dressed like French beans.

All the other sorts are grown in the same manner.

**BET-ROOT, RED AND WHITE**.—Is grown from seed, and thrives best in a light grey soil. The seed may be sown in the latter end of May, and trans-

planted in either rows or beds. This crop will not produce such large roots as those sown later, but with care some roots fit for salad may be forthcoming in September; and I would advise the plants being grown on ridges during the rainy season. The leaves, when not too large, of both species, are used and eaten as spinage. Each plant should be at least a foot apart, and in transplanting them care must be taken to draw the root up unbroken, and the hole in which they are put should with a dibble be made quite even, and the plant put in straight. It may be transplanted at any period of its growth, except when going to seed, and which all the early sown is apt to do. Fresh seed, if procurable, is to be preferred, though I have no doubt if seed grown in the Decan were sent to another part of the country it would thrive well. Beet-root is always the finest for not being transplanted, and the soil cannot be too light, and of a rich old vegetable manure.

**BOON-COLE**.—Grows to great perfection; the leaves are curled. The tops should be cut off when two feet high, the sprouts being the only part fit for use. It is cultivated the same as cabbage, and may be had all the year round.

**BROCCOLI**.—For culture, see **CAULIFLOWER**.

**CABBAGE**.—I shall confine myself to two or three sorts—the drum-head, sugar-loaf, and savoy, as all the others require similar care and attention. You may sow the seed in the latter end of May, in boxes or baskets, shaded at first from the sun, and kept continually moist. The advantage of sowing them thus early is, that the plants by the time the rains have set in are strong, and the leaves do not offer to the small fly, which settles upon them to lay its eggs, the nourishment necessary for the young caterpillar when hatched. The plants, when about three inches high, should be picked out into other boxes, about two inches apart, and lightly covered over with dry thorns, to prevent sparrows and other small birds from eating them. When large enough to be transplanted into nursery beds, use the same precaution with regard to thorns; and lastly, place them where they are to remain, in rows about eighteen inches apart, either on the top of the ridge or in the hollow—the former method in the rains is to be preferred. The soil should be light and rich. In the cold season, the precaution of sowing the seed in boxes is unnecessary, as they grow very well in small beds sown broad-cast, and watered at first by the hand, after which, when removed, they thrive extremely well. If the seed is sown as late as January, you may raise a stock of plants which come but to a small size, and if kept in the beds and sheltered from hot winds, may be transplanted in the rains. They produce good sprouts for eating when other vegetables are scarce; as also the stalk of the old cabbages, of which if, towards the end of the rains, the shoots be carefully stripped off, they may be planted, and a succession of cabbages be procured by this means. I have known this plan adopted for years; in fact in my own garden, particularly, the red cabbage I have cultivated in this way for many seasons.

[Obs.]—You cannot be too careful in examining your young plants twice or thrice a day in the early part of the season, and having all the caterpillars picked off or destroyed. Sugar-loaf cabbage and nolo-cole are particularly infested with them. I found that sprinkling the young plants, after watering, with a little black pepper, caused the small green caterpillars to leave the plant immediately. Slugs and caterpillars have a great aversion to pounded turmeric.

**CAPSICUM.\*** *Hind. MIRCHEE.*—This plant is so well known all over India as the large red pepper, that it is hardly necessary to describe the method of culture, which merely consists in sowing the seed broad-cast, and when the plants are about six inches high, to put them either in rows or beds eighteen inches apart. The soil should be rich. They require watering and being kept clear of weeds.

**CARROTS.** *Hind. GAJUR.*—This vegetable is so well known as to need little description. The two kinds in general used all over the Deccan are the red and yellow—(orange and lemon colour); they may be sown at the commencement of the rains, broad-cast, in beds of about six feet square, and should be thinned, having a space of six or eight inches breadth at least between each root; this distance is sufficient for your first crop, but those that are sown later should have at least six inches space allowed between each root. If you wish to preserve your carrots until the commencement of the rains, in the months of March and April cut off the green tops, and let the roots remain in the ground: this checks their growth, and I have by this means had good carrots until the middle of July. I found the yellow Cape to answer the best for preserving: the seed was not sown until January. They bear transplanting well, and may be sown with advantage in drills. The soil should be light and good; care must be taken, the same as in moving beet, not to break the root.

**CARDOON.**—This resembles the artichoke, but grows much taller. The tender stalks and leaves, when bleached, are used for soups and salads, and are cultivated in the same manner as the artichoke.

**CAULIFLOWER**—The seed should not be sown until the latter end of August, as it does not always head well: it requires the same care as the cabbage, and should be planted in a similar manner. Removing the plants occasionally prevents their quick growth, and I think if the roots, when taken up, were divided into halves or quarters before being put into the ground, that it would facilitate its going to head. The soil in which I have seen the finest heads grown was of a greyish description, and the plants had little water given to them. In England the market gardeners seldom water cauliflowers, and once in four days is amply sufficient in the Deccan: no injury will accrue even if watered seldom. The white broccoli is, I am sure, often taken for the cauliflower

---

\* The Chinese produce the finest capsicums I have ever met with.

in this country. and I have seen heads large enough to be divided into two dishes, and then form a sufficiency to cover a dish in general used for vegetables. Broccoli, both red and white, should be cultivated in the same manner as cauliflower.

**CELERY.**—The seed may be put down at the commencement of the rains, and like other plants at the season, is better for being first sown in boxes or baskets, for the convenience of removing under shelter if the weather is bad. When the plants are about two inches high, they may be picked out into other boxes or baskets, two inches apart, where they remain for the first four or five weeks, then remove into beds or rows—to the latter I give the preference at the early part of the season; after that put them into square beds of six feet, and about twelve inches apart. They then grow so close in the leaves that they protect each other's roots from the sun, and keep the beds moist, besides being very readily blanched, merely requiring a couple of half circular tiles to be put round the stem, tied with string or matting; then earth up the sides, which completes the business. In four or five days you may commence cutting, and transplanting the off-shoots, have a succession the whole year round. The plant is very hardy, and goes to seed without any difficulty.

**CELERIAC.**—Another variety of celery, and is to be managed precisely in the same manner. It seldom grows above eight inches, and mostly spreads upon the ground. The root of this only is eaten: it forms rather a large white bulb, nearly the size of a parsnip, and has an exceeding fine flavor. The root of the celeriac is oftener used for stews than eaten raw.

**CHIVKS.**—A species of shallott. Propagated either by slips or dividing the roots; this may be done at any season, but best after the rains. Nine or ten inches of space must be allowed between each bulb.

**CRESS.**—It is to be sown thick in very narrow drills, about one inch deep and a few inches apart. It requires to be well watered, and is in season all the year round. It is only used for salading. The seed is sold in the bazars, and known by the name of Hullah; it should be out for use when two inches high.

**CORIANDER.** *Hind.* DHUNNIA, KOTMEER.—Grown in native gardens.

**CUCUMBER, GREEN AND WHITE.**—This vegetable is grown from seed at all seasons. The plants should never be too close. It thrives in all parts of India, and grows with much or little water; and, being a creeper, if allowed to climb over sticks or trellis-work, is more out of the way of jackalls and porcupines, who are fond of the fruit. The natives grow them in their fields, in the cold season, amongst grain of various sorts, and in the sandy beds of rivers during the hot weather.

**EGG-PLANT, or BRINJAL.** *Hind.* BINEGUN.—Grown commonly in the Native gardens, of which there are many varieties.

**ENDIVE, CURLED AND FLAT-LEAFED.**—The seed may be sown in the earliest part of the rains in beds or boxes; the plants when about two inches high should be picked out into beds, or sown in drills. They should not be nearer than one foot, and when grown to their full size must be tied up to bleach. If in the rains, it is requisite that the plants should be every now and then opened to let off the water that may have collected inside the plants, otherwise they soon decay. The method adopted in England, of placing a board on the plants for the purpose of bleaching, will not succeed here, as the white ants attack them, and the board stopping the free circulation of air, prevents their growth, and causes decay immediately.

**FENNEL.**—Grows in great abundance in all parts of India. It is often confounded with aniseed. It may be sown in beds or rows, and does not require any particular care. It is a perennial, and dies as soon as it has given seed.

**GARLIC.** *Hind.* **LUSSUN.**—This is common all over India, and may be grown from seed or roots—the latter method is most in practice. One of the bulbs is broken, and the cloves taken out, and planted in beds about four inches apart: no particular care is required, save watering and keeping clear of weeds. When the leaves dry and wither, then take up the roots and preserve in a safe place.

**GINGER.**—*Hind.* **ADBUCK.**—It is a native of India, and is sown at the commencement of the rains in beds of about six feet square, and in a rich cultivated soil. The planting consists in dividing part of the green root, which the natives first soak in a mixture of cow-dung and water: it is then planted about two inches deep and about one foot apart: it requires a great deal of water, and to be kept clear of weeds. When the stalks dry, the ginger may be taken up, although it is sometimes left in the ground for a couple of years. It is better for remaining twelve months, and must be watered during the dry season.

**HORSE-RADISH.**—I have never seen the plant in India: a substitute is the root of the mooringa scraped, which grows wild, and the pods, when young, are used as a vegetable, both boiled and in curries. The tree is easily propagated by seed, and only requires watering for a few months when first sown.

**JERUSALEM ARTICHOKE.**—This is a species of sun-flower, and is, I believe, a native of South America. It goes to seed generally in October and November, and may be raised from it, or by dividing the root, planting them the same as potatoes. They should be put down in January or February, and will require occasional watering until the rains, when they make their appearance. As the plants grow, they must be well earthed up, and if very tall, may probably require to be supported with sticks. This vegetable is ripe as soon as the stalk withers, and the best method of preserving them is to let the roots remain in the ground,—that is, if the white ants and other insects do not attack them. If you are

---

\* I have since heard it is, and has been grown in Candeish.

obliged to take them up, keep them in a safe place, in earth, watering them occasionally. To sow them, put either half or a whole one at a foot distance, in rows, the same as potatoes, and attend to them in like manner.

**LEEKs.**—The seed may be sown at the commencement of the rains, or after, beds, in broad-cast. When about six inches high they require transplanting into large beds, or rows, at least one foot apart; they go to seed in the course of six months, and grow very well in all parts of the Deccan.

**LEMON GRASS, OR SWEET RUSH.**—This is a fine aromatic grass, and flourishes well in any good soil. It is propagated by slips from the root, and only requires watering. It is used as an infusion.

**LETUCE.**—There are various sorts: the most esteemed are the cabbage, red and brown cos lettuce. For early salading the seed may be sown at the commencement of the rains, although neither are in perfection until the cold season. They are mostly raised in small beds, and then transplanted into others at about one foot apart, or on ridges around other vegetables; they do not require any particular care. The ground should be light and rich, and when the plants are of a sufficient size they should be tied up; and this may be done with shreds of plantain-leaf or twine.

**LOVE-APPLE, OR TOMATA.**—The produce of South America—a genus of the same class as potatoes. There are two sorts, single and double. May be sown immediately the rains commence, in beds; afterwards transplanted in rows, two feet apart, and trailed upon sticks of a strong description. If the soil is good, they will grow to seven or eight feet in height. The double, which are the finest, if sown in June, ripen in October. The lower branches should be pruned, and a succession of crops may be kept up until April. The small single tomata, with slight protection from the dry winds, will continue until the rains.

**MARJARUM**—A native of India, and is very easily reared, in beds or pots, either by slips from the roots, or seed. It is used for flavoring ragauts, sauces, &c.

**MELON.**—The rock, green and musk, (Hind. KHUR BOOZA) are all sown in the Deccan at the same time,—generally in beds of rivers where the soil is light and sandy. They are very seldom sown in gardeans. The seed is put down in November, three or four together, with as rich manure as can be procured. The plants must not be close together—a distance of from six to eight feet is generally allowed. They come in about March, and continue until the rains. In Bombay they are in season at the same time, and a second crop is grown during the rains: this is not the case in the Deccan. The water melon (Hind. TUR BOOZA) is also to be had at the same time, and grown in a similar manner. The seed should always be preserved from the finest and richest-flavored fruit, and is better for being three or four years old. The green melon I think the

finest flavored, although many of the others are very good. I attribute the melons growing finer in the sandy beds of rivers to the temperature being more equal about the roots than it is in beds in the garden—especially during the night.

**MINT.** *Hind.* **PODEENA.**—There are three sorts, Spenn-mint, Pepper-mint and Penny Royal. The first is generally used for culinary purpose: it may be propagated by layers or cuttings, or parting of the roots; it requires a moderate proportion of water. In the rains a small black caterpillar attacks the leaves, and will destroy the whole bed if not removed by hand, or flooding the beds, when the insect becomes detached from the leaves, and is easily destroyed.

**MOREL.**—This species of Fungi is found at the latter end of the rains, and generally dug out of white ants' nests.

[OBS.]—The wholesome sorts of Mushroom are readily distinguished by being of a pink or flesh color in the gills, changing to a darker color as they get older: they have also a peculiar sweet smell; and another criterion of their being edible is the outer skin peeling off easily.

**MUSHROOM.** *Hind.* **KOODRUTTEE.**—Commonly found all over the country during and after the rains.

**MUSTARD.** *Hind.* **RAIE, EAST INDIA.**—This is of two sorts, white and black: the former is generally cultivated for salad, and is grown in a similar manner to cress; the black mustard seed is used for sauces, pickle, and oil.

**NASTURTIUM.**—This is either grown from cutting or seed, and merely required to be protected from the hot winds to be in flower all the year round; it grows much better in beds than pots. The flower and leaf are eaten mixed with other salads, and the seeds when green are picked.

**NOLE-COLE.**—Is a plant of the cabbages species, and must be sown exactly in the same manner recommended for cabbage, broccoli, &c. It comes in early, and remains in season until April. If watered during the hot weather, and taken care of, it will, when the rains commence, throw out sprouts, and form other nole-cole on the old stalk, which may either be used, or slipped off and planted; they will not be so fine as those raised from seed, yet are fit for use.

**ONIONS.** *Hind.* **PEBAZ.**—This vegetable is common all over India, and is sown broad cast. When about six inches high it is picked out into beds six fingers' breadth apart; they are sown at almost all season of the year, and go to seed without difficulty.

**ORACHE, OR MOUNTAIN SPINAGE.**—Of these there are several varieties, commonly known as red and green sage—the leaves are slightly acid: both sorts are boiled as spinage, but the red is most esteemed.

Propagated by seed—no particular soil required.

**PARSLEY.**—Is cultivated from seed; may be sown in beds or rows where it is to remain. The plant, when about two or three inches high, should be thinned, and a space of at least a foot left between each. It will, if watered and taken care of, continue all the year round. A good plan is occasionally to cut down the leaves to within four inches of the root, as it makes the parsley throw out young and fresh leaves. It bears transplanting well. Always give the preference to Europe seeds. The common parsley of the country is very insipid. The roots of parsley are much used in French cookery.

**PARSNIPS.**—This vegetable is very difficult to rear: as it does not often happen that the seeds come up, they should be sown broad-cast in beds a rich soil, and the plants when of a sufficient size, carefully thinned, leaving a space of one foot between each plant, and removing all weeds. They may be transplanted but it must be done with the same care as recommended for beet-root. The proper time for sowing the seed is the latter end of July, and they will come in during March and April. It goes to seed freely, but the roots grown from it were by no means fine the second year.

**PEAS. Hind. BUTTANA.**—The large white, green, and brown, are now the common peas in the Deccan; the latter sort are boiled and eaten, often in the shell. Peas may be sown in the beginning of June, and continued at pleasure until February, when the weather becomes too warm, and the stalks dry up, although I have known peas to be had much later from the sheltered gardens in the city of Aurungabad. The method of sowing is very simple: they should not be too thin, or placed deeper in drills than two inches, and a space of three feet between the rows. I generally sow my first crop in double rows, with a space of a foot between: when they are ready to climb, earth up both sides well, leaving room for the water to run in the middle. I then place good strong sticks in the centre of the rows, and on the outer side of each lay good old manure, after which little trouble is required. Keeping them free from weeds is of course essential, and if you wish to preserve the seed, take care and remove any of the plants that appear of a different kind when in blossom; also draw out all the thin and bad looking plants, to prevent farnia impregnating the good, and if this seed be the produce of the rain crop, you will find that if sown again in the cold weather they will be much finer, and last longer than the seeds of the former season. I was led to observe this from seeds that had fallen and grown up of themselves. If you sow for late crop, I recommend their being put down in single rows, and the lines from east to west: this enables the sun to act upon the whole, and tends to prevent mildew from damp on the stalks. In growing crops that you do not intend to stick, it is advisable to put brush-wood on one side for them to creep over, and prevent much loss in seed from damp and otherwise.

**POTATOES. Hind. ALOO.**—This vegetable, now so generally cultivated all over the Deccan, was a few years ago confined to Surat and Seroor. The former was

generally the finest, and could only be had during the cold season ; but now the potatoes are grown all year round : on the Neilgherry and Mahabuleshwar Hills they are in abundance. They should be planted in rows about one foot apart, and five or six inches deep ; the space between each row, if ground can be spared, eighteen inches, otherwise a foot. The ground should be light and loamy, and as little infested with white ants as possible. They can be sown at the commencement of the rains, but the spot should be selected where the water cannot lodge, and easily let off, which may be done by keeping the end of the channel between the ridges open. At this season plant your potatoes on the top of the ridges, and do not water them unless necessary, as too much water makes them run to stalk. If your ground has not been well ploughed previous to the rains setting in and all the weeds destroyed, the chance is your crop will fail ; but should you have your ground ready, take your potatoes, intended for seed, and cut them into pieces, taking care that each slice has at least two eyes in it ; and as you cut the slices, whilst fresh, dip the cut side of each into wood-ashes, and let them dry well, which takes place in a few hours ; this I think prevents the white ants' attack. Sow each slice from nine to twelve inches apart, and place by the side of each a small clove of garlic, which in some measure tends to prevent the attack of a large grub very destructive to the plant.

[Obs.]—Here I think I am in error with respect to the grub, as the insect's eggs must be in the manure when added to the soil, and I have little doubt but that if the manure was previously worked up with soil two or three times during the hot season, and exposed to the heat of the sun, the eggs would be destroyed ; or the same purpose might be effected with a little freshlime. I am sure the caterpillar does not travel to the plant.

The finest crops in the Deccan are sown from the beginning of October to the latter end of December, and this last crop will be found the most productive. Fine crops of potatoes have been grown where hemp has been first sown, and when about two feet high ploughed up into the ground. If when your potatoes are about flowering, you perceive any of the stalks wither, carefully open the earth and look for a grub, which you may be certain is feeding upon it—of course destroy it. When these grubs are very numerous it is necessary to search all the drooping plants daily : my idea is, that the larvae is brought with the manure, and is the deposit of a beetle—however, nothing can be done but destroying them. I have heard recommended a bag with a small quantity of assafoetida to be placed in the water-course, as a remedy, when the plants were being irrigated. Here again is another insect which deposits its egg on the stalk of the plant. In the rains a small caterpillar eats its way into the stalk above the ground, when the plant immediately droops ; the remedy is to remove the whole. Be careful at all seasons to keep the stalks well earthed up, and let the potatoes have a moderate supply of water—of course the season must be your guide. I one year at Kunhur, raised a very fine crop of potatoes during the rains, sowing

them on ridges, and only watered them at first in consequence of want of rain ; they were sown in the beginning of July, and a few taken up in September (the latter end) Some of the potatoes weighed from five to seven ounces, and were equal to any I have seen grown on the hills.

In the latter end of August, by way of experiment, I tore off shoots from the lower end of the stalk, when they were abundant, and planted them in rows, the same distance as for seed ; and in November, on taking them up, was gratified by finding four or five large potatoes produce by each stalk the size of a duck egg. This plan I strongly recommend to those persons who may not be able to get fresh seed after the rains. I did not find that the rows of potatoes from which the slips were taken produce fewer potatoes in consequence, as I weighed the whole and kept a memorandum for my journal,

**DIRECTIONS FOR GROWING POTATOES IN THE DECCAN &c.**—Choose a red, or sandy soil, never the black earth. Plough the field to a foot in depth, then harrow &c., and break all lumps of earth.

“ Plant the Potatoe whole, if a small one, if large cut it into not more than four pieces. Put each into a hole dug out at the level of the ground, just below which the Potatoes is to be carefully placed : put into each hole two handfuls of ash manure, mix with a little sand. These holes are to be six inches apart ; and the rows of Potatoes twenty two inches asunder. Cover over with earth, making a ridge over the rows, which ridge is gradually to be raised to the height of sixteen inches, so that in watering the water flows between the ridges, and never rests upon the Potatoe itself. Leave the Potatoes in the ground some time after the stalk perishes, by which means the Potatoes dry in the ground, and become mealy. The stalk beginning to die is to be the signal to cease watering.

“ Water by the Mot from four to eight days, according to circumstances : this must be judged of by ascertaining whether the earth around the Potatoe remain always moist. The best time for planting is the 1st of November.

“ CHARLES LUSH.”

**PUMPKIN.** *Hind.* KUDDOO—RED AND WHITE.—The vegetable grows in great abundance in all parts of the Deccan. It is much esteemed both by Europeans and Natives. It is generally sown at the commencement of the rains, and requires no particular care : the soil should be light and good. When young, about the size of a goose egg, if cut and boiled, it will be found to resemble the artichoke-bottom dressed in the same way.

**PURSLANE, PORTULACA SETTIVA AND OLERACIA.** *Hind.* CHOOLEE.—Round stem, fleshy leaves, and slightly acid. It is used as an ingredient in salads. It is reared by seeds sown at the commencement of the rains, and will thrive in any soil.

**RADISH.** *Hind. MOOLLEE.*—This vegetable may be sown at the commencement of the rains, either in beds, broad-cast, or on ridges of beds where other vegetables have been planted. I prefer the ridges in the rainy season, as I think they grow better. You may continue to sow them until February. The turnip-rudishes are of various colours—white, red, Spanish black, and purple: also long white, red, and purple. The seed should be trodden in, or benten down, and then a good watering given to them. When about three inches high, they must be carefully thinned, leaving at least a space of five fingers' breadth between each plant. They take from three to five weeks to come to perfection, and require a good share of watering. The seed pods are often used for pickels when green.

**ROSE MARY.**—This plant is an evergreen, and highly aromatic, and grown precisely the same as lavender or oyster-plant.

**SAGE.**—A perennial, native of the South of Europe; it grows in all the gardens, and is propagated by seed, layers, and slips, without any difficulty. It is used for seasoning.

**SCORZENORA AND SALSIFY.\***—This is a long white milky-juiced root. Grows without any difficulty after the rains. It is an annual from the south of Europe. It should be sown either in beds, broad-cast, or planted in rows, at a distance of a foot apart. The root when boiled and dressed is rather a delicate vegetable. It comes to perfection in three or four months.

**SHALLOT.** *Hind. GUNDHUN.*—Propagated the same as the Chive.

**SPINAGE.**—The produce of what country unknown. It may be sown in the rains, but it succeeds best in the cold season: it should be sown in lines a foot apart, or in beds, broad-cast, lightly covered over. It requires a moderate share of irrigation. The native vegetable, called seo pollok, when boiled and dressed very much resembles it.

**SPINAGE, NEW ZEALAD.**—Is hardy annual, with fleshy leaves and numerous branches. As a spinage it is as valuable as the Orache. If watered, grows freely, and produces leaves in the hottest weather.

**THYME.** *THYMUS VULGARIS Hind. EEPAR.*—Very delicate plant to rear. Is best performed by seed, but it may be increased by slips, and dividing the root. It requires a rich soil, and the space of six inches between each plant. Best grown in pots.

**TURNIPS, ANNUAL.**—The produce of Britain. It is cultivated in all parts of the Deccan at the commencement of the rains and the cold weather. They continue until the latter end of February, and go to seed easily. The soil should be rich and light, and they may be sown broad-cast, and then transplanted either in rows or ridges, and a space of at least six fingers breadth allowed between each. In the rains small caterpillar is bred on the leaves, which, if

---

\* **SALSIFY.**—This is the black scorzenora, and requires the same treatment

not removed, will destroy the whole. The sorts are, white, and red; one species grows above the ground.

**VEGETABLE MARROW, OR SQUASH.** *Hind. SUPPARA ROOMRO.*—This is a very delicate vegetable, of the Gourd species. The crooked-necked, when about six inches long, is well flavoured, but soon gets hard and stringy. The pear-shaped is the best of any, but must be dressed when young. Propagation only by seed, and the plants should never be removed, but remain where sown, only thinning the weakly ones.

The soil should be a rich loam, the same as for cucumbers. Train the plants on sticks. It is often necessary to fertilize the female blossoms, by approaching the anthers of the male flowers when charged with pollen.

**WATER CRESS.**—A native of Great Britain. Is generally raised from slips. It thrives best in a running stream, and is to be had all the year round. It is grown from seed in beds near a water-course, and the supply may be kept up for any length of time. A small black caterpillar is very destructive to it: the only remedy is flooding the plants for a short time.

## GARDENERS' CALENDAR FOR MADRAS AND BANGALORE.

### JANUARY.

#### MADRAS.

*Mean temperature, 75.6—Average fall of rain, 1.29 inches.*

THE season is too far advanced to sow the generality of vegetables with much prospect of success; but turnips, carrots, love-apples, vegetable marrow, lettuce, endive, radish, mustard and cress, spinage, and Nepaul spinage, may be sown during all this month; also successive crops of cabbage and knol khole every fortnight. Turnips are said to succeed best when placed in rows; they should be thinned to a distance of six inches from each other. Carrots rarely succeed well when planted at this season; they should be thinned, but not transplanted, except when required for seed. Love-apples, when two or three inches high, should be planted out in beds at five inches apart; afterwards transplant in rows two feet from each other, with a framework to run upon. Vegetable marrow should be sown in rich light soil; earth up the stems as they increase, and peg down the leading branches at a joint.—Lettuce and endive should be planted in boxes, and transplanted at one foot apart from each other; they may also be sown in beds, and thinned to the proper distance; a few days before use they should be blanched. Radish, mustard, and cress may be sown every week or ten days; the two last throughout the year. Spinage, to be sown in beds, and thinned until the plants are one foot apart. Nepaul spinage should be planted in rows, with trellis work to run over.

This vegetable continues to flower and bring forth fresh leaves throughout the

year, and requires no care. Cabbage and knol-khole should be planted in boxes and transplanted into beds about three or four inches apart in three weeks or a month. They may be transplanted a second or third time, especially the latter. When transplanted for the last time, they should be put in well manured trenches, at two feet from each other. Horse manure and ground bones are recommended for all the cabbaged tribe. With care, cabbage and kno-khole may be procured during every month in the year.

Cape or English seed potatoes may be planted during the first week of this month; and, if the season prove cool, they may be expected to arrive at considerable perfection. The early part of December is a more favorable time for planting potatoes; but it is hardly possible to procure fresh seed-potatoes from England before the beginning of January.

In this month the following vegetables and fruits are sometimes procurable in the market, in small quantities and at high prices,—carrots, turuips, cabbage, knol-khole, beet-root, salad, negro salad, Bombay and country onions, Surat onions, beans country beans, Vellore beans, French beans, white beans, Goa beans and peas. (the last always dear and seldom good,) pumplenose, Manilla and camala orange, chota orange, country orange pomegranate, guavas, apples, limes, jack-fruit, figs, red plantain, yellow plantain, thurmerten fruit, bilimbi, and occasionally mangoes.

## BANGALORE.

4

*Mean of the thermometer, 70.—Quantity of rain measured, none.*

In this month most of the culinary vegetables are in great perfection. Grapes, apples, pine-apples, and also a few strawberries and peaches, are in season. Such apple trees as have finished bearing may now be pruned, although it would be better to delay it until the ensuing month. Sow seeds of such vegetables as peas, radish, spinage, &c., that do not require more than three months to come to perfection. This is a good month for altering or making a garden, laying walks, &c. Open the roots of vine trees.

## FEBRUARY.

## MADRAS.

*Mean temperature, 77.7.—Average fall of rain, 0.04 inches.*

The remarks on last month apply generally to this; but there is less chance of success in rearing vegetables, as they seldom acquire much strength before the hot winds set in. Turnips and carrots rarely succeed; but radish, mustard and cress, lettuce, endive, spinage, and the cabbage tribe, should all be planted in this month, and throughout the year.

All the fruits, vegetables, and flowers mentioned as procurable in the market in January, may be had in greater perfection, and cheaper, during this month.

In the beginning of the month peas are plentiful; and with care the following may be obtained, of good quality—Jerusalem artichokes, asparagus, duffin

beans, French beans, scarlet runners, beet-root, broccoli, cabbage, carrots, cauliflower, celery, (in great perfection,) endive, lettuce, knol-khole, onions, parsnips, spinage, turnips, and yams; also the following fruits—custard apples, Brazil gooseberries, gauvas, lemons, mangoes, mulberries, pumplenose, raspberries, sapadello, tomatas, and occasionally apples.

## BANGALORE.

*Mean temperature 74½.—No rain.*

In this month pine apples, peaches, grapes, and strawberries, may be had in great abundance and perfection. A few apples remain. Dahlia seeds should be sown towards the end of the month, in situations protected from the burning winds of the two ensuing months; the old roots should also be planted in large pots of sand, covered with some fermenting vegetable matter, to induce them to send out shoots. Very few vegetables can be sown with advantage this month. Graft peaches and apples, and prune apple trees.

## MARCH.

## MADRAS.

*Mean temperature 80°8.—Average fall of rain, 0·70 inches.*

But few vegetables come to any perfection that are sown in this month, but it is desirable to sow successive crops of cabbage and knol-khole, which may be planted in beds that are partly protected from the sun, and transplanted into rows as required. With care, salad may be grown in this month, and generally throughout the year.

In the market brinjals, carrots, and turnips, may be procured in considerable quantities, and pretty good. Turnips are generally very stringy towards the end of March. Country raddish and all kinds of country greens, may be had in large quantities; but no fruits can be obtained in the market, except the red and white plantain, which are always in season.

## BANGALORE.

*Mean temperature 80.—Quantity of rain measured, 2½ inches.*

During this month the roots of apple trees should be opened by those who approve of that system, and very strong manure should be applied. Strawberries, grapes, and peaches are in season. The ground should be dug about the roots of vines. The dahlias sown last month will require transplanting, and the shoots should be separated from the old roots. Plant Turberose roots. Beet-root and celery are in perfection. As the winds and hot air of this month are very injurious to vegetation, as few seeds as possible should be sown.

## APRIL.

## MADRAS.

*Mean temperature 83·7.—Average fall of rain, 0·40 inches.*

The remarks on March apply equally to this month; but as the hot season advances, the chances of success in rearing most kind of vegetables diminish.

Melons and cucumbers should be sown during this month. Sow melons in rich soil, giving the plants plenty of room to run. When they have made four leaves stop them by pinching off the leading bud; they will then produce two lateral shoots, which stop in similar manner; and so continue to treat each new formed shoot, stopping it at the second or third joint. When the plants begin to show fruit, stop the fruiting branches two joints before the fruit. Cover the ground with leaves or straw, to keep the roots cool, and to prevent the fruit from becoming spotted.

In this month yellow and red plantains, pine-apples, grapes, pumplenoses, chota and camala oranges, are procurable in the market. Carrots, turnips, beans, and cabbages, are reduced in quantity, and their prices are considerable. Brinjals, radishes, water-pumpkins, pavekah, peerkengah, and greens, are to be had in abundance.

#### BANGALORE.

*Mean temperature, 80½.—Quantity of rain measured, 3½ inches.*

Sow all flower-seeds to come to perfection in July and August. They will be refreshed by the early rains, called mango showers, and there is generally rain in Mysore during June. Sow every kind of vegetable seed. As the mango will be in flower, if requisite, spread some manure round the roots of the trees, slightly stirring the soil. Shift the dahlias. Sow wheat. Plant potatoes. The flower buds should be dry this month, as the scorching sun will very effectually destroy the weeds.

#### MAY.

##### MADRAS.

*Mean temperature, 86°8.—Average fall of rain, 0·77 inches.*

Melons, cucumbers, love-apples, and Nepaul spinnage, may be sown during this month; also successive crops of the cabbage tribe, and mustard and cress. Mangoes, oranges, pine-apples, pumplenoses, red and yellow plantains, and grapes, are supplied abundantly. Brinjals, greens, peerkeughah, drumstick or mooroungakaw; and in flowers, all sorts of malligay flowers, are to be had plentifully in the Market.

#### BANGALORE.

*Mean temperature, 81.—Quantity of rain measured, 3 inches.*

Repeat the sowing of last month, or it may be deferred till next month. Transplant the seeds of vegetable sown last month, and prepare the beds for the final transplanting of knol khole, cabbage, and cauliflower, watering the soil richly. The dahlias should now be turned out of the pots into the open ground, in a sandy well manured soil. Sow some cotton seed.

## JUNE.

## MADRAS.

*Mean temperature, 88.—Average fall of rain, 1'46 inches.*

If the season is at all favourable, this is a very desirable time to sow the first crop of celery beet-root, and asparagus, in boxes, for transplanting towards the latter end of August or beginning September.

Cabbage seed may be sown in boxes in all this month. If the weather be favourable for transplanting, they should be put out in beds in the following month, and finally transplanted in August. In ordinary seasons good cabbage may be procured in this manner during the whole of October, November, and December, by which time peas and other vegetables become abundant. If the weather should continue very hot during September, without showers, the plant should be kept in boxes until end of September or beginning of October.

As it is desirable to get strong celery plants before the monsoon, fresh seed should be sown every fortnight from the middle of June until the end of October. Beet also should be sown in successive crops, and transplanted once or twice. This vegetable is not likely to be injured by the heavy rains of the monsoon. Asparagus seed should be sown in boxes towards the latter end of the month and transplanted in November, in rows two feet apart, and the plants one foot from each other. The soil should be mixed with a large portion of rotten horse manure: it is scarcely possible to make the ground too rich for asparagus. Fresh asparagus seed should be sown whenever procurable, and especially between the end of June and the beginning of December.

In this month mangoes, oranges, pine-apples, plantains, pumplinose, pomegranates, cucumbers, melons, green melons and limes, abundantly supplied, at low prices in the market. Cafrots, turnips, cabbage, and other European vegetables, are scarce and dear; but provekah, padolougah, greens, and brinjal, are procurable in small quantities.

The following fruit and vegetables are also to be had in this month: custard-apples, sapadella, lemons, maugosteen, parsnips, salad, and vegetable marrow.

## BANGALORE.

*Mean temperature, 76.—Quantity of rain measured, 4 inches.*

The directions for this month are very similar in many respects to those given for May and April, in order to have the flowers and vegetables later in the season. Mangoes are in great perfection. Stake the dahlias put into the ground last month. The Natives plough their ground and sow the castnut. The white grub of the cricket is often very numerous this month, and commits dreadful havoc. This is the best month for sowing seeds from England, &c., provided they arrive in the two or three preceding months, but in general it is advisable to sow them

as soon as they are unpacked. The fields for hay should be scratched by the native plough, and manured. Cuttings and suckers of chrysanthemums, if taken off and planted in small pots, will flower in September.

## JULY.

### MADRAS.

*Mean temperature, 85.7—Average fall of rain, 3.73 inches.*

In this month it is desirable to sow celery, beet, knol-khole, cabbage, cauliflower, broccoli, asparagus, endive, lettuce, carrots, and turnips.

**CELERY.**—Sow in boxes in this and the two following months. Remove to beds when about three inches high, and into trenches, as required, after being a month in the beds. The trenches should be  $2\frac{1}{2}$  feet deep, filled up with a foot of light soil and stable manure, and afterwards gradually, as the plant grows, with light soil, till within about six inches of the top. Water for the first two months, with the hand, after which they may be occasionally flooded.

**ANOTHER WAY.**—Having sown and transplanted as above, remove into trenches four feet apart, and about 18 inches deep, nearly filled with horse manure, and rich earth. As the plant grows, bank up into ridges, with light soil. By this method the root of the plant, and not the stem, is watered when flooded.

**KNOL-KHOLE, CABBAGE, CAULIFLOWER, AND BROCCOLI.**—Sow in boxes during this and five following months. Remove to beds when two inches high, and transplant the cabbage and knol-khole, twice, and cauliflower and broccoli at least three times, allowing the growth of a couple of new leaves between each planting.

**ASPARAGUS.**—Sow in beds in July, and remove the plants in November into raised beds of one or two rows. When the berries come red, cut the plant two inches above the ground and dress the tops, when they will be ready to cut in ten days. By dressing the beds in succession, asparagus may be produced for the table all the year. Stable manure is the best, and the plant should invariably be watered by the hand, and never flooded, except in the hot wind season. Plants, if taken care of, will produce for eight or ten years; they should however be wintered (roots cleared of the earth and exposed for some days,) and the ground dressed, every second year.

**LETTUCE AND ENDIVE.**—Sow in boxes and pots surrounded with water till the plants appear, otherwise the small red ant will destroy them; plant out as required, and tie up a few days before you cut for use. Black Town, or St. Thome, manure is the best.

**CARROTS.**—Sow in a light deep sandy soil.

**TURNIPS.**—Sow in a rich soil, well manured.

**PEAS.**—Should the fall of rain be considerable throughout June, and in the

early part of this month, few peas may be sown once a fortnight until the monsoon, but the plants die so soon after they begin to pod, even in the most favourable seasons, that the produce is generally less in quantity than the seed sown.

In the market, all European vegetables are scarce and dear this month. Brinjals, greens, vandakaw, and other native vegetables, are supplied in small quantities. Mangoes and pine-apples are getting out of season. Plantains, cucumbers, and melons, are plentiful

#### BANGALORE.

*Mean temperature, 75.—Quantity of rain measured, 4 inches.*

Mangoes still continue till towards the end of the month ; young plants, should then be grafted, and the trees pruned as soon as they have done bearings as that is the only time when it can be done with impunity. Cuttings of all trees and shrubs should be put in this month, as well as slips of artichokes, which as soon as they have established themselves, should be cut down close to the ground. The Natives generally sow the raggy and cholam, and prepare the ground for rice, and plant cuttings of sugar-cane. Flower and vegetable seed may still be sown, and in regular seasons the cabbage tribe of the first and second sowings should be finally transplanted. The first crop of hay is cut this month.

#### AUGUST.

##### MADRAS.

*Mean temperature 84.6.—Average fall of rain, 47.6 inches.*

Successive crops of all the vegetables sown in July should be planted this month, more especially celery and beet, which should be fit to transplant a second time before the monsoon. These two vegetables are less likely to suffer by excessive rain than most others. Artichokes should be sown in beds during this month, three inches between each seed, so as to allow the removal of the plants in November without disturbing the roots. To propagate by suckers take off the suckers, and prick them out six inches apart ; and when they become well rooted transplant into deep rich soil, setting them two feet apart. If large, suckers may be planted at once where they are intended to remain.

To prevent artichokes running to leaf, and producing small heads, when the plants are from ten to fifteen inches high cut them off close to the ground, and cover them over with light dry old manure ; when they have advanced a few inches repeat the operation. If the young plants are tied up for a few days before being cut off they will become blanched, and may be eaten as salad.

French beans and scarlet runners may be sown during this month, and until February. They should be planted in rows two feet apart, north, and south, and be well supported with sticks, or with an arched bamboo trellis, which is very ornamental.

European vegetables continue scarce and dear. Brinjals, greens, and other native vegetables, are to be had. Mangoes, pine-apples, and oranges, are very scarce. Plantains continue in abundance.

#### BANGALORE.

*Mean temperature, 74.—Quantity of rain measured, 5½ inches.*

Oranges, loquats, and alligator-pears, in season: insects are excessively numerous and destructive. The orange tribe should be budded and inarched, and propagated by gooties. Plant beds with early strawberries. Still sow a few vegetable and flower seeds. Continue grafting mangoes. Transplant cotton. Propagate carnations and pinks by layers. Begin collecting seeds of early flowering annuals. Dahlias are in perfection

#### SEPTEMBER.

##### MADRAS.

*Mean temperature 83·7—Average fall of rain 5·30 inches.*

Continue to sow all the vegetables mentioned for August. Transplant cabbage, cauliflower, broccoli, beet, celery, endive, and lettuce. Two or three crops of peas may be sown during this month, if the weather is favourable, but not with much prospect of success. The seed peas that answer best in Madras are those grown at Bangalore.

Peas should be planted in well raised beds, in double rows about two feet apart. They should be watered by hand for the fortnight, and afterwards flooded. Peas require no manure, but should be planted in good soil.

#### BANGALORE.

*Mean temperature, 75.—Quantity of rain measured, 8½ inches.*

Alligator-pears and loquats still continue. Apples come in. Sow orange seed and alligator-pear stone. Young potatoes in season. The American cotton sown early in full fruit. Plant Cape bulbs, either in the ground or in very deep pots well drained. The turnips and cabbages are much infested by a small dark caterpillar, which may be destroyed by sprinkling the plants with powdered lime. The rice begins to flower. Put down cuttings of geraniums, roses, violets, heart's-ease, &c. Flowers are in great perfection. As most of the peach trees will have lost their leaves, the roots should be opened and exposed for fourteen days, and then strongly manured. The principal crop of hay is cut this month.

#### OCTOBER.

##### MADRAS.

*Mean temperature, 82·0—Average fall of rain, 11·12 inches.*

The remarks on last month apply equally to this. Continue to sow all kinds of vegetable seeds in boxes; transplant from the boxes into beds, and immediately after the first heavy fall of rain remove into rows and trenches,—more particularly celery, beet, cabbage, knot-khole, cauliflower, and broccoli. Care should be taken in finally transplanting all the cabbage tribe, to provide against heavy falls of rain, by making trenches to carry off the water. Crops of peas should be sown every week or ten days, from the beginning of this month until 10th of December; peas sown after that time seldom pod.

Onions and leeks should be sown during this month in light rich earth carefully covering the seed. When leeks are a few inches high, plant them in drills, eighteen inches apart, and nine inches plant from plant. As they increase in size, draw up the earth to their stems in order to blanch them; leeks are much improved by blanching.

Sow parsnips in rich deep soil. Trench the ground two feet deep; sow the seeds in drills one foot apart, and thin the plants so as to leave them eight inches from each other.

But few fruits, vegetables, or flowers, are procurable in the market this month; but cabbages, carrots, and spinuage, may be produced from your own garden with ordinary attention.

#### BANGALORE.

*Mean temperature 74.—Quantity of rain measured, 4 inches.*

Apples and vegetables are in great perfection. The main beds for strawberries should be planted. Vines will begin to flower early in the month; the borders should be dug, and well manured. Dahlias will begin to fall in this month. As soon as the leaves begin to wither they should be taken up with the soil that adheres to them, and kept in a dry place. As soon as they have been sufficiently dried, they should be packed in boxes of and till the time for planting arrives. The double tuberoses should be similarly treated.

#### NOVEMBER.

##### MADRAS.

*Mean temperature 78.9.—Average fall of rain, 14.13 inches.*

This is the month for activity in the vegetable gardens, as but few things arrive at much perfection which are not planted before the end of this month. The principal crops of peas should be sown during the first week, and continued every three days during the month; also French beans, scarlet runners, broad beans, and Windsor beans: the two last have rarely succeeded in Madras. Sow beet, knol-khole, cabbage, broccoli, and cauliflower, in boxes: transplant from boxes into beds, and remove from beds into rows. Transplant celery and remove into trenches. Plant out artichokes and asparagus. Broccoli and cauliflower seed planted on the 25th of this month, and transplanted on the 20th December, in a sandy soil, with a small quantity of horse dung soil with cowmanure, produced fine heads on the 18th of February. They were watered by hand for the first fortnight, and afterwards flooded in the usual way.

Potatoes should be sown towards the end of this month. They should be cut according to the number of eyes, taking care that each piece is of sufficient size. When planted, not more than one inch or one and half inches of soil should be placed over it; and it should not be watered oftener than once in four days, even during the hottest weather. As it grows up, the soil should be banked up to the stalk. Great care should be taken not to give too much water, and not to put too much soil upon the potatoes when first planted.

It has lately been recommended to plant potatoes whole instead of cutting them as formerly; it is also said that the produce is much increased; but taking off the flowers as they form; but potatoes flower so seldom in Madras, that it is hardly possible to offer a practical opinion on the subject.

#### BANGALORE.

*Mean temperature, 72.—Quantity of rain measured, 2½ inches.*

Apples are still in season. This is the last month in which the generality of vegetables can be sown with advantage. Sow the causerina and other tree seeds. This is a good month to lay in a stock of manure, and prepare compost for the next year. The larger kinds of perennial water-flower should be taken up, and reduced in size and re-planted.

#### DECEMBER.

##### MADRAS.

*Mean temperature, 76.4—Average fall of rain, 4.61 inches.*

In the beginning of the month sow French beans, scarlet runners, broad and

Windsor-beans. Peas sown in this month rarely pod, although they grow luxuriantly. Plant out celery from boxes to beds, and remove from beds to trenches. Sow cabbages and knol-kholes, and transplant as above. Vegetable marrow may be sown in the early part of this month in light rich soil. Earth up the stems of the plants as they increase in growth, and peg the leading branches down at a joint, and they will strike root.

Potatoes may be planted until the end of this month; but those sown during the first fortnight are most likely to succeed. Seed potatoes procured from England or the Cape are greatly to be preferred to those grown in this country. When potatoes are planted whole, the produce is finer than when they are divided into two or three pieces; but the same number of potatoes yield a larger crop by the latter than by the former method. Cape potatoes planted on the 18th of December made their appearance on the 30th of that month, and were ripe on the 16th of March. Potatoes should be planted in beds fully exposed to the sun. In rather shady places the crop is small, and when altogether excluded from the direct rays of the sun, they produce nothing.

European vegetables are scarce during the early part of the month; but all sorts of pavelkah, pumpkin, water-pumpkin, brinjals, podalangaw, sweet potatoes or velly kelingoo, saury kelingoo, yams, aivully kelingoo and leno vulty kelingoo, are plentifully supplied in the market. Fruits are scarce, except plantains, guavas and oranges. The samiudee flower and rose are to be had in great abundance.

#### BANGALORE.

*Mean temperature, 69.— $\frac{1}{2}$  inch of rain measured.*

Apples are still in. Young trees should be grafted, and cuttings put down to graft seedlings on. All vegetables in season. A good month for sowing melon and cucumber seed, as well as peas, radish, and spinach, but very few other vegetable seeds. Most of the exotic plants will have ceased flowering, the beds should therefore be dug up and manured with a soil composed of two-thirds vegetable, and one third well decayed animal manure. Turn out and examine the dahlia roots. Prune the roses.

#### GENERAL REMARKS.

##### MADRAS.

Winter and dress figs, mulberries, and custard-apples. Dress pines in Sept., and remove the suckers, and dress again with stable manure, red earth, and sand, in January. Sprouts of cabbage, cauliflowers, broccoli, and knol-khole, taken in February, March, and April and even in May, afford a good vegetable during the hot season.

Plantains, pine-apples, and figs, may be watered in the mornings; but everything else in the evening only. The seed peas that answer best for Madras are those from Bangalore—the common white pea of Mysore. The best carrot, turnip, and onion seed is from Hyderabad: knole-khole from the Cape, and cabbage, cauliflower, beet and celery, from England: other seeds from Bangalore and the Netherheries.

Good manure for all sorts of flowers is red earth and sheep's dung, in nearly equal quantities.

##### BANGALORE.

The meteorological observations of three years—1834-5-6—were one very hot, and one very rainy season: this may therefore be regarded as a very fair average when taken together.

## COINS, WEIGHTS, AND MEASURES.

## TERRITORIAL DEPARTMENT.—FINANCE.

THE Honorable the Governor in Council is pleased to republish for general information, the following Proclamation by the Right Hon'ble the Governor-General of India in Council:—

FORT WILLIAM.—FINANCIAL DEPARTMENT, THE 11TH NOVEMBER, 1840.

PROCLAMATION.—The Governor-General in Council is pleased to notify, that from and after the 11th day of November 1840, in respect to the Mint of Calcutta, and from and after the 1st day of April 1841, in respect to the Mints of Fort Saint George and Bombay, those parts of Act No. XVII of 1835, which were suspended by Act No. XXXI. of 1837, directing that certain Silver coins issued from the Mints within the Territories of the East India Company shall bear on the Obverse the Head of the Reigning Sovereign of the United Kingdom of Great Britain and Ireland, will be again in force; and that the Device of the Silver Coins which shall be coined from and after the said dates respectively in the Mints of India, in conformity with Act XVII. of 1835, and XXI. of 1838, will be as Act No. XVII. of 1835 requires, viz.

On the Obverse—The Head of Her Majesty Victoria, with the words,

VICTORIA QUEEN,

On the Reverse.—The denomination of the Coin in English and Persian in the Centre, encircled by a wreath, and around the margin the words,

EAST INDIA COMPANY 1840.

The Coin will be milled on the edge, with a serrated or upright milling like the Rupee now Current bearing the Head of His late Majesty William IV.

The Weight, Standard, Fineness, and Value, of the Company's Rupee, as defined in the Act, are here repeated.

WEIGHT.—180 grains Troy, or one Tola.

STANDARD QUALITY.—Eleven-twelfths Silver, one-twelfth Alloy.

VALUE.—The same as the Company's Rupee of 1835, the Madras, Bombay, Farruckabad, and Sonat Rupee, and equal to fifteen-sixteenths of the late Sicca Rupee.

The other silver Coins authorized to be issued from the Government Mints by Act No. XVII. of 1835 and Act No. XXI. of 1838, viz. double, half, and

quarter, rupees, and two anna pieces, will bear in all respects a due proportion to this Rupee.

The Governor-General in Council hereby directs, that all Magistrates, Collectors and other Public Officers, will promulgate this Proclamation throughout their respective Districts; and that a translation of it be affixed in a conspicuous place at every public Treasury.

Money Changers, Shroffs, Podars, and others, should be required to take notice of the Provision in Act No. XVII. of 1835, against clipping, filing, punching, or otherwise defacing, the legal Coin. The Silver Coins issued from the Mints of Government under Act XVII. of 1835, if not cut, clipped, marked, or otherwise wilfully impaired, are legal tender for their full value until by gradual wear they have lost two per Cent of their Original Weight.

Published by order of the Right Hon'ble the Governor-General of India in Council.

G. A. BUSHBY, Secy. to the Govt. of India.

*Re-published by order of the Hon'ble the Governor in Council.*

L. R. REID, Chief Secy. to Govt.

Bombay Castle, 1st December, 1840.

Gold Coins—Mohur of 1830 weighs 180 grains, value 15 Rupees.

Silver do—Rupee, Half Rupee, and quarter Rupee.

Copper do—Double Pice, Pice, and one third Pice.

4 Pice, = 1 Anna.

16 Annas, = 1 Rupee.

and 15 Rupees, = 1 Gold Mohur.

Accounts are kept in Bombay in Company's Rupees, quarters, and reas, viz.

100 Reas (Rs.) = 1 Quarter (Q) or 4 annas (As.)

4 Quarters, or 16 Annas, = 1 Rupee (Rs.)

The intrinsic value of a Rupee, coined into English money, (less the Mint duty of 4s. per lb.) leaves 1s. 10d. 2l. after deducting the Freight and Insurance to England, Charges, Commissions, &c.

On the same calculation, it is equal to 2 francs 34 cents  $\frac{1}{3}$  of French money.

## WEIGHTS AND MEASURES.

*[Extracts from the Appendix to the Itinerary of Western India.*

*By Captain JOHN CLUNES.]*

Throughout India, and particularly the Deccan, a very considerable diversity prevails, not merely in every district, but in every village, in measures whether of weight, length, or capacity; nor are the subdivisions to be found in a determinate proportion of each other. To whatever this may be owing, whether to the want of common or universal standard in former times, the decay or abatement of the measure and weights, the knavery of the owners of them, or to the apathy

or connivance of the Native district authorities, is probably immaterial, but the present ill-defined system must be felt by all classes of buyers as a hardship, and they doubtless would be grateful for any beneficial amendment.

There are three kinds of weights in use in India; the first are for weighing drugs, gold, silver, &c.—The second for all bulky articles,—and the third, for pearls, and precious stones.

Those of the first class seem to be founded on the weight of a Tola throughout India, and the tolas under most Governments seem to conform with the Rupee, or principal current Coin of Accounts; in towns, the weights generally are of Iron or Lead; sometimes in a determinate form, but oftener a shapeless mass. In many Villages, however, the shopkeepers have only ballest stones as weights, which are met with in beds of rivers. Indeed, when great weights are required, they are generally made of stones, and under any circumstances, considerable advantage would be derived by the people were the use of stones as weights prohibited under severe enactments. The table of weights annexed, will shew the great variety of the first class (and corresponding English weights) which exists throughout western and central India. Nor are the weights at the Presidency less multifarious than they are in the interior. In the following table of the various weights by which goods are sold in Bombay, it will strike one as a singular incongruity, that varying as those weights do, with almost every variety of goods, and that serving as such they must olog commerce,—this system should be submitted to when the fact is known, that actually every article is weighed by one weight, viz. the “English Avoirdupois,” afterwards reduced by calculation, into the great variety of local weights, which are merely nominal.

The small weight, commonly called **GOLDSMITHS' WEIGHT** is either founded on the Goonj or Ruttee, or the Mustard seed: the Goonj or Ruttee is the small red seed, whether of the white or red species, of the *abros precatorius*; these seeds are very uniform in size, and the plant producing them, grows wild all over India. Two seeds, otherwise Goonj, make one Waal, a weight represented by a seed of the Cheelur. This weight is subdivided as follows:—

8 Mustard seeds = 1 Barley Corn.  
2 Barley Corns = 1 Goonj.

Under different Governments of India, the TOLA is composed of different proportions of the Goonj, or of the Massa, the Bengal Tola being of 100 Goonj, or  $2\frac{1}{2}$  Massa; the Malwa Tola of 96 Goonj or 12 Massa; the Bombay Tola, of 92 Goonj, or  $11\frac{1}{2}$  Massa, several districts in the Southern Concan, of 92 Goonj, or  $11\frac{1}{2}$  Massa; 90 Goonj,  $11\frac{1}{2}$  Massa; and 96 Goonj, or 12 Massa. The pice of Kota in Malwa is equal in weight to 18 Massa, so that from these we may hope to obtain something approaching to the common weight of the Massa or Goonj; the fundamental measures of weight,

The weight of the Bengal Massa, in Troy grains, is 15.353—being 191.916 troy grains, the weight of a Calcutta Sicca Rupee, divided by 125, gives the number of Massa in one tola. The weight in troy grains of the tola in Malwa is 190 grains; which being divided by 12 (the number of Massa in one tola) gives 15.8333 troy grains for the weight of the Massa.

In ascertaining (says Major Sykes) the weight troy of a Goonj, with a Hydrosstatic balance, turning with the 10th of a grain, the results were as follows; 32 Seeds or Goonj, weighed 60.5 grains troy—16 seeds or Goonj weighed 30.5 grains—8 weighed 15.1, and 56 seeds weighed 105.2 grains; which would give an average weight of 1.914 grains troy for each seed. 96 of these would make a tola equal to 183.7536 grains troy. But as the seer weight of 80 Rupees, 13000 grains troy, is to consist of 72 tolas, the tola should weigh 191.666 grains instead of 183.7536; affording sufficient evidence that the tola in use, like every other weight, is below the proper standard.

## MEASURE OF CAPACITY.

Whether measures of capacity in India are derived from those of length, agreeably to the notions of many able theorists in Europe, and in which they are borne out by very ancient writings among the Hindoos, or whether they were invented originally merely to save trouble in weighing grains and liquids, is a subject of enquiry for the philosopher. I am much inclined to the latter opinion as far as regards Western India, from observing that the same denominations refer to the measures of weight as to the measures of capacity, and so relatively to the subdivisions. In this case it seems to me highly probable that the Tunka

or Tukka, a small silver Coin, current during the period of the Mogul supremacy, and in which the Revenue was collected and reckoned throughout the Western Provinces of their Empire, and particularly in the Nizam Shahee's territories, was the foundation of the weights at present in practice throughout the Deccan. Seventy-two of these Tukkas go to the seer, which makes it nearly similar to the Tola, and the now-Tanka, or nine tanka, is still a measure for liquids in very general use. The Chetak, or six tank, is the 16th part of a seer or weight in the Deccan; but my enquiries regard the weights that are in use, and not those that have been. The most popular of the actual measures of capacity are, the Now-Tank, the Seer, the Punseeree, and the Adholee.

#### DRY MEASURE.

**THE ADHOLEE.**—The dry measure, called Adholee, of two seers, which is the largest in the Deccan, in towns and large Villages made of wood turned in a lathe and lackered. It is in form nearly similar to that of an hour-glass, and a  $\frac{1}{2}$  seer, and  $\frac{3}{4}$  seer, and  $\frac{5}{8}$  seer, resemble it in form and lackering. In small villages, where the dealers are poorer, these measures are made from large banboos sawed through at the joint.

The Adholee in Northern Konkun consists of  $3\frac{1}{2}$  and 4 kutoha seers, and the number of adholees to the Konkun maund varies in different towns in the Collectorate from 17 to 24. Where the 4 seer adholee obtains, there the maund contains 20 adholees, and where the adholee is  $3\frac{1}{2}$  seers, there maund consists of 24 adholees; so that the adholees, and not the maunds, differ: the 17 adholee measure is perhaps confined to Salsette. The Konkun and Arabic candy are both in general use in this Collectorate: the first consists of seven maunds, the other of eight maunds. The Catti or Deccan Candy, is also in use: and is used for measuring Salt.

The large dry measure in Bombay for Salt is the Phara, containing—

10 $\frac{1}{2}$  Adholee... = 1 Phara.

100 Phara..... = 1 Anna.

16 Annas..... = 1 Rass, or 40 tons.

The Phara measure when used, is struck off even with a run by a rod made for the purpose.

The small dry measure for the grains is the seer, whereof

4 Seer..... = 1 Puheelce,

17 Puheelce... = 1 Phara.

8 Pharas... = 1 Candy

Batty or rice in the husk is reckoned by the Moola of 25 Pharas.

#### LIQUID MEASURE.

The liquid Seer Measure used in Bombay for Spirits, Arrack, and Milk, is equal in weight to 60 Rupees, or 1 lb. 10 oz. 7 dwts. 12 grains troy. The maund consists of 40 of these seers, and the seer is subdivided into half seers, quarter seers, and

the latter into two measures called now-tankā, or nine-tankā tukkā. The measures of Oil corresponds with the maund of 28 lbs., that is, the contents weigh that, and the contents of the sear consequently weighs 11 oz. 4 dwts.

#### LONG MEASURE.

The Measures of Length are the KATHEE, the GUZ, and the CUBIT. The first is only used as a land measure: the other two are most used by artificers, and sometimes used in measuring Piece Goods, Cloths, Silks, &c., which are not sold by the piece. In most of the Provinces under this Presidency, the Guz is divided into 20 tussoo. In Guzerat it measures 27.5 inches making the cubit of 14 tussoo equal to 19.25 inches. At Bombay and in Malabar it is 28 inches, and the cubit 19.6 inches. In the Deccan, the Dooab, the Southern Konkan, Surat, and also in Kutch, the Guz is divided into 24 tussoo, but of a greater variety of length, and the cubit into 14 tusso. The Peshwa's guz, which is in use in the Public Departments at Poona, is 33.86 inches. At seven of the principal towns in the Dooab, the guz varies from 31.75 inches, to 34.75 inches and broad cloth, velvet, chintz, and other articles of Europe manufacture, are measured by it. An average accurately taken at twelve of the chief towns in the Southern Konkan, makes the guz 33.438 inches, and the cubit 15.08 inches.

The length of the cubit, however, almost everywhere, is usually determined by the mean length of five different men's arms, measured from the elbow to the end of the middle finger. Turbans &c., are sold by this measure, but it is seldom met with out of Surat as a measure, unless with tailors. Purchasers usually measure by their own arm's length. The English yard is in common use at Bombay in measuring Europe manufactures, and indeed in many places in the interior.

#### SUPERFICIAL AND SOLID MEASURES.

SUPERFICIAL measure for the measurement of land, solid measure for ascertaining the quantity of timber and many kind of artificer's works, are obtained from the same data as the measures of length.

Artificer's work, superficial measurement throughout Guzerat, Deccan, Konkan, and at the Presidency, the reckoning is made by 100 in length, whether guz or cubit, by one in breadth. This rule applies also to the manufacture of carpets, mats, &c.

Masonry is calculated by the brass, which is 25 cubits in length by one in breadth, and one in height. The cubits in use among masons in Bombay is 20 inches (being 4 longer than the timber guz,) so that a brass of masonry contains 115 74 cubic feet.

Timber is measured by the guz, and the rule for determining the contents is, by the square of the quarter girth multiplied into the length. A sawyer's guz is 32 inches in length, and 9 inches in breadth,  $32 \times 9 = 288$  square inches, 2 square feet.

## BOMBAY AND CANARA MEASUREMENT OF TIMBER AND PLANK.

TIMBER. 20 Vissvassa = 1 Vassa.

20 Vassa = 1 Covit or Candy.

Plank is measured by the guz of 28 English inches, or 24 borels. 94 borels in length, 12 borels in breadth, and one borel in thickness, make one guz.—A borel is equal to 1·666 English inches.

## MALABAR MEASUREMENTS.

TIMBER—is measured by the candy or covit.

16 Maganies = 1 Borel.

24 Borels, = 1 Kol.

24 Kols, = 1 Covit or Candy.

PLANK—is measured by the Guz, thus—

10 Maganies = 1 borel—

92 Borels in breadth, 24 borels in length, and 1 borel in thickness, constitute a guz.

## ENGLISH AND BOMBAY MEASUREMENT IN THE DOCK YARD.

TIMBER.—12 Cubical feet and 1216 inches = a covit or candy.

3 Covit and  $18\frac{3}{4}$  Vassa = 1 ton or 50 cubical feet.

PLANK.—26 Cubical feet, and 206 inches = 100 guz, the quantity in which plank is bought and sold.

## NEW WEIGHTS AND LIQUID MEASURES.

COMPILED BY J. H. CRAWFORD, ESQ., LATE ACCOUNTANT-GENERAL, BOMBAY.

New Indian Weights established in Bengal by regulation VII. of 1833, and adopted by the Government of Bombay, at the recommendation of the Tariff Committee in the New Tariff valuation.

1 Tola = 180 Grains Troy.

80 Tolas = 1 Seer. = 14,400 "

40 Seers = Indian Maund. = 576,000 "

lbs. Avoirdupois.

Then as 7,000 Grains Troy are exactly equal to

1

1 seer of 14,400 Grains Troy are exactly equal to

2—2·35lbs.

1 md. of 576,000 Grains Troy are exactly equal to

82—2·7lbs

And it follows therefore,

lbs. Avoirdupois.

That 35 Seers are exactly equal to

72

„ 7 Indian Maunds = cwt. 5·7

or

576 „ „

„ 49 do. = „ 36

or

4,032 „ „

„ 245 do. = Tons 9 = „ 180

or

20,160 „ „

The following simple and accurate rules for the conversion of new Indian weight into avoirdupois weight, and vice-versa, deduced from the foregoing data,

are given in the volume of useful Tables published by Mr. James Prinsep, in Calcutta in 1834, page 66 :—

Rule 1. *To convert Indian weight into Avoirdupois weight.*

1. Multiply the weight in seers by 72, and divide by 35: the result will be the weight in lbs. avoirdupois.

2. Or multiply the weight in maunds by 36, and divide by 49: the result will be the weight in owt. avoirdupois.

Rule 2. *To convert Avoirdupois weight into Indian weight.*

1. Multiply the weight in lbs avoirdupois by 35, and divide by 72: the result will be the weight in seers.

2. Or multiply the weight in owt. by 49, and divide by 36: the result will be the weight in maunds.

~~~~~

Since the foregoing memoranda and calculations were made, I have been able to obtain a copy of the Bengal Regulation VII. of 1833, on which the new system of Indian weight is founded, and subjoin the following further memoranda connected therewith, in the belief that they will be found useful at this time.

The first Section of the Regulation in question, after reciting the reasons that render it expedient to adapt the weight and standard of the Furruckabad Rupee (which are the same as that of the Madras and Bombay Rupee) in the Calcutta Mint, as well as in the Saugor Mint, where they had been introduced as far back as the year 1824-25, continues as follows :—"It is farther convenient to introduce the weight of the Furruckabad Rupee as the unit of a general system of weights for Government transactions throughout India, under the native and well-known denomination of the Tola."

And Section IV, in ordering the discontinuance of the use of the Sicca weight of 179·666 grains heretofore employed for the receipt of Bullion at the Calcutta Mint, states that "in its place the following unit, to be called the Tola, shall be introduced, which from its immediate connection with the Rupee of the upper Provinces, and of Madras and Bombay, will easily and speedily become universal throughout the British Territories."

"The Tola, or Sicca, weight, to be equal to 180 Grains Troy, and the other denominations of weight to be derived from this unit, according to the following scale :—

8 Ruttees = 1 Masha	15 Troy Grains.
12 Mashas = 1 Tola	180 ditto.
80 Tolas (or Sicca weight) = 1 seer	= 2 lbs. Troy.
40 Seers = 1 Mun (or Bazaar Maund)	= 100 lbs. Troy.

Mr. James Prinsep says, with reference to the foregoing change, in pages 62 and 63 of his very useful Tables already alluded to in these memoranda :—

"The Tola is chiefly used in the weighing of the precious metals and coin : all bullion at the Mints is received in this denomination, and the tables of Bullion Produce are calculated per 100 tolas. It is also used at the Mints to make the subdivision of the tola into annas (sixteenths) and pie, in lieu of mashas and ruttees.

"Mashas, ruttees, and dhans, are used chiefly by native goldsmiths and jewelers. They are also employed in the native valuation by assay of the precious metals : thus 10 mashas fine, signifies 10·12ths pure, and corresponds to "10 oz. touch" of the English assay report of silver. There is a closer accordance with the English gold assay scale, inasmuch as 96 ruttees in a tola exactly represent the 96 carat grains in the gold assay pound, and the dhan the quarter grain, and the ruttee, of which eight go to the masha as the above, is not an exact divisor of the latter weight, the following further table may not be without use in calculations connected with the conversion of precious metals from the troy weight of Great Britain into the tola weight of India.

1 Ruttee	=	Grains Troy	1·875	decs.—or	1½	Grains Troy exactly.
2 Ruttees	=	do.	3·750	"	3¼	do.
3 do.	=	do.	5·625	"	5½	do.
4 do.	=	do.	7·500	"	7¾	do.
5 do.	=	do.	9·375	"	9¾	do.
6 do.	=	do.	11·250	"	11½	do.
7 do.	=	do.	13·125	"	13½	do.
8 do.	=	do.	15·000	"	15	do.

It will be observed, that the preceding observations, whether extracted from the Regulations of Government (VII. of 1833 Bengal,) Mr. Prinsep's Tables, or made by myself, relate chiefly to the Bullion or Mint weights. Speaking of the Tola in connection with Indian weights generally, Mr. Prinsep says, page 71, "The unit of the British Indian ponderary system is called the Tola. It weighs 180 Grains English Troy weight. From it upwards are derived the heavy weights, viz. Chittack, Seer and Mun (or Maund,) and by its subdivision the small or Jeweller's weights, called Mashas, Ruttees, and Dhaus.

"These last mentioned weights having already been disposed of, it will be sufficient to give the following table of the larger or Bazaar weights:—

5 Tolas, or Sicca weight,	=	1 Chittack, or Grs. Troy	900.
16 Chittacks.....	=	1 Seer.	or lbs. Troy 2½.
40 Seers.....	=	1 Maund, or lbs. Troy	100.

And to add with reference to the Chittack, that it is the lowest denomination of the Gross weights ; and in Bazaar transactions is commonly divided into halves and quarters (called in Bengalee Kaacha,) thus marking the line between the two series, which are otherwise connected by the relation of the seer &c. to the Tola" (Prinsep's Tables, page 62.) Whilst the Government of India appear, by the

Tables prepared by their authority for the transactions of the Commissariat and other Public Establishments in Bengal, to have sanctioned the introduction of a smaller denomination of great weight than the Chittack, called tenth parts in the tables in question.

It appears to me, however, that neither of the above subdivisions of the Chittack are so correct in principle, and certainly not more convenient in practice, than the Tola, the unit on which, as observed by Mr Prinsep, the whole ponderary system of India is founded. In the practice adopted in the Bazaar transactions as above, the subdivisions of one half and quarter, are not only in themselves fractional parts of Chittack, but represent Tolas and their fractional parts also, half a Chittack being equal to two and half Tolas, and the quarter of a Chittack $1\frac{1}{4}$ Tola; and neither of them carries the subdivision so low in actual quantity as the weight represented by the unit itself: whilst in the transactions of Government, though the actual quantity represented by the newly created tenth parts carries the weight as low as half Tolas, it does so by the adoption of denomination of weight not recognized in the general dealings of commerce or by Law, and as it appears to me without sufficient cause, for if a Tola, which is considerably less than half an ounce avoirdupois, is a weight not sufficiently small for the purposes of Government, its transactions may be carried out in the next lower subdivision to Tolas, Mashas, and Ruttees, viz. Grains Troy. But I believe it will be admitted by mercantile men in general, that the ounce avoirdupois is the lowest denomination of English weight to which recourse need be had in the ordinary operations of commerce, and it therefore seems to me that the Tola, which, as already stated, is not equal to one half that weight, is as low a standard as need be noticed in Indian mercantile dealings generally; the more especially as the subdivisions of the Tola (Mashas and Ruttees and Grains) afford the means of the most minute calculations in retail transactions, as well as in the adjustment of weights connected with the more valuable articles of Trade, such as Musk, Opium, Silk, &c. &c. &c.,—and in all dealings indeed where perfect accuracy is considered necessary or desirable.

The Weights of the several Presidencies of India, Travancore, China and England, compared with the New Indian Maund introduced into Bengal by Regulation VII. of 1833, and adopted in the New Tariff valuation which came into operation under the Bombay Presidency, 10th December 1840.

Making the proportion between the old Wine Gallon and the Imperial Gallon so nearly as 10 are to 12, or 5 are to 6, that the difference between converting the former description of Gallon into the latter, according to the proportions just quoted, or working the conversion to the greatest nicety of calculation, will only occasion a difference of 222 decimal parts of an Imperial Gallon (or say rather more than 1-5th of an imperial Gallon) in every one thousand (1000) old Wine Gallons converted as above.

To convert old Wine Gallons, therefore, into Imperial Gallons, we may either multiply by 10 and divide by 12, or multiply by 5 and divide by 6, or deduct 1-6th from the number of old Wine Gallons given.

Old Wine Gallons.	Imperial Gallons.
For 1000 × 10 = ...	10000 ÷ 12 = 833.333
1000 × 5 = ...	5000 ÷ 6 = 833.333
1000 — 1-6th, or 166.666.....	= 833.333

Again, taking the converse of this proportion from the data above given, we have the proportions between the Imperial Gallon and old Wine Gallon so nearly as 12 are to 10, or as 6 are to 5, that the difference between converting Imperial Gallons, according to the proportions just quoted, or working the conversion to the greatest nicety of calculation, will only occasion a difference of 320 decimal parts of an old Wine Gallon (or say rather less than one third of such gallon) in every one thousand (1000) Imperial Gallons converted as above.

To convert Imperial Gallons therefore into old Wine Gallons, we may either multiply by 12 and divide by 10, or multiply by 6 and divide by 5, or add 1-5th to the number of Imperial Gallons given.

Imperial Gallons.	Old Wine Gallons
For 1000 $\times 12 =$	12000 $\div 10 = 1200$
1000 $\times 6 =$	6000 $\div 5 = 1200$
1000 $+ 1\text{-}5\text{th, or}$	200 $= 1200$

Memorandum intended to show the check against fraudulent weights in the Bazaar, and elsewhere, which the introduction of the New Indian Maund and its several subdivisions will prove wheresoever adopted, to all classes of the community.

Extract being Para. 6 of a Report from the Revenue Accountant (Bombay) to Government in the Territorial Department, No. 22 of 1839, dated 25th May, 1839.

6. It has been stated in the 4th para. of this Report, that the Revenue Accountant would recommend Indian Maunds, Seers, and Tolas, in preference to lbs avoirdupois, as the weight to be adopted in Opium purchases and sales hereafter, and he would now respectfully state, in support of this opinion, that however much maunds differ in their actual weight, and in their several subdivisions, in different parts of India, still the maund is a weight familiar to the Native Population in every portion of it, and that whilst the Company's or head rupee, $180 \times 86 = 14,400$ which is exactly a tola, or 180 Grains troy, enables every individual of the better classes of Society, who may possess eighty tolas, or one Indian Seer. Rupees of that Coinage, or of the Bombay, Madras, and Fort-ruckabad Coinage, of years immediately preceding the introduction of the head Rupee, to check or establish a standard seer in every part of the country, the poorer individuals, to whom our Copper currency may be better known, need only to possess thirty six annas (or two and a quarter Rupees) of the new Copper coinage to command $400 \div 36 = 14,400$ as before, the same check against fraud and imposition, as his more fortunate neighbour, the possessor of Rupees; the weight being in both cases grains troy fourteen thousand and four hundred, and therefore equal to one new Indian seer, as per margin.

N. B. And further, if annas $36 = 1$ seer, then $36 \text{ annas} \times 4 \text{ annas} = 144 \div 16 = 9$ Rupees in new Copper Currency $= 4$ seers of the new Indian weight.

COMMON RULES FOR FINDING THE TIME OF HIGH WATER.

To determine this time, these elements are necessary :—

1. The time of high-water at full or change, is found by observation : and to be accurate, it must be the mean of many observations made at different times of the year, and in different states of the weather.
2. The moon's age on the proposed day.
3. The time after noon when the moon shall arrive at the south.

The moon's age is found, by adding the 'epact' for the year, (the moon's age on the 1st of January,) to the 'epact' for the month (the age of the moon on the first of the month if it had been new moon on the 1st of January,) and the day of the month. If the sum be less than a lunar month it is the moon's age ; but if greater, take a lunar month from it, and the remainder is the moon's age.

The epact for the months are these : January 0, Feb. 2, March 1, April 2, May 3, June 4, July 5, Aug. 6, Sept. 7, Oct. 8, Nov. 9, Dec. 10.

Thus to find the moon's age for June 10, 1828.

Epact of the year.....	14
Epact of the month.....	4
Day of the month.....	10

28 days.

The moon, when new, is south at the same time with the sun, and eight-tenths of an hour nearly late for every day of her age. Therefore, multiply the moon's age by 8, take away the unit figures and multiply it by 6, for minutes ; the other figures are hours afternoon. If they exceed twelve, the excess is the hour of southing on the following morning.

As, if the moon's age were 28 days, $28 \div 8 = 22.4$, or 22 hours 24 minutes ; that is, 24 minutes after ten the following morning.

The high water is found by adding the time of the moon's southing to the time of spring tide in the table. As, to find the high water at Bristol for 10th June 1828.

Supposing the tabular number for—

Bristol to be.....	6 h. 36m.
Add moon's southing.....	10 h. 24m.

17 hours.

Subtract 12

Remains 5 o'clock.

From the variations already mentioned, as well as from local causes, the rules are not perfectly accurate ; but they may serve to explain and exemplify the principles.

DEPUTY SHERIFFS OF BOMBAY.

FROM 1827 TO 1852.

1827 to 1830.—FRANCIS LEGGETT, Esq.—First Deputy Sheriff of Bombay—appointed 20th December 1826.

1831 to 1842.—CHARLES FITZROY, Esq.—Died 20th September 1842.

1842 to 1852.—FRANCIS LEGGETT, Esq.—the present incumbent.

RULES, &c., OF THE SUPREME COURT AT BOMBAY.

SITTINGS AFTER FIRST TERM, MAY 8, 1851.

WHEREAS it is desirable to lessen the expense of *Law Proceedings* on all sides of this Court and to assimilate the practice to that of the *Superior Courts* at Westminster Hall whether the English practice is found to be more beneficial to suitors ; It is hereby ordered that the following Rules be henceforth observed, and all previous Rules and Orders or parts thereof inconsistent with these Rules but not further or otherwise, are hereby abrogated and discharged.

GENERAL RULES.

1. All the offices of the Court shall be open for the despatch of business from half past ten o'clock in the forenoon during term, and from eleven o'clock till five, during vacation.
2. A return of fees by each of the officers of the Court shall be laid before the Judges on the 1st day of February term in each year, showing the net value of the office for the last year, and the average on the preceding seven years.
3. Verification of proceedings may be made by affidavit instead of certificate in cases where affidavits may be used with greater economy.
4. All affidavits on all sides of the Court are to be taken and expressed in the first person of the deponent, under the penalty as to costs mentioned in Lord Lyndhurst's order 128 of May 1846.

ECCLESIASTICAL SIDE.

1. The practice of the Ecclesiastical Court of the diocese of London is adopted in this Court with respect to probates and letters of administration, or as near thereto, as the circumstances of the country permit, subject to the Rules of this Court with respect to caveats, and the taking of evidence by viva voce examination.
2. To obtain probate, the Proctor on being satisfied as to the genuineness and due execution of the Will, shall indorse upon it the Jurat, and draft an affidavit to be sworn by the executor, stating the time and place of the death of the testator, and the nature and amount of his property, and shall appear before one of the Commissioners of the Court with the executor, who shall thereupon be sworn to his trust.
3. The Proctor shall then deposit the will, affidavit, and all testamentary papers with the Registrar, and the Registrar on being satisfied of the due execu-

tion of the will, on the expiration of fourteen days after the deposit of the testamentary papers, shall deliver out the probate under the Seal of Court according to the present practice, unless a caveat has been filed.

4. In all cases of wills of Hindu females, and in other cases both of will and intestacy, wherein the opinion of the Registrar, notice of the application ought to be given, probate on letters of administration shall not be delivered out of the Registry until fourteen days after an advertisement giving notice of the application has been inserted in some newspaper, to be named or approved of by the Registrar, or until after such citations of notices have been served as the Registrar shall direct, but formal citations are not to be required except in cases where they are necessary, by English practice.

5. To obtain administration, the Proctor on being satisfied as to the claim of the party to the administration, shall draft an act to lead the administration with an affidavit from the party, stating the time and place of the intestate's death, the absence of any testamentary paper, the nature and amount of the property to be administered, the family or other relatives of the intestate, with the name and address, in case of applications by Native widows, of the nearest male relative of the husband, and on the affidavit being sworn by the applicant, the Proctor shall take him before one of the Commissioners of the Court to be sworn to his trust

6. The Proctor shall then deposit the act and affidavit with the Registrar who, on being satisfied of the representative character of the claimant, and on execution of the usual bond, shall issue letters of administration under the Seal of the Court.

7. No proxy is necessary where the executor or party seeking administration resides within the jurisdiction of the Court.

8. Applications to the Court when necessary, to be made by motion on the papers deposited in the Registry.

9. Where an executor or next of kin, subject to the Ecclesiastical Law of England is resident in India, and neglects to represent the party deceased, citations may be issued by the Registrar at the instance of any party interested in the representation, which citations shall be served personally if the party is resident in the islands of Bombay or Salsette, or may be served through the Post office or otherwise as the Registrar directs.

10. In all applications by the Administrator General for letters of administration, so long as his office is combined with that of Ecclesiastical Registrar, he shall apply by petition to the sitting Judge for his fiat.

11. It shall not be necessary to submit Proctor's bills for taxation, unless the party to be charged thereby desire to have the bill taxed.

12. Ecclesiastical business standing for hearing shall be taken before all other business on every Monday not being an Insolvent Court day.

~~~~~  
**PLEA SIDE.**

1. Service of process may be made by the party or his Attorney in all cases where service may be so made in England, except in cases where the Charter directs that service shall be made by the Sheriff.

2. On the plaint being filed, the plaintiff may serve a copy upon the defendant as in England, and all subsequent Pleadings may be delivered between the parties, but the party who sets down the cause for trial must make up a record on plain paper of all the pleadings and the particulars of demand, and file the same with Prothonotary.

3. Defendant may plead several matters without a special order, and if any of such pleas should be objected to, a summons may be taken out before a Judge.

4. The signature of Counsel need not be obtained for Special pleas:

5. Blank subpoenas may be taken out according to the English practice, but more than six names are not to be inserted therein.

6. When the plaintiff is entitled to sign Judgment, he may do so on his own responsibility as in England.

7. In all ejectment suits, the party filing the plaint shall deliver with the plaint a bill of particulars, describing the Premises sought to be recovered.

8. In all other matters not provided for by rule, the practice of the Court of Queen's Bench shall be followed as near as may be.

1 Any person seeking equitable relief may, without special leave of the Court, and instead of proceeding by bill of complaint in the usual form, file a claim in the Registrar's office in any of the following cases, that is to say, in any cases where the plaintiff is or claims to be.

1st. A creditor upon the estate of any deceased person, seeking payment of his debt out of the deceased's assets.

2nd. A legatee under the will of any deceased person not being a Mahomedan or Hindoo, seeking payment or delivery of his legacy out of the deceased's personal assets.

3rd. A legatee under the will of any deceased person being a Mahomedan or Hindoo, seeking payment or delivery of his legacy out of the deceased's general estate.

4th. A residuary legatee, or one of the residuary legatees, of any deceased person, seeking an account of the residue, and payment or appropriation of his share therein.

5th. The person or any of the persons entitled to the personal estate of any person, not being a Mahomedan or Hindoo, who may have died intestate, and seeking an account of such personal estate, and payment of his share thereof.

6th. The person or any of the persons entitled to the estate of any Mahomedan who may have died intestate, and seeking an account of such estate, and the ascertainment payment or appropriation of his share thereof, according to the Mahomedan law of succession ab intestato

7th. The person or any of the persons entitled to the estate of any Hindoo, who may have died intestate, and seeking an account of a partition or an account and partition of such estate.

8th. An executor or administrator of any deceased person, seeking to have the assets of such deceased person administered under the directions of the Court.

9th. A legal or equitable mortgagee or person entitled to a lien as security for a debt, seeking foreclosure or sale, or otherwise to enforce his security.

10th. A person entitled to redeem any legal or equitable mortgage or any lien, seeking to redeem the same.

11th. A person entitled to the specific performance of an agreement for the sale or purchase of any property seeking such specific performance.

12th. A person entitled to an account of the dealings and transaction of a partnership, dissolved or expired, seeking such account.

13th. A person entitled to an equitable estate or interest, and seeking to use the name of his trustee in prosecuting an action for his own sole benefit.

14th. A person entitled to have a new trustee appointed in a case where there is no power in the instrument creating the trust to appoint new trustees, or where the power cannot be exercised, and seeking to appoint a new trustee.

II. Such claim in the several cases enumerated in order I., is to be in the form and to the effect set forth in Schedule (A.) hereunder written as applicable to the particular case, and the filing of such claim is in all cases not otherwise provided for, to have the form and effect of filing a bill.

III. Upon filing such claim, the plaintiff thereby claiming, shall sue out a writ of summons against the defendant to the claim, requiring him to cause an appearance to be entered to such writ, and also requiring him on a day or time to be therein named, or on the motion day then next following, to show cause if he can, why such relief as is claimed by the plaintiff should not be had, or why such order as shall be just with reference to the claim should not be made.

IV. Such writ of summons is to be in form and to the effect in that behalf set forth in No. I of Schedule (B.) hereunder written, with such variation as variations as circumstances may require, and is to issue upon a Judge's order

obtained on the Registrar's certificate of a claim filed, and the usual affidavit that the defendant is subject to the jurisdiction of the Court, and is to be sealed in the same manner as a writ of subpoena and respondendum.

V. In any case other than those enumerated in order I., or in any case to which the forms set forth in Schedule (A.) are not applicable, the Court (if it shall so think fit,) may, upon the ex parte application of any person seeking equitable relief, and upon reading the claim proposed to be filed, give leave to file such claim, and sue out a writ of summons thereon under these orders ; and if such leave be given, an indorsement thereon by the Registrar, upon the proposed claim shall be sufficient authority for the Registrar to receive and file such claim.

VI. In the case provided for by the 5th article of order I., any one person, who under the 3rd or 4th article of order I., might have claimed relief against the executor or administrator of the deceased person whose personal estate is sought to be administered, and the executor or co-administrator (if any) of the plaintiff, may be named in the writ of summons as defendants to the suit ; and in the first instance, no other person need be therein named.

VII. In other cases, the only person who need be named in the writ of summons as defendant to the suit in the first instance, is the person against whom the relief is directly claimed.

VIII. All claims, and all writs, caveats proceedings, directions, and orders consequent thereon, either before the Court or in the Master's offices, are to be deemed proceedings, writs, and orders, subject to the general rules, orders, and practice of the Court, so far as the same are, or may be, applicable to each particular case, and consistent with these orders ; and all orders of the Court made in such proceedings are to be enforced in the same manner and by the same process as orders of the Court made in a cause upon bill filed. .

IX. Writs of summons are, as to the number of defendants to be named therein—as to the mode of service thereof, and as to the time and mode of entering appearances thereto, to be subject to the same rules as writs of subpoena to appear to and answer bills.

X. The time for shewing cause named in any writ of summons (except a writ of summons to revive or carry on proceeding) is to be six days at the least after the time limited by the writ for the appearance of the defendant, but by consent of the parties, and with the leave of the Court, cause may be shewn on any earlier day

XI. At the time for shewing cause named in the writ, or on the motion day then next following, or so soon after as the case can be heard, the defendant, having previously appeared, is personally or by counsel to shew cause in Court, if he can (and if necessary by affidavit), why such relief as is claimed by the claim should not be had against him.

XII. At the time appointed for shewing cause, upon the motion of the plaintiff, and on hearing the claim and what may be alleged on the part of the defendant, or upon reading a certificate of the appearance being entered by the defendant, or an affidavit of the writ of summons being duly served, the Court may, if it shall think fit, make an order granting or refusing the relief claimed, or directing any accounts or enquiries to be taken or made, or other proceedings to be had, for the purpose of ascertaining the plaintiff's title to the relief claimed; and further, the Court may direct such (if any) persons or classes of persons as it shall think necessary or fit to be summoned, or ordered to appear, as parties to the claim, or on any proceedings before the Master, with reference to any accounts or enquiries directed to be taken or made or otherwise.

XIII. Every order to be so made is to have the effect of, and may be enforced as a decree or decretal order made in a suit commenced by bill, and duly prosecuted to a hearing, according to the present course of the Court.

XIV. If, upon the application for any such order, or during any proceedings under any such order when made, it shall appear to the Court that, for the purposes of justice between the parties, it is necessary or expedient that a bill should be filed, the Court may direct or authorize such bill to be filed, subject to such terms, as to costs or otherwise, as may be thought proper.

XV. The orders made for granting relief in the several cases to which the forms set forth in Schedule (A.) are applicable, may, if the Court thinks fit, be in the form and to the effect set forth in Schedule (C.) as applicable to the particular case, with such variations as circumstances may require.

XVI. Under every order of reference to the Master under these orders, the Master is, unless the Court otherwise orders, to be at liberty to cause the parties to be examined upon oath, upon interrogatories, or *vivâ voce*, and to produce deeds, books, papers, and writings, as he shall think fit, and to examine witnesses upon oath, and to state any circumstances specially as he shall think fit, and to cause advertisement for creditors, and if he shall think it necessary, but not otherwise, for heirs and next of kin, or other unascertained persons, and the representative of such as may be dead, to be published in the usual forms, or otherwise, as the circumstances of the case may require; and in such advertisements to appoint a time within which such persons are to come in and prove their claims, and within which time, unless they so come in, they are to be excluded from the benefit of the order, and in taking any account of a deceased's personal or moveable estate under any such order of reference, the Master is to take an account of the personal or moveable estate of the deceased come to the hands of the person against whom such account is directed to be taken, or to the hands of any other person by his order, or for his use, and is also to inquire and state to the Court what part, if any, of the deceased's personal estate is outstanding or undisposed of, and is also to compute interest on the deceased's debts, as to such of them as carry interest, after the rate they respectively carry, and as to all others, after the rate of six

per cent. per annum, from the date of the order, and to compute interest on legacies after the rate of six per cent. per annum from the end of one year after the deceased's death, unless any other time of payment or rate of interest is directed by the will, but in that case according to the will, and in taking any account of a deceased's real or unmoveable estate, he is to inquire and state to the Court of or to what real or unmoveable estate, if any, the deceased died possessed or entitled, and who since the death of the deceased has been and at the time of taking such account is in possession thereof, or in the receipt of the rent or profits thereof; and if he shall find that any part of the rents, issues, profits, or produce of such real or unmoveable estate has been received by the defendant, against whom such account shall be directed, he shall take an account of all such rents, issue, profits, and produce as have come to the hands of the said defendant, or of any other person by his order or for his use, and under every order whereby any property is ordered to be sold with the approbation of the Master, it is to be understood that the same is to be sold to the best purchaser that can be got for the same, to be allowed by the Master, and that all proper parties are to join in the conveyance as the Master shall direct.

XVII. If, upon the proceedings before the Master under any such order, it shall appear to the Master that some persons, not already parties, ought to attend, or to be enabled to attend the proceedings before him, he is to be at liberty to certify the same; and upon the production of such certificate to the Registrar, the plaintiff may sue out a writ of summons requiring the persons named in such certificate to appear to the writ, and such persons are thereupon to be named and treated as defendants to the suit.

XVIII. Such writ of summons, under an order or Master's certificate is to be in the form and to the effect in that behalf set forth in No. 2 of Schedule (B.) with such variations as circumstances may require.

XIX. The persons so summoned having appeared, are to be at liberty to attend, and to be entitled to notice of the proceedings before the Master under the order of reference, subject to such directions as the Master may make in respect thereof.

XX. Where any proceedings originally commenced by claim and writ of summons shall, by the death of parties or otherwise, have become abated or defective for want of parties, and no new relief is sought, a claim to revive or carry on the suit may be filed, and such claim is to be in the form set forth in No. 12 of Schedule (A.)

XXI. The party claiming simply to revive or carry on proceedings may sue out a writ of summons requiring the defendant thereto to appear to the writ, and to shew cause, if he can, why the proceedings should not be revived or carried on.

XXII. Such writ of summons is to be in the form and to the effect in that behalf set forth in No. 3 of Schedule (B.), with such variations as circumstances may require.

XXIII. If any defendant to any such writ is desirous of shewing cause why the proceedings should not be revived or carried on, he is to appear and to file a caveat against such revivor or carrying on in the Registrar's office, in the form set forth in No. 4 of Schedule (B.), and to give notice thereof in writing to the opposite party. If no such caveat be filed within eight days from the time limited for the appearance to the writ, that at the expiration of such eight days the proceedings are to be revived, and may be carried on without any order for the purpose; and a certificate of the Registrar that no caveat has been filed within the time limited, is to be a sufficient authority for the Master to proceed. But if any such caveat be filed, the proceedings are not to be revived or carried on without an order to be obtained on motion, of which due notice is to be given.

XXIV. Where any further or supplemental relief is sought, and such supplemental relief is such as is provided for in any of the cases enumerated under order I., a supplemental claim may be filed in such of the forms set forth in Schedule (A.) as is applicable to the case.

XXV. If such supplemental relief is not such as is provided for by order XXIV., a supplemental claim may be filed, stating shortly the nature of the plaintiff's case, and the supplemental relief claimed, but the leave of the Court is to be obtained, previously to the filing thereof upon an *ex parte* application for the purpose, in a manner specified in order VI.

XXVI. A writ of summons may be sued out, and other proceedings may be taken, upon a supplemental claim, in like manner as upon an original claim.

XXVII. Guardians ad litem to defend, may be appointed for infants or persons of weak or unsound mind, against whom any writ of summons may have issued under these orders, in like manner as guardians ad litem to answer and defend are now appointed in suits on bills filed.

XXVIII. Any order or proceeding made, or purporting to be made, in pursuance of these orders, may be discharged, varied, or set aside on motion, and any order for accelerating proceedings may be made by consent.

XXIX. If any of the cases enumerated in order I., involve or are attended by such special circumstances, affecting either the estate or the personal conduct of the defendant, as to require special relief, the plaintiff is at liberty to seek his relief by bill, as if these orders had not been made.

XXX. If at any time after these orders come into operation any suit for any of the purposes to which the forms set forth in Schedule (A.) are applicable, shall be commenced by bill, and prosecuted to a hearing in the usual course, and upon the hearing it shall appear to the Court that an order to the effect of the decree then made, or an order equally beneficial to the plaintiff might have been obtained upon a proceeding by summons in the manner authorised by these orders, the Court may order that the increased costs which have been occasioned by the proceeding by bill, beyond the amount of costs which would have been sustained in the proceeding by summons, shall be borne and paid by the plaintiff.

**XXXI.** In these orders and schedules the following words have the several meanings hereby assigned to them, over and above their several ordinary meanings, unless there be something in the subject or context repugnant to such construction viz,

1st. Words importing the singular number include the plural number, and words importing the plural number include the singular number.

2nd. Words importing the singular masculine gender include females.

3rd. The word "affidavit" includes "affirmation" and "declaration on honour."

4th. The word "person" or "party" includes "a body politic or corporate."

5th. The word "legacy" includes "an annuity," and "a specific as well as a pecuniary legacy."

6th. The word "legatee" includes "a person interested in a legacy."

7th. The expression "residuary legatee" includes "a person interested in the residue."

**XXXII.** When a party shows cause on a claim being filed, and it appears to the Court that questions of fact or mixed questions of law and fact arise between the parties, the Court will proceed to settle issues without a reference; and if necessary to direct interrogations to be exhibited in the subject matter of the claim or counter claim, and will give the necessary directions for trial as in the case of an issue directed by the High Court of Chancery.

**XXXIII.** Claims may be amended at the trial under the rule applicable to issues at common law, and before trial like bills in equity.

#### PROCEEDINGS BEFORE THE MASTER.

**XXXIV.** Every decree or order of reference directed to the Master is to be brought into his office within eight days after the same shall have been passed and entered, and in default thereof any other party to the cause or matter is to be at liberty to bring in the same, and such party shall have the carriage of the proceedings under such decree or order unless the Master shall otherwise specially direct.

**XXXV.** If upon the warrant taken out for considering the decree or order of reference, or at any time during the reference, it shall appear to the Master, with respect to the whole or any portion of the proceedings that the interests of the parties can be classified, he is to be at liberty to require the persons constituting each, or any class to be represented by the same Solicitor; add if the parties constituting such class cannot agree upon the Solicitor to represent them, the Master is to be at liberty to nominate such Solicitor for the purpose of the proceedings before him; and if any of the parties constituting such class, shall decline to authorize the Solicitor so nominated to act for him, and shall insist upon being represented by a different Solicitor, such party shall personally pay the costs of his own Solicitor and of relating to the proceedings before the Master with respect

to which such nomination shall have been made, and all such further costs as shall be occasioned to any of the parties by his being represented by a different Solicitor from the Solicitor to be nominated.

XXXVI. The duration of warrants, to proceed upon any reference before the Master, is not to be limited to an hour, or any other period of time, and the proceedings upon any warrant are, as far as possible, to be continued consecutively from hour to hour, and from day to day, until the same shall be completed, but not so as to cause unreasonable delay in other causes or matters depending before the Master; and the Master shall therefore be at liberty to adjourn the further hearing of any matter or thing before him to such future day as he shall think fit; and on every such adjournment the party shall be obliged to attend without a further warrant, unless the Master shall otherwise direct.

XXXVII. The Master's power to proceed *ex parte*, in case of the non-attendance of any party on any warrant, shall extend to the case of his non-attendance upon any adjournment of any warrant, and in case of neglect or refusal to pay such costs the party to whom they are directed to be paid shall be entitled to sue out a subpoena for the same.

XXXVIII. The Master shall have power to award costs, and to fix the sum to be paid for such costs, in case of non-attendance of any party upon any warrant and such power shall extend to the case of his non-attendance upon any adjournment of any warrant to a fixed time.

XXXIX. In all cases where a proceeding has been unduly delayed, by reason of the neglect of any party or his Solicitor, the Master shall in the first report which he shall make on the subject matter in respect of which such proceeding has been unduly delayed, state specially to the Court the circumstance of such delay, in order that the Court may, if it shall so think fit, in addition to and notwithstanding any costs which the Master may have certified to be paid in the cause of the proceedings before him, make such further order in respect thereof as justice shall require.

XL. If it shall appear to the Master that any state of facts, affidavit or other proceeding before him, contains statements which are impertinent, or of unnecessary length, he shall be at liberty (without any application made to him for the purpose) to disallow such matter, distinguishing by his initials in the margin the parts so disallowed: and he shall cause a memorandum of his having disallowed such impertinent matter to be endorsed on the office copies of the draft of his report, as to the particular enquiry on which such state of facts, affidavit, or other proceeding shall have been used before him; and in the taxation of costs, no costs shall be allowed to the parties by, or on whose behalf such state of facts, affidavit or other proceeding was brought into the Master's office, for, or in respect of the matter so disallowed, and the taxing officer shall allow to the other parties to the suit or matter, all such costs as have

been incurred by, or occasioned to them by reason of the matter so disallowed ; and such costs shall be paid by the party on whose behalf such state of facts, affidavit, or other proceeding was so brought in.

XLI. In all proceedings before the Master, where he is attended by Counsel, the allowances on the taxation of costs in respect of the fees to such Counsel, are to be regulated upon the same principles as if the proceedings were before the Court.

XLII. The costs of procuring the attendance of Counsel before the Master are to be allowed in the taxation of costs as between party and party, in all cases in which the Master shall certify such attendance to be proper, and in no other case.

XLIII. All matters which are to be heard by the Master shall be entered by him in one or more list or lists, in regular order, except such matters, if any, as the Master shall direct to be taken at particular times, and the Master shall proceed to hear and dispose of the matter in such list or lists, in the order in which they stand therein ; but this is to be subject to special directions by the Court or the Master in any matters requiring immediate despatch.

XLIV. If any proceeding before the Master, in any cause or matter, in any list, fails by reason of the non-attendance of any party when the same shall be called on in its turn, (from whatever cause such non-attendance may arise) and the Master does not think it expedient to proceed *ex parte*, the cause or matter shall if he think fit, be peremptorily struck out of the list, and shall on no account whatever be heard or entertained by the Master until the same be again set down in the list in regular course, by taking out a fresh warrant for that purpose.

XLV. All proceedings before the Master shall be commenced and proceeded in, not by state of facts and proposal, but orally or in such way, as the Master shall direct, to be supported if need be by evidence, provided nevertheless, that where, owing to the nature of the subject, the Master shall deem it expedient to direct the parties before him to proceed by a state of facts in writing he shall give direction to such effect, and enter the reasons for so doing in his minute book ; but, subject to the above rule, the arrangement and regulation of the cause of proceedings under each reference are to be wholly subject to the control and direction of the Master ; and the Master is to proceed with the reference made to him as speedily as the nature thereof and the business of the office will allow.

XLVI. In all cases of disputed fact, the Master where it is practicable, shall take the evidence *vivâ voce*, but bonds, deeds, and notes, and other securities, and also small matters of formal proof may be proved by affidavit as heretofore.

XLVII. In cases where the Master requires to examine witnesses *vivâ voce*,

the subpoena for their attendance (which may contain six names) shall be issued from the Registrar's office, and Rules 136, 137 of 18th May 1843 are hereby repealed.

XLVIII. In order to resolve any question of law or fact that may arise between any of the parties before him, the Master may direct such parties as he shall in that behalf appoint to proceed to try in the Supreme Court any issues of fact or any mixed questions of law and fact proper in the opinion of the Master to be determined by the Court, and he shall settle such issues, and give such directions as he shall think right, or expedient with reference thereto, and such issues shall be accordingly tried, provided always that it shall be competent to the parties at or before the trial to move that such issues shall be otherwise moulded.

XLIX. No orders, reports, or certificates of the Master shall require confirmation, except any such special report as herein after mentioned, and all orders unappealed against for the term of fourteen days shall be enforced by the same process as orders of the Court.

L. The Master if he thinks fit, shall make a special report concerning any matter or thing arising in or about the matter referred to him, in order that the opinion of the Court may be taken therein or with respect thereto, and such special report shall be brought before the Court by such parties as the Master shall direct by a motion or notice that such special report may be confirmed, discharged, or varied by order of the Court, or that any directions may be given thereon; and on the hearing of such motion the same shall be confirmed, discharged or varied as the Court shall deem just, or such directions shall be given as shall appear to be necessary or expedient in that behalf.

LI. Where any order, direction, report or other proceeding in the Master's office is objected to, it shall not be necessary to file objections or exceptions in the Master's office, but the party objecting shall serve notice of motion by way of appeal on the parties respectively in whose favor, or at whose instance the order or proceedings appealed from was made; and upon the hearing of such appeal the proceedings which shall have taken place before the Master shall be produced in Court, and no further evidence shall without express leave of the Court be used, except such proceedings; Provided always that except on special leave of the Court or a Judge to be obtained on motion *ex parte*, or on notice if the Court or Judge shall so direct, no such appeal shall be brought after the expiration of fourteen days after the order, direction, report or other proceeding, complained of shall have been made or taken place by or before the Master, or after service of the same, in case the party complaining shall not have been present.

LII. Parties desiring to inspect documents deposited in the Master's office shall take out a warrant to show cause why the documents should not be open for inspection during the period to be mentioned in the warrant, and the Master at the hearing shall fix the number of days according to the amount of inquiry he deems necessary, during which the books shall be open to inspection, and no other warrant shall be opened for such inspection.

(No. I.)

### FORM OF WRIT OF SUMMONS ON CLAIM.

VICTORIA, by the Grace of God of the United kingdom of Great Britain and Ireland, Queen, Defender of the Faith, to C. D. greeting. Whereas A. B. hath caused to be filed with the sworn Clerk of our Supreme Court of Judicature at Bombay, a claim as follows (claim to be set forth verbatim) therefore we command you (and every of you, when there is more than one defendant,) that within (A)——days after the service of this writ upon you, exclusive of the day of such service, laying all excuses and other matters aside, you do cause an appearance to this writ to be entered for you in our said Court; and further that on the (B) days after the service of this writ, or on the motion day then next following, you do personally, or by your counsel, appear in our said Court, at eleven of the clock in the forenoon, and then shew cause if you can, why the said A. B., should not have such relief against you as is claimed by the said claim, or why such order as shall be just, with reference to the claim, should not be made; and hereof fail not at your peril. Witness Sir ERSKINE PERRY, Knight, Chief Justice at Bombay aforesaid, the                      day of                      and in the year of our reign.

[THE FOLLOWING MEMORANDUM TO BE PLACED AT THE FOOT.]

Appearance to be entered at the office of the Equity Registrar in the said Supreme Court; and if you neglect to enter appearance, and either personally or by your counsel, to appear in the said Supreme Court at the place and on the day and hour abovementioned, you will be subject to such order as the Court may think fit to make against you in your absence, for payment or satisfaction of the said claim, or as the nature and circumstances of the case may require.

(No. 2.)

## INSOLVENT COURT.

THE RULES AND ORDERS OF THE INSOLVENT COURT, UNDER 11TH VICT., CAP. 21.

1. The Court will sit for the despatch of business on the first and third Mondays in every month.
2. In all cases which require the immediate attention of the Court, application may be made before the Supreme Court, or a Judge in Chambers, notice thereof being previously given to the Clerk of the Insolvent Court.
3. All petitions by parties in custody praying for the benefit of the Act, which are presented more than twenty-one days after the actual custody of the party applying, will be dismissed at the hearing, unless special cause is shewn for such delay.
4. All summonses, precepts, rules, orders, and other mandatory process, shall run and be in the name of our Sovereign Lady the Queen, and shall be sealed with the Seal of this Hon'ble Court, and shall have and bear the attestation of the Chief Justice of the Supreme Court of Judicature, or, in the vacancy of the office of the Senior of the Puisne Justices, and shall be prepared and made out, signed and sealed, by the Clerk of the Court.
5. On the filing of every petition of any Insolvent for the benefit of the Act, he shall lodge in the office of the official Assignee all books, papers, writings, accounts, and vouchers, relating to his estate and effects, with a list thereof signed by himself, and also a statement of his moveable and immoveable estate; and the Official Assignee shall thereupon send an appraiser, who shall immediately make an inventory thereof, and appraise the moveable and immoveable estate in the possession of the Insolvent: and on the production of a certificate by the Official Assignee, certifying the same, the Clerk of the Court shall draw up an order, under which all the property of the petitioner, of every description, shall vest in the official Assignee. The Clerk of the Court shall also give notice of the filing of such petition, and of every such vesting order, in the first Government Gazette thereafter.
6. On the filing of any petition by a creditor praying for an adjudication of insolvency under the Act against any person or persons, the Clerk of the Court shall forthwith cause the like notice to be given, and shall therein name a day for the hearing of the matters of the petition.
7. The names, descriptions, and late and present residences, of all persons who petition the Court, or against whom any petition shall be presented under this Act, shall be posted conspicuously on the doors of the Common Gaol, of the

Court House, and of the Offices of the Clerk of the Court and the Official Assignee, but no question whether this rule has been duly complied with shall be allowed at the hearing.

8. When any petition by an Insolvent shall be filed as aforesaid, the party presenting the same shall at the same time, or within thirty days after, file a Schedule as required by the Act, and such Schedule, in addition to the form required by the Act, shall contain a column or columns shewing the interest due on all amounts bearing interest, and shall also contain a special balance sheet of his or her receipts and expenditures, from the date of the earliest debt in his schedule, up to the time of signing his petition, including all property of every kind, with the description of the same which he may have had at any time during that period, together with the time when the persons to whom, and the consideration for which, any part thereof shall have been disposed of or parted with by him; and likewise a General Balance Sheet exhibiting the state of his accounts at the time of his filing his or her Schedule; and the petitioner shall also state in the said General Balance Sheet, the cause of his or her present insolvency, and the amount of debts, if any, due by him or her under any prior insolvency; and every schedule shall contain the names of any witnesses who can prove the claims of the said Insolvent, and any debts that may be included in the said Schedule as due, and owing or claimed by the said Insolvent,—and the said several documents, accounts, and the statements shall be engrossed and presented to the Court on printed forms approved of by the Court, and hereto annexed, marked respectively G., H., I., and K.

9. If any Insolvent shall require further time for filing such Schedule, he shall be at liberty to apply for such time as he may require, either by petition or motion, on an affidavit setting forth the facts, and stating that such time is required to enable him to file his Schedule, and that such application is not made for the purpose of unnecessary delay; and all such applications shall be made before the expiration of the thirty days hereinbefore allowed for filing such Schedule, and every Insolvent, not having filed his Schedule within such thirty days, or such further time as may have been allowed him, as aforesaid, shall be brought up on the first Court day thereafter, when his petition shall be dismissed, unless it appear there is good cause for allowing further time, or that it will be for the benefit of Creditors to retain it.

10. In every case where the Schedule shall not be filed within thirty days after the filing of the petition by a party not in custody, such petition shall be dismissed.

11. On the filing of every Schedule, the Clerk of the Court shall give notice thereof in the two next succeeding 'Government Gazettes' in the English and one Native language, and shall therein name a day for the hearing of the Insolvent's petition, such day to be fixed so as to allow sufficient time to all creditors of the said Insolvent to oppose his discharge; and, in addition to such advertisement in the Government Gazette, the Clerk of the Court shall immediately on the

filing of every Schedule, give notice to any creditor of such Insolvent at whose suit he may be detained in custody, or to the attorney of such creditor, and also to any creditor, in such schedule mentioned has shall appear to be resident without the Presidency of Bombay; and in cases of notices to be given to such last creditors, the delivery of a letter containing such notice to the Post Master, duly addressed and in due time, shall be proof of such notice; and the publishing the said notice in manner above mentioned, in the Government Gazette, shall be deemed sufficient notice of the filing of the Schedule, and the day appointed for hearing, to all creditors resident at the Presidency of Bombay.

12. Whenever the insolvent is out of custody, the day appointed for hearing the matters of his petition shall not be less than thirty days, from the date of the order appointing the hearing, and the Clerk of the Court shall cause a notice in writing to be served on all the creditors residing in the island of Bombay, either personally or by leaving the notices at their houses or places of business, seven days at least before the day appointed for hearing; and it shall be incumbent upon every such Insolvent to point out the parties named as creditors in his Schedule; and a list of the names of the creditors, with the date and place of service, shall be filed in the office of the Clerk.

13. Upon the hearing of any petition, as aforesaid, the Insolvent and any creditors shall be heard, either in person or by agent, in support of or in opposition to the petition, before the Court, notice of such opposition having been first given to the Clerk of the Court; but no final order for discharge of any insolvent, shall be made before the Court day next following the day of hearing, or such latter day as the Court shall appoint, when any creditor shall be allowed to oppose the discharge of the Insolvent in like manner as at the original hearing.

14. No Insolvent who has had his petition dismissed shall be allowed to file a fresh petition without a special application to the Court, on affidavit, stating the cause of dismissal, and the ground of such new application, which affidavit shall be served on the opposing creditors four clear days before the application to the Court is made.

15. The Clerk of the Court and the Official Assignee, shall, on the reasonable request of any Insolvent or Creditor, permit him to inspect and examine every petition, schedule, order of adjudication, and all other orders and proceedings made and had relative to such Insolvent; and all Books, papers, and writings filed or deposited in such matter; and shall provide any such Insolvent or Creditor requiring the same with a copy or copies of such petition, schedule, order of adjudication, and all other orders and proceedings; and of all books, papers, and writings, and other proceedings, so filed or deposited as aforesaid, or such part or parts thereof, as shall be required, receiving such fee as is hereinafter mentioned for so providing the same.

16. Whenever, under the requirements of the 59th, 60th, and 82nd Sections of the Act II Vict. cap. 21, notices are to be inserted in the Government Gazette of the presidency, the same shall be inserted therein by the Clerk of the Court with as little delay as possible after the same become necessary, in the English and one Native language; and forthwith thereupon the Clerk shall give notice thereof to the Chief Secretary of the Bombay Government, and the copies of such schedule as are by the 85th Section of the said Act required to be transmitted to the said Chief Secretary, shall be transmitted to him by the said Clerk as soon as possible after the necessity for their being transmitted shall appear.

17. Every person who shall make claim upon the estate of any Insolvent, shall file the same with the Clerk of the Court and such claim shall be verified by affidavit or solemn affirmation, if the creditor be a person whose solemn affirmation, may by law be received in lieu of an affidavit; and no creditor shall be heard in the matter of such insolvency until he shall have so filed such claim and affidavit, or solemn affirmation as aforesaid.

18. The production of any Government Gazette, containing any notice or advertisement in the matter of any insolvency, shall be taken and considered as proof of the publication thereof by the Court, and all notices which by the said Act, or by the rules of the Court, do not require publication, shall be proved by affidavit of the due service thereof, unless the Court shall think fit to examine the witnesses as to the service of such notices *viva voce*. Provided always, that the appearance at the hearing of any petition of any creditor or other person entitled to notice, shall be deemed to cure any defect or irregularity in the service thereof, unless the Court shall otherwise direct.

19. In case of second or subsequent insolvencies, where it shall be necessary to mention creditors, debts, and liabilities, under a former insolvency, it shall not be necessary to do so otherwise than by stating the total amount of debts and liabilities, and total number of creditors under the former insolvencies, and referring for particulars to the Schedules filed there under.

20. The Court, in its discretion, will award costs in all cases where the ends of justice require it, either out of the estate, or out of the private monies of any person who is party to the proceedings before the Court, and will direct to what amount, how, in what manner and time, and by whom, the same shall be paid, recovered, or retained.

21. The Official Assignee, previous to his admission, shall enter into a bond, with sufficient securities, to the Master, in the penalty of Bombay rupees twenty thousand, conditioned for the due execution of his office.

22. An account shall be opened at the Bank of Bombay, entitled, "The account of the Official Assignee of the Court for the relief of Insolvent Debtors at Bombay," and all monies, and the rents and profits of all immoveable estate, and

the produce thereof, and of all moveable estate, and effects, and the proceeds of sale of all estate and effects of Insolvents, after deducting such sum as is required by the Official Assignee for immediate payments of costs, charge, &c., shall, within seven days after the receipt thereof by the Official Assignee, or Special Assignee, if one shall be appointed, be paid or transferred to, and kept in deposit in the said Bank, to the credit of the account aforesaid, subject to the order of the Court; but whenever a sum exceeding Rupees 500 shall stand to the credit of any one estate, the Official Assignee shall give notice thereof to the sitting Judge, and unless it shall appear that a dividend is about to be immediately declared, he shall obtain a Judge's order to invest the same in a Government Note, which note shall be deposited with the Sub-Treasurer, to the credit of such estate.

23. When the Court shall order any sum of money to be paid out of Court, to be applied for the purposes of this Act, the same shall be drawn from the deposit account in the said Bank by cheque, under the hand of the Official Assignee, and such cheque shall in all cases be countersigned by the examiner of the Insolvent Court, who shall countersign the same, on the production of the order directing the payment thereof.

24. The Official Assignee may apply by motion or petition to the Court in a summary way, for the authority of the Court in all cases relative to the administration of the estate of any Insolvent or Insolvents, where such authority is necessary under the terms of the Act.

25. The Official Assignee shall keep accurate accounts of the property, debts and credits, of every Insolvent, and of all monies received and payments made by such Assignee, which accounts any creditor shall be at liberty to inspect, at all reasonable times, in the hands of the said Assignee, but without removing the same.

26. In every case where an Insolvent, being declared entitled to the benefit of the Act, shall be in the receipt of any fixed pay or salary, a certain portion of which is ordered to be set apart for the benefit of his creditors, the order for such deduction shall extend to any future salary or pay the Insolvent may receive.

27. The Insolvent, or any creditor of such Insolvent, shall be at liberty at all times to apply to the Court, by petition or motion, for such rule, order, or appointment, to be made in the management of the estate of such Insolvent, in any matter relating to any such insolvency, as may appear to them to be necessary; Provided always, that if any petition or motion presented or made on behalf of any such creditor shall appear to the Court to be frivolous, vexatious, or unnecessary, such creditor shall be adjudged to pay to the Official Assignee, on account of the estate of such Insolvent, all such reasonable costs as shall have been incurred in consequence of such application.

28. Whenever it shall appear to the Official Assignee that a dividend may be

beneficially made amongst the creditors, he shall apprise the Court, or if it shall appear to any creditor or Insolvent, such party shall be at liberty to state the same to the Court by motion, or petition, and the Court, if it shall be of opinion that a dividend may be beneficially made, will appoint a day for the further hearing of such application, and direct that notice shall be given twice in the Government Gazette in the English and one Native language, of such further hearing, for the purpose of making a dividend, and of the day fixed for the same, such day not being less than eight days from the second publication of such notice; and upon such further hearing, the Insolvent, or the Assignee, and any creditor of such Insolvent or Insolvents, may attend the Court, and be heard by himself or Counsel, and the Assignee shall produce for the inspection of the Court the several Statements required by the 41st Section of the Act of 11 Vict., cap. 21, and all objections to the Schedule of the Insolvent, and to the accounts or conduct of the Assignee, and any claims of creditors which shall not have been previously determined, shall be then heard and determined, either by the Court immediately, or upon a reference to the Examiner; and the Court will either declare a dividend, and direct the same to be paid by the Assignee, or will postpone such declaration and direction until a further hearing, and will make such order in the matter as to the Court shall seem fit.

29. The Official Assignee shall be entitled to retain, as a remuneration for the duties to be performed by him, a percentage of five per cent on all sums distributed into and among the creditors of all Insolvent's estates.

30. The Official Assignee shall publish half yearly in the Government Gazette, viz. in the Gazette first published after the 31st day of January and the 31st day of July in every year, an account of each estate not then wound up, and fully distributed,—that is to say, of the whole receipts, of the whole disbursements, (distinguishing dividends from other payments), of the balance remaining, of the mode in and securities on, which such balance is actually invested, and of the probable produce of assets not yet realized; and at the foot thereof shall specify the amount of the remuneration received by him, or them, during the half year.

31. The Official Assignee shall, on the expiration of six calendar months from the declaration of a dividend, file in Court an account upon oath of every dividend then in his hands unclaimed, specifying the names of all creditors to whom such unclaimed dividends are due, as well as the amount of the debt due to each such creditor, and shall publish the same in such numbers of the "Gazette" as shall be first and second successively printed next after such six months; and if any such dividend shall have remained unclaimed for the space of twelve calendar months next following such declaration, every such unclaimed dividend shall be invested in Government securities, which securities shall be deposited with the sub-treasurer, to the credit of the matter of the Insolvent estate in which it shall have been declared, accompanied with a memorandum or account specifying each pre-

ditor's name, to whom such unclaimed dividend belongs: provided always, that out of the amount of such unclaimed dividend accounts, so filed and published as aforesaid, the Assignee or Assignees shall deduct the cost and charges of preparing and advertising such account, and that out of the amount so to be paid in and credited he or they shall further deduct the cost and charges of preparing such memorandum or subsequent account.

32. The Examiner appointed by the Court shall make due inquiry into all matters of account, and into the truth of the Schedule of any Insolvent, and into any other matter of fact which shall be referred to him by the Court; and shall examine such witness as shall be necessary touching such matters on oath, and shall report thereon to the Court; and shall have the like powers of administering oaths and taking affidavits as are possessed by Commissioners for taking affidavits in the Supreme Court of Bombay, or by Masters in Chancery in England; and such Insolvent, or the Creditor of such Insolvent, or the Assignee of the estate and effects of such Insolvent, shall be at liberty to attend the Examiner, either by himself, or counsel, or attorney, and to put all such questions to witnesses as shall be proper and relevant to the matter in issue, and shall be at liberty to apply to the Court for such further directions relating to such examinations as they shall deem expedient and necessary; Provided always, that if any such application shall appear to the Court to be frivolous, vexatious or unnecessary, the creditor making such application shall be adjudged to pay to the Official Assignee on account of the estate of such Insolvent or Insolvents such costs as shall appear to be just and reasonable, and as shall have been incurred in consequence of such application. Every affidavit in any matter relating to any Insolvency shall be taken before the Examiner.

33. All reports made by the Examiner shall be filed with the Clerk of the Court at least three days before the day of hearing the petition to which the report refers.

34. The Prothonotary of the Supreme Court shall, upon the production of an order made by the Court pursuant to the 86th Sec. of Act 11 Vict. Cap. 21, forthwith enter up judgment for the amount against the Insolvent therein named, that the Court may be enabled at any future time, if it shall see fit, to issue execution on the same against the future assets of the Insolvent.

35. All bills of the costs shall be taxed by the taxing officer of the Supreme Court, and the fees authorized at the foot of these Rules, under the head "Table of Fees to be taken by Attornies and Officers of the Court," shall be taken, and no others.

*Referred to by the Rules of Court.*

**The Court requires—**

That if before those periods, but since the commencement of his present embarrassments, any property has gone away from him by sale, assignment, mortgagee, distress, execution, or any means other than the ordinary course of trade, the account shall commence so as to include all such transactions.

That the specific appropriation of each sum received shall be separately shewn, where the case admits of it.

That the date of each item in the account shall be given by stating the day, as well as the year, when the same can be ascertained.

That money and other property which was in possession of Insolvent, or his family, or of any other person for his or their benefit, at the time when he was last into custody, shall in all cases be made a specific item or items in the account.

**CR.**

Specification of all property, real and personal, in which I have had an interest at any time since the day of 18, to the time of subscribing this my Schedule, shewing when, how, to whom, and for what consideration, any portion of such property has been parted with. Account of all such property, showing what part thereof is now available for the benefit of my Creditors, and, as to such part as has been parted with, particular application of the proceeds of the same.

## Acts of the Legislative Council for 1851, RELATING TO INDIA AND THE BOMBAY PRESIDENCY.

*Fort William, Home Department, Legislative, the 25th April 1851.*

The following Act is passed by the Hon'ble the President of the Council of India in Council, on the 25th of April 1851, with the assent of the Most Noble the Governor General of India, which has been read and recorded.

Ordered, that the Act be promulgated for general information.

ACT No. IV. OF 1851.

*An Act for the appointment of Uncovenanted Deputy Magistrates, and for defining the duties of Deputy and Assistant Magistrates of Bombay.*

Whereas the administration of justice will be improved by extending the provisions of Act XV. 1843, to the Presidency of Bombay, and by more exactly defining the powers of Assistant Magistrates, It is enacted as follows:—

I. So much of Act XIV. 1835 as empowers the Governor of Bombay in Council to confer on any Assistant Magistrate, by a special order, any of the powers of a Magistrate, is repealed.

II. The Governor of Bombay in Council may appoint to any Zillah or District one or more uncovenanted Deputy Magistrates, with the powers hereinafter specified.

III. Every person appointed to the office of Deputy Magistrate under this Act shall, before entering upon the execution of the duties of his office, make and subscribe before one of the Courts of Record established in the said Presidency.

(or in the Zillah to which he is appointed,) a declaration to the same effect as the oath required by law to be taken by Magistrates, which declaration shall be deemed to be made under Act XXI. 1837.

IV. A Deputy Magistrate appointed under this Act, or an Assistant Magistrate, may be employed as a judicial officer, or as an officer of Police, or both, at the discretion of the Governor of Bombay in Council. As a judicial officer he shall exercise the powers of a covenanted Assistant, under Section III. Regulation XII. 1827, Regulation IV. 1830, Regulation VIII. 1831, of the Bombay Code, and Act XXV. 1839, or the full powers of a Magistrate, when specially authorized by the Governor of Bombay in Council; and in such cases he shall be subject to such authority in regard to appeals from his decisions and judicial orders as is provided under the abovementioned Regulations for the decisions and orders of a covenanted Assistant or of a Magistrate respectively. As an officer of Police, he shall be in all respects subordinate to the Magistrate under whom he is placed; he shall exercise such executive powers only as the Governor of Bombay in Council, or the Magistrate, with the sanction of the Governor of Bombay in Council, commits to him, and shall obey all lawful orders so issued, and perform all duties so assigned to him by the said Magistrate, who shall be at all times competent, subject to such orders as he receives from time to time from the Governor of Bombay in Council, to extend, limit, or resume the executive powers committed to such Assistant or Deputy.

V. Nothing in this Act contained shall be held to disqualify any uncovenanted Officer, in the Revenue and Judicial Departments, from holding at the same time with any other office, the office of Deputy Magistrate.

VI. A Deputy Magistrate appointed under this Act shall not be dismissed from office for misconduct, without the sanction of the Governor of Bombay in Council. Whenever there is reason to believe that a Deputy Magistrate is disqualified by neglect, incapacity, corruption, or other misbehaviour, for continuance in office, a report shall be made by the Magistrate for the consideration and orders of the Governor of Bombay in Council, who shall be competent to suspend such Deputy Magistrate, and order a further inquiry into his behaviour, or order his immediate dismissal, as appears just and proper.

#### ACT No. VI. OF 1851.

*Respecting certain Land in Bombay called Foras Lands.*

[Passed 6th June 1851.]

Whereas the East India Company are legally entitled to the freehold reversion of the several lands heretofore paying a render called Foras, the outline whereof is delineated in a plan deposited in the office of the Secretary to the Government of Bombay, and authenticated by the signatures of the Right Honorable the Governor and Members of the Council of Bombay, and numbered 1, subject to certain tenancies therein at will, or from year to year; and whereas it is considered expedient as of grace and favor that the rights of the said East India Company in all of the lands included in the said plan, save those marked upon the said plan as to be taken, or as having already been taken for public roads tanks, and other public purposes, the outline of which lands so to be or having been taken is also delineated in another plan numbered 2, also deposited and authenticated as aforesaid, should be extinguished save as hereinafter mentioned. It is enacted as follows:

I. The lands comprised in the said plan No. 2, shall from and after the first day of July, in the year 1851, be vested in the said Company free from all rights therein of all other persons, for the purpose of constructing public roads, tanks, and other public purposes.

II. From and after the said first day of July, the rights of the said Company in all of the said lands mentioned in the said plan No. 1, except those mentioned in the said plan No. 2, shall be extinguished in favor of the persons who shall then hold the same respectively as the immediate rent-payers to the said Company, saving the rents now severally payable in respect of such lands, which shall continue payable, and recoverable by distress or by any means by which land revenue in Bombay is or shall be recoverable, under any Act or Regulation, and saving also all rights of forfeiture and escheat, in respect of want of heirs or representatives, or of felonies committed, or otherwise in respect of attainder.

III. As between such rent-payers and other persons, such extinguishment shall enure for the benefit of the persons beneficially entitled to the lands thereby affected, and not of any mere Trustee or other person in whom the legal estate only is or may be vested.

IV. Nothing herein contained shall exempt such lands from being liable to any future general taxes on land in Bombay, or from being subject to Act XXVIII. 1839 and Act XVII. 1850.

V. After the said first day of July as soon as shall be convenient, the Governor of Bombay in Council shall appoint fit persons, not exceeding five in number, to be Commissioners under this Act, for the purposes hereinafter mentioned (with such salaries or remuneration as to the said Governor in Council shall seem fit); any three or four of whom met together, (two being officers of Government), may do any act which by this Act the Commissioners are empowered to do; and in case of the death, resignation, removal, or absence of any such Commissioner, the Governor in Council shall appoint another in his room.

VI. A duplicate of the said plans, authenticated by one of the Secretaries to the Government of Bombay, shall be lodged with the said Commissioners, and shall form a record of their office.

VII. From and after the said first day of July, the said Commissioners shall proceed to estimate the value of the several portions of land and the improvements thereon comprised in the said plan No. 2, and of the expences which will be incurred in executing this Act, and to assess the amount of such estimate in such way and in such proportions as to them shall seem right, to and upon the lands mentioned in the said plan No. 1, and the fund to be raised by such assessment shall be denominated the "Foras Land Assessment Fund"; and for the purpose of framing such estimate and making such assessment the said Commissioners may summon as witnesses any persons whomsoever, whether interested or not in the said lands, and examine them on oath or otherwise, as they may see fit, or proceed upon a mere estimate, according to the best of their judgment, without evidence.

VIII. Any person summoned as a witness, and refusing, or without lawful excuse neglecting to appear and give evidence according to the terms of the summons, may, on proof thereof, be fined by any Magistrate of Police for every default a sum not exceeding ten Rupees, to be paid to the said Commissioners for

the said Foras Land Assessment Fund, and may be committed to prison in default of payment.

IX. The said estimate and assessment, when completed, shall be signed by the said Commissioners, and form a record of their office.

X. After the completion of the said estimate, the said Commissioners shall make out and sign certificates, which shall, by numbers, or in such other way as to the said Commissioners may seem more convenient, refer to the several portions of land mentioned in the said plan No. 2, and shall shew the estimated value of the land and improvements thereon to which the same refer, which certificate shall give to the holders thereof a right to demand payment of the sums for which the same are in the body of the same expressed to be granted, from and out of the said "Foras Land Assessment Fund," after the said Commissioners shall, by public advertisement in the Bombay Government Gazette, have advertised that they are ready to redeem the said certificates.

XI. The persons who shall have been the rent-payers to the said Company on the said first day of July of any land mentioned in the said plan No. 2, or their representatives or assigns, shall be entitled to be the first holders of the certificates relating to the same lands.

XII. When the said certificates shall have been completed, the said Commissioners shall distribute the certificates to the persons entitled thereto: or, if it shall appear to them doubtful to whom any certificate should be delivered, may deposit it with the Prothonotary of the Supreme Court of Judicature established at Bombay by Royal Charter, which Court may adjudicate upon the right to every certificate so deposited, and may direct how such right shall be tried.

XIII. The delivery to any person by the Commissioners of any certificate shall not confer upon him any right to retain the same as against any person having a better title thereunto, who shall be at liberty to sue for and recover the same, and all benefits thereto belonging, in the said Supreme Court, by such proceeding as the said Court shall direct.

XIV. When the said assessment shall have been completed, the Commissioners shall give notice thereof in the Government Gazette, and after the expiration of three weeks next following the publication of such notice shall proceed to collect the assessments, and, if necessary, to levy them by distress and sale of any goods found on the said lands, or by sale of the lands assessed; and the said Commissioners shall keep accounts of the sums received for assessment, and pay the same from time to time into the Bank of Bombay.

XV. The said Commissioners, subject to the approval of the Governor of Bombay in Council, may employ such Surveyors, Accountants, and Clerks, as to them shall seem fit, and incur such other charges and make such disbursements from the said Foras Land Assessment Fund as may be necessary for executing the provisions of this Act.

XVI. The Commissioners may receive any portion of the assessment from any person, but any receipt granted by them for the same shall not affect the title to any lands in respect whereof the same shall have been paid; and when the said Foras Land Assessment Fund, or such portion thereof as to the said Commissioners shall seem adequate, shall have been recovered, the said Commissioners shall redeem the certificates, on demand by the holders thereof.

**XVII.** When, on the sale of any land or goods for satisfaction of any assessment, more money shall be raised than is required to pay the amount to be levied, the Commissioners shall pay the overplus to such person or persons as shall appear to them to have been entitled to the land or goods sold; or, if they are doubtful to whom they should pay the same, may pay such overplus to the Accountant General of the said Supreme Court; and any persons claiming to be entitled thereto may sue for and recover the same by such proceeding in the said Supreme Court as the said Court shall direct.

**XVIII.** The Commissioners shall not be liable for the amount so paid to any person, in case another person having better title thereunto shall afterwards appear, but the same may be recovered from the party who received the same or his representatives, at the suit of the person entitled thereunto.

**XIX.** The said certificates shall be transferable by endorsement.

**XX.** The said Commissioners, at any time after the said first day of July may grant a warrant to any person or persons to take and deliver to the Officers of the Bombay Government any of the lands mentioned in the said plan No. 2, which warrant shall confer on such person or persons the same powers and rights which the Sheriff has for executing a writ of possession issued by the said Supreme Court.

**XXI.** The said Commissioners, with the consent of the Governor of Bombay in Council, to be signified in writing upon the said plan No. 2, under the hand of one of the Secretaries to the Government of Bombay, at any time before the completion of the assessment, may alter the plan No. 2 lodged with the said Commissioners, and corresponding alterations shall be made in the plan No. 1 lodged with the said Commissioners: and the Governor of Bombay in Council shall thereupon cause the like alterations to be made in the plans deposited in the office of the Secretary to the Government of Bombay; and, if any such alterations shall be so made, the plans so altered shall to all intents and purposes of this Act be considered as the plan referred to by this Act. Provided always, that if any difference shall at any time appear between the plans deposited with the Commissioners and the plan deposited in the office of the Secretary to the Government of Bombay, the latter shall be deemed the original and authentic plans referred to by this Act.

**XXII.** No action at law or other proceeding shall be brought in any Court whatever against any Commissioner under this Act for anything done or omitted to be done by him as a Commissioner thereunder; and a certificate in writing under the hand of one of the Secretaries to the Government of Bombay shall be evidence, that any such act or deed of commission or omission complained of was done by the Commissioners in execution of their powers as such Commissioners under this Act.

**XXIII.** On the close of the business of the said Commission, the records thereof shall become and be made a record of the Bombay Government.

**XXIV.** If at the closing of the said Commission there should appear to be any unappropriated balance of the said Foras Land Assessment Fund, the same shall be paid to the Municipal Fund of Bombay; and if the said Foras Land Assessment Fund should prove insufficient to answer the charges upon it, the deficient amount shall be paid from the said Municipal Fund, upon an order or orders to be signed by the said Commissioners, countersigned by one of the Secretaries to the Government of Bombay.

## ACT No. VII. of 1851.

*To amend the Law of the Bombay Presidency relating to Execution of Decrees.*

[Passed 13th June 1851.]

Whereas it is necessary to amend the law of the Bombay Presidency, relating to execution of Decrees, it is enacted as follows:—

I. Clause 2nd, Section LXI. Regulation IV., and Clause 3rd, Section VII. Regulation XXIX. 1827, of the Bombay Code are repealed.

II. Decrees in Civil Suits, whether original or in appeal, shall be executed by the Court, in which the original Decree was passed, and every application for execution of a Decree shall be made to the Court in which the Decree was originally passed.

## ACT. No. VIII. of 1851.

*An Act for enabling Government to levy Tolls on Public Roads and Bridges.*

[Passed 4th July 1851.]

Whereas it is expedient to enable Government to levy Tolls upon Roads and Bridges, It is enacted as follows :

I. Act II. 1837 and VIII. 1838, are repealed, but not so as to revive any Regulation or Act thereby repealed.

II. The Governor of the Presidency of Fort William in Bengal, the Lieutenant Governor of the North Western Provinces of Bengal, the Governor of the Presidency of Fort St. George in Council, and the Governor of the Presidency of Bombay in Council, may cause such rates of Tolls, not exceeding the rates mentioned in the Schedule annexed to this Act, as they respectively think fit, to be levied upon any road or bridge which has been, or shall hereafter be made or repaired at the expense of the Government; and may place the collection of such Tolls under the management of such persons as may appear to them proper; and all persons employed in the management and collection of such Tolls shall be liable to the same responsibilities, as would belong to them, if employed in the collection of the Land Revenue.

III. In case of non-payment of any such Toll on demand, the Officers appointed to collect the same may seize any of the carriages or animals on which it is chargeable, or any part of their burden of sufficient value to defray the Toll; and, if any Toll remains undischarged for twenty-four hours, with the cost arising from such seizure, the case shall be brought before the Officer appointed to superintend the collection of the said Toll, who may sell the property seized for discharge of the Toll, and all expenses occasioned by such non-payment, seizure, and sale, and cause any balance that may remain to be returned, on demand, to the owner of the property; and the said Officer, on receipt of the property, shall forthwith issue a notice that, at noon of the next day, exclusive of Sunday, or any close holiday, he will sell the property by auction. Provided that if, at any time before the sale has actually begun, the person whose property has been seized shall tender the amount of all the expenses incurred, and of double the Toll payable by him, the said Officer shall forthwith release the property seized.

IV. No Tolls shall be paid for the passage of Troops and Military Stores and Equipages on their march, or of Police Officers on duty, or of any person or property in their custody; but no other exemption from payment of the Tolls levied under this Act shall be allowed.

V. All Police Officers shall be bound to assist the Toll Collectors, when required, in the execution of this Act; and, for that purpose, shall have the same power which they have in the exercise of their common Police duties.

VI. Every person, other than the persons appointed to collect the Tolls under this Act, who shall levy or demand any Toll on any public road or bridge, or for passing through any bazaar situated thereon, and also every person who shall unlawfully and extortionately demand, or take any other, or higher Toll than the lawful Toll, or under colour of this Act seize or sell any property, knowing such seizure or sale to be unlawful, or in any manner unlawfully extort money, or any valuable thing from any person under colour of this Act shall be liable on conviction before a Magistrate, to imprisonment for any term not exceeding six Calendar months, or to fine not exceeding two hundred Rupees, any part of which fine may be awarded by the Magistrate to the person aggrieved: but this remedy shall not be deemed to bar, or affect his right to have redress by suit in the Civil Court of the Zillah.

VII. A Table of the Tolls authorized to be taken at any Toll-gate or Station shall be put up in a conspicuous place near such gate or station legibly written or printed in English words and figures, and also in those of the Vernacular language of the district to which shall be annexed written or printed in like manner, a statement of the penalties for refusing to pay the Tolls and for taking any unlawful toll.

VIII. The Tolls, levied under this Act, shall be deemed public revenue; but the net proceeds thereof shall be applied wholly to the construction, repair and maintenance of roads and bridges, within the Presidency in which they are levied.

## ACT No. IX. OF 1851.

*An Act for the prevention of Gambling in Bombay.*

[*Passed 7th July 1851.*]

Whereas the vice of Gambling has of late years much increased, and many gaming houses have been established within the Town and Island of Bombay, for suppression of which the laws now in force are inadequate, It is enacted as follows :

I. So much of Article II. of Title Fifth of a Rule, Ordinance and Regulation passed by the Governor of Bombay in Council on the 11th day of April 1827, and registered in the Supreme Court of Bombay on the 22nd day of June 1827, as provides that the Court of Petty Sessions shall exercise jurisdiction over common gamblers who shall not give a satisfactory account of any other means of livelihood, is repealed.

II. Every person who, within the Town and Island of Bombay, shall keep a common gaming house, or any room, or other place used for the purposes of a common gaming house, or who shall have the care or management thereof, or shall in any manner conduct the business of any such common gaming house, either as Banker, Shroff, Croupier or otherwise, shall, on conviction before the Court of Petty Sessions, be punishable by fine not exceeding One Thousand Rupees, or, in the discretion of the said Court, may be imprisoned with or without hard labor for any period not exceeding six Calendar months.

III. And, whereas it may be doubted, whether or not certain houses or rooms alleged or reputed to be opened for the use of the subscribers only, or not open to all persons desirous of using the same, are to be deemed common gaming houses, it is declared and enacted that, in default of other evidence proving any house, room, or place to be used as a common gaming house, it shall be enough, in support of the allegation in any information or indictment that any house, room, or place is a common gaming house, to prove that such house, room, or place is kept or used for playing therein at cards, dice, or any unlawful game, and that a bank is kept there by one or more of the players exclusively of the others, or that the chances of any game played therein are not alike favorable to all the players, including, among the players, the banker or other person by whom the game is managed, or against whom the other players stake, play or bet; and every such house, room, or place shall be deemed a common gaming house.

IV. Every person who shall be found in any such common gaming house playing or gaming with cards, dice, counters, money, or other instruments of gaming, or who shall be found there present during such playing or gaming, or for the purpose of gaming, or who shall be found gaming with cards, dice, counters, money, or other instruments of gaming in any street or public place or thoroughfare within the said town and island, whether playing for any money, wager, stake, or otherwise, shall be punishable, on conviction before the Court of Petty Sessions, by fine not exceeding Five Hundred Rupees; or in the discretion of the said Court, may be imprisoned with or without hard labor for any period not exceeding three Calendar months.

V. Any Magistrate of Police, upon information laid before him on oath that there is reason to suspect any house, room, or place within the said town and island to be used as a common gaming house, may, by his warrant, give authority to any Constable of Police in the town and island of Bombay to enter, with such assistance as may be found necessary, by night or by day, and by force if necessary, any such house, room, or other place, and to take into custody all persons whom he finds therein, whether or not then actually gaming; and to seize all instruments of gaming, and all monies and securities for money found therein,

and to search all parts of the house, room, or place which he shall have so entered, when he has reason to believe that any instruments of gaming are concealed; and to search also the persons of those whom he so takes into custody, and to seize and take possession of all cards, dice, counters, and other instruments of gaming which he shall find upon such search.

VI. When any cards, dice, gaming table or cloth, or other instruments of gaming are found in any house, room, or place of which information has been given on oath to a Magistrate of Police, that it is suspected of being used as a common gaming house, or about the person of any of those who are found therein, it shall be evidence, until the contrary is made to appear, that such house, room, or place is used as a common gaming house, and that the persons found therein were there present for the purpose of gaming, although no play was actually seen by the Constable or any of his Assistants.

VII. On conviction of any person for keeping or being present for the purpose of gaming in any common house, all the instruments of gaming found therein shall be destroyed by order of the Court of Petty Sessions, which shall also order all, or any of the securities for money, and other articles seized, not being instruments of gaming, to be sold and converted into money, and the proceeds thereof, with all monies seized therein, to be forfeited, or in its discretion may order any part thereof to be returned to the parties appearing to have been severally thereunto entitled.

VIII. Any Officer of Police may arrest without warrant all persons whom he may see in the act of gaming in any street or public place or thoroughfare in the said town or island, and seize all cards, dice, counters, and instruments of gaming which he finds in their possession, which, on conviction of any of the parties, shall be destroyed by order of the Court.

IX. It shall not be necessary, in order to convict any person of keeping a common gaming house, or of being concerned in the management of any common gaming house or gambling table, to prove that any person found playing at any game was playing for any money, wager, or stake.

X. Any person who shall have been concerned in any unlawful gaming, and who shall be examined as a witness before the said Court of Petty Sessions, on the trial of any person or persons for a breach of any of the provisions of this Act, and who upon such examination shall make true and faithful discovery to the best of his or her knowledge of all things as to which he or she shall be so examined, and who shall thereupon receive from the said Court a certificate in writing to that effect, shall be freed from all prosecutions under this Act for any thing done before that time in respect of such unlawful gaming.

XI. Nothing in the foregoing provisions of this Act contained shall be held to apply to any game of mere skill played at Hotels or Taverns licensed by the Collector of Land Revenue, and the Senior Magistrate of Police under Act XVIII. 1840, or in any place of public resort licensed by the Court of Petty Sessions under Act XIV. 1842.

XII. Every person who shall by any fraud or unlawful device or ill practice in playing at or with cards, dice, or other game, or in bearing a part in the stakes, wagers or adventures, or in betting on the sides or hands, of them that do play or in wagering on the event of any game, sport, pastime, or exercise, win from any other person for himself, or any other or others any sum of money or valuable

thing, shall be deemed guilty of obtaining such money or valuable thing from such other person by a false pretence, with intent to cheat or defraud such person of the same, and being convicted thereof shall be punished accordingly.

XIII. No conviction or other proceeding before the said Court of Petty Sessions under this Act shall be quashed, or set aside or adjudged void or insufficient for want of form, or be removed by Certiorari into Her Majesty's Supreme Court.

XIV. All fines imposed under this Act shall be recovered under Act II. 1839.

XV. The Court of Petty Sessions shall on conviction have power to direct any portion, not exceeding one-fourth of any fine which shall be levied under the provisions of this Act, or any part of the monies or proceeds of articles seized in any common gaming house and ordered to be forfeited, to be paid to an informer, and the balance of such fines and monies or the whole thereof, as the case may be, shall be applied to the use of the Municipal Fund under Act XI. 1845.

#### ACT NO. X. OF 1851.

*To amend Act XX. 1841 for the administration of personal Estate of deceased persons.*  
[Passed 18th July 1851.]

For amendment and extension of the power to grant Certificates of Administration of the personal Estate of deceased persons under Act XX. 1841, It is enacted as follows:

o

I. In the case of disputes among persons, claiming to be jointly entitled to be proprietors of any public Securities of the East India Company, as the representatives of any deceased person, the District or Zillah Judge, whenever sufficient cause shall be shewn to him, and on the request of any such claimant, may grant a Certificate of Administration of the personal Estate of the deceased, so far as concerns the said Securities, according to Act XX. 1841, to such person as shall be from time to time appointed by the Governor of Bengal, and Governors of Madras and Bombay in Council respectively, to act as trustee under this act; and shall specify in such Certificate the several persons appearing to him to be such proprietors, and their several shares; and the said Trustee, by virtue of such Certificate, shall be entitled to receive and give discharges for the interest accruing due on such Securities; and shall account for, and pay the sum, the several persons specified in the Certificate to be thereunto entitled, according to the shares therein set forth; and shall be empowered to act in all other respects concerning the said Securities as agent for such persons; and shall be entitled to the same rate of Commission upon all such transactions as is allowed to the Government Agent for the time being on the like transactions, as agent of the public creditors of the East India Company, by any regulations from time to time made by the Governor General of India in Council: Provided nevertheless that the right of any other person to recover the whole or any part of the monies so paid, by regular suit against all or any of the persons to whom the same have been paid, shall not be affected by this act.

II. If any such disputes, among persons claiming to be proprietors of public Securities of the East India Company, are not ended within two years from the date of the Certificate of Administration granted by any District or Zillah Judge, the said Trustee may apportion the principal sum of the said Securities rateably among the parties appearing from the aforesaid Certificate to be proprietors thereof, and may apply for and receive new Securities from the proper Officer

appointed to issue the same, in the respective names of the several parties certified to be entitled thereto ; provided that such new Securities shall be issued only according to the rules in use for the regulation and issue of such public Securities ; and the receipt of the said Trustee for such new Securities, by endorsement on the old Securities or otherwise, shall be a legal discharge to the East India Company against the disputing parties claiming to be entitled to the several amounts for which such Securities shall be issued : Provided always that, if the amount of any Securities in dispute or any part thereof, shall not be sufficient to admit of their rateable division according to the Rules applicable to the issue of such Securities, the said Trustee may sell, and dispose of the disputed Securities, or such part as shall be necessary under this provision, and apportion the proceeds thereof among the parties entitled to receive the same.

III. Every such Certificate, granted to the Trustee appointed under this Act, shall be taken to supersede and annul any previous Certificate given of a half or any other share in the said personal Estate, so far as concerns the said Securities.

IV. As regards Residents in Foreign States, out of the jurisdiction of British Courts of Justice, a Certificate of Administration to personal Estates granted by the British Representative accredited to that State, or as regards the Residents in any district to which Act XX. 1841 does not extend, such Certificate granted by the British Officer in that district, holding the highest executive authority, shall have the same effect, as regards public Securities of the East India Company, as a Certificate granted to a Native subject of Her Majesty under the provisions of Act XX. 1841, as amended by this Act.

V. This Act shall be construed with and as part of Act XX. 1841.

#### ACT NO. XV. OF 1851.

*An Act for the better suppression of Frauds in respect of Cotton in Bombay.*

[Passed 21st November 1851.]

For the better suppression of fraudulent practices in the Cotton Trade in Bombay, It is enacted as follows :

I. Any person who, in the Island of Bombay or Colaba, shall fraudulently mix Cotton of a good and bad description or quality in one bale, usually termed false packing, shall be deemed guilty of a misdemeanour.

II. Any person who, in the Islands of Bombay or Colaba, shall fraudulently deteriorate Cotton by exposing it by night to heavy dews, or by putting with it uncleaned Cotton, commonly called Kuppas, or by means of dirt, stones, earth, water, or any other substance or liquid, or who shall in any other way fraudulently deteriorate it with the view of making it heavier, and packing it in that state, shall be deemed guilty of a misdemeanour.

III. Any person who, in the Islands of Bombay or Colaba, shall fraudulently sell, or offer for sale, under false sample, or otherwise, any Cotton mixed or adulterated, as in the first and second Sections of this Act mentioned, shall be deemed guilty of a misdemeanour.

IV. Any person who, in the Islands of Bombay or Colaba, shall knowingly and wilfully have in his possession any such mixed or adulterated Cotton as aforesaid, with a view to any fraudulent sale or disposition thereof, shall be deemed guilty of a misdemeanour.

V. Any person committing a misdemeanour against this Act, shall be tried summarily for the same before the Court of Petty Sessions at Bombay, and, on conviction, shall be liable to a fine not exceeding Rupees One Thousand, or imprisonment, with or without hard labour, not exceeding twelve months, and at the discretion of such Court to both fine and imprisonment: Provided always, that it shall be lawful for the Chairman of the said Court to commit, or hold to bail, any person charged with any misdemeanour under this Act to take his trial in the Supreme Court.

VI. All Cotton in the Islands of Bombay or Colaba, which shall be fraudulently mixed, as mentioned in the first Section of this Act, or which shall be fraudulently deteriorated, as mentioned in the second Section of this Act, shall be liable to confiscation.

VII. The said Court of Petty Sessions, upon credible information on oath, of any Cotton liable to confiscation under this Act being in Bombay or Colaba, may order the seizure thereof, and the Chairman of such Court may issue a warrant for searching for, and seizing the same, and upon the same being proved to the satisfaction of the said Court to be liable to confiscation, may order the confiscation thereof, whereupon the same shall be confiscated, and the said Court of Petty Sessions shall cause an intimation of every such confiscation to be forthwith given to the Collector of Customs at Bombay, who shall forthwith cause a valuation of the confiscated Cotton to be made, and furnish the same to the said Court of Petty Sessions, who shall thereupon make over the confiscated Cotton, with the valuation thereof, to the Bombay Government, and the said Government shall keep the said confiscated Cotton, and shall, from time to time, export the same to Europe, to be there disposed of as adulterated or deteriorated Cotton.

VIII. All fines, levied and recovered under this Act, shall be paid into the General Treasury at Bombay.

IX. The said Court of Petty Sessions as to any fine paid to such Court, or Cotton confiscated by its order under this Act, and the Supreme Court, as to any fine on conviction in such Court, respectively, may award the whole or any part of the fines recovered, and any portion of the valuation by the said Collector of Customs of confiscated Cotton, not exceeding two-thirds of the amount of such valuation, to be paid to the informers whose information shall have led to the conviction of the offender, or confiscation of the Cotton respectively, and may grant such informers an order on the General Treasury at Bombay for the amount so awarded.

X. Nothing in this Act shall affect the Civil rights of any parties defrauded by any offender against this Act, but they may sue for the same as if this Act had not been passed.

## SALES OF VALUABLE PROPERTY TO FOREIGN PRINCES AND CHIEFS PROHIBITED.

POLITICAL DEPARTMENT, BOMBAY CASTLE, 31st October, 1848.

The following Resolution of the Right Hon'ble the Governor General of India in Council, dated the 31st October 1821, is published for general information, and declared applicable to this presidency.

By order of the Right Hon'ble the Governor in Council.

A MALET, Chief Secy.

Resolution of his Excellency the Governor General in Council, dated the 31st October 1821.

Circumstances having recently come to the knowledge of Government which suggests the expediency of preventing sales of valuable property from being made by Civil and Military officers of the Hon'ble Company's service to Foreign Princes and Chiefs, or to Natives of rank or opulence residing under the protection of the British Government, without due intimation to Government, through the principal local authorities, of the proposed sale and transfer of such property, and the consideration to be received for it, His Excellency the Governor General in Council is pleased to prohibit in future all sales, purchase and transfers, between the Civil and Military servants of Government on the one hand, and natives of the description above noticed on the other, of grounds, houses, boats, equipages, horses, elephants, plate, furniture, and generally every description of private property, exceeding the value of five thousand (5000) Rs, without the sanction of Government being previously obtained, under such penalties as the circumstances of each particular case of disobedience to these orders may demand.

The Governor General in Council takes this opportunity of advertizing to the Resolution passed in the Political Department under date the 17th September 1813, and published in General orders of the 18th of the same month, cautioning all Civil and Military Officers of Government against carrying on any communications with Native Princes and Chiefs, or their Vakeels, except through the channel of the Political Agents of Government and of renewing the order for the strictest observance of this caution in future.

(Signed) G. SWINTON, Secy. to the Govt. of India.

### PASSPORTS.

POLITICAL DEPARTMENT, BOMBAY CASTLE, 12th January, 1848.

In re publishing for general information the following Notification of the Government of India, and introducing within the limits of the Bombay Presidency the rules therein resolved on, the Hon'ble the Governor in Council recommends all British Subjects, whether European or Native, previous to their embarkation for a Foreign Country, to provide themselves with Passports—applications at the Presidency should be preferred to the Chief Secretary to Government, and by parties proceeding from Broach, Surat, Ratnagherry, or Tanna, to the Magistrates at those places.

By order of the Hon'ble the Governor in Council,  
A. MALET, Chief Secy.

NOTIFICATION-FORT WILLIAM, Foreign Department, the 27th Nov. 1847.

British Consular Agents in Foreign Countries having difficulty in distinguishing between Individuals who have a right to their protection as subjects of the British Crown, and others who claim that protection without any legitimate title to it, and it being considered desirable, in order to obviate as far as possible this difficulty, that British Subjects, proceeding to a Foreign Country, should provide themselves with a document attesting their title to the protection of the British Crown.

The Hon'ble the President of the Council of India in Council is pleased, under instructions from the Hon'ble the Court of Directors, to notify that British Subjects, Native or European intending to embark for a Foreign Country, will on applying at the office (if the place of embarkation be Calcutta) of the Secreta-

ry to the Government of India in the Foreign Department, or (if the place of embarkation be Bombay or Madras) at the offices of the Chief Secretaries to Government at Bombay and Madras respectively, be furnished after due enquiry with a certificate attesting their rights to protection as British Subjects. British Subjects, Native or European, intending to embark at any of the Subordinate ports of the different Presidencies, are to apply to such officer at the Port, as the Local Government shall have notified to be the proper authority for granting the certificates.

By order &c. (Signed) G. A. RUSHBY, Offg. Secy. to the Govt. of India.  
(True Copy.) A. MALLET, Chief Secretary.

## STEAM COMMUNICATION.

### RULES RELATIVE TO FREIGHT ON PARCELS AND PACKAGES BY THE SUEZ STEAMERS.

No. 113 of 1843.—The Hon'ble the Governor in Council has been pleased to revise the Rules under which Parcels and Packages are conveyed in the Mail Steamers between Bombay and Suez; and to direct, that the following Rules be established and in force from the 1st October next, in supercession of all former Rules which have heretofore been published.

1st.—All Parcels shipped from Bombay by the Red Sea Steamers must be paid for in advance.

2nd.—All Parcels received at Bombay by the Red Sea Steamers must be paid for on delivery.

3rd.—All Parcels or Packages must be distinctly addressed by name to the parties to whom they are to be delivered, and not by marks or numbers.

4th.—No Packages to be larger than one man can conveniently handle, or to weigh more than forty pounds.

5th.—No Parcel or Package is to contain any Merchandize.

6th.—No Parcel or Package is to contain Letters, Bills, or Money.

7th.—No more Packages will be received on Board than can conveniently be stowed away in each vessel, according to the discretion of the Commander.

8th.—Particulars of the contents may be called for, if thought necessary, and, if refused, the Package may be rejected.

9th.—All Packages sent or received by the Steamers are to be delivered at the Custom House.

10th.—The Government will not be responsible for any loss or damage.

11th.—Private Treasure will be received under the Regulations which have been separately notified for its conveyance; and, when so conveyed, no charge for freight will be levied beyond the percentage due to the Commander.

12th.—The Post Master General and Collector of Customs respectively have authority to open any Parcel that they have reason to suspect contains articles in contravention of these rules.

| Between Bombay and any Ports beyond the limits of the Indian Seas, other than those abovementioned, or vice versa....                                                  | 1½                        | 2             |
| Between any two Ports within the limits of the same station....                                                                                                        | ¾                         | 1             |

2.—Should Treasure of any description be deposited on board any of the Honorable Company's vessels, whether for security or any other purpose, the same rate of Freight is to be levied on it as if it had been conveyed from one Port to any other Port, within the limits of the same station; and in the event of its being transferred from one ship to another for security, or if it be conveyed to any

other Port, whether by the vessel on board of which it had been deposited, or by any other vessel, new Bills of Lading shall be made out, and the regulated amount of Freight paid, as if no such deposit had taken place, over and above the amount paid for its deposit.

3.—Whenever Treasure Freight may be delivered on board of any of the Honorable Company's Ships or Vessels, Bills of Lading in the subjoined form shall be made out, signed by the Officer in command of the Ship, and the value and description of the Freight shall be specified in it, as also the extent to which the Officer signing the Bill of Lading shall be responsible in case of any loss or damage.

And it is hereby stipulated and agreed between the said  
and the Shipper and Owner Consignees of the said  
that in case of loss or damage happening to the said Gold, Silver, Jewels, or other articles aforesaid, the Captain, or Officer Commanding such Ship or Vessel, as aforesaid, shall not be holden liable or responsible for more than three-fourths of the amount of such loss or damage.

In witness whereof I, the said Commander of the said Ship, have affirmed to four Bills of Lading, all of the Tenor and Date, one of which four Bills being accomplished, the other three to stand void.

4.—The amount of Freight received on account of the conveyance of Treasure shall be divided into eight Parts, and distributed as follows, viz:—

If on a station where there is a duly appointed Commodore or Senior Officer one-eighth is to be apportioned to him, one-eighth to the Indian Naval Fund, and the remaining six-eighths to the Captain or Commanding Officer of the Ship or Vessel.

If on a Station where there is no properly appointed Commodore or Senior Officer, one eighth is to be appropriated to the Indian Navy Fund, and the balance of seven-eighths is to be retained by the Captain, or Commanding Officer of the Ship or Vessel.

It is however to be distinctly understood, that no Commodore or Senior Officer shall be entitled to share in the Freight on Treasure, &c., unless he shall have notified his intentions to the Captain or Commander of the vessel bearing the Freight, by furnishing him with an engagement in writing in the following form:—

I, A. B., am desirous of partaking in the advantages, with the risks attendant therein, arising out of the conveyance of Freight of Treasure in any of the Ships or Vessels in the Squadron, (or in the particular Ship, as the case may be) and I hereby engage to make good to the Captain or Captains, Officer or Officers, Commanding such Ships or Vessels respectively (or Ships or Vessels, as the case may be) such part of any loss of damage for which he or they may be liable in respect to the Gold, Silver, Treasure, or other articles so carried on Freight and

which he or they respectively shall have actually paid and satisfied, as shall be in proportion to the share or interest in the said Freight money to which I may be entitled.

5.—In the event of loss or damage happening to the Gold, Silver, Jewels, or other articles so received on Freight exceeding the total Freight money, the Indian Naval Fund shall not be entitled to any sum on account of such Freight, and in cases in which the loss may not amount to the whole of the Freight money, the Indian Naval Fund shall be entitled only to its proportion as the balance of Freight money over and above such loss or damage.

6.—The Captain or Commanding Officer of any Ship or Vessel on board of which Treasure may have been received, shall, if under a Commodore or Senior Officer, transmit to him a return, in the following form, of the amount of Treasure, and of the Freight paid or to be paid thereon: copies of this return are also to be furnished by the Superintendent Indian Navy, and to the Secretary of the Indian Navy Fund, through the Commodore or Senior Officer, if any; but if there be no Commodore or Senior Officer on the Station, they are then to be transmitted direct.

7.—When Treasure shall, during the voyage, be transhipped into one or more ships or vessels, the Freight shall be divided pro rata itineris, among the Commodores or Senior Officers, and the Captains or Commanding Officers, according to the services performed by the different ships or vessels respectively.

8.—The Freight chargeable under the foregoing rules shall be payable clear of all deductions; and it shall be stipulated, that the Captains or Commanding Officers shall not be liable to any expense attending the shipment of Treasure or any other articles, until the same shall be safe along side their respective ships or vessels, and their liability shall cease from the moment they shall have landed the Treasure at the Port to which the ships carrying the Treasure shall be destined.

9.—In order to prevent any doubt or misunderstanding as to the rate of distribution of Freight on Gold, or Silver, Jewels, or other articles received on board any of the Honorable Company's vessels, and to prevent any private arrangement inconsistent with these regulations, all Commodores or Senior Officers, Captains

or Commanding Officers, are expressly forbidden to receive on board any Treasure, upon any agreement or condition different from these regulations, or to take, demand, or receive any sum, other than those established by these regulations.

10.—Should any dispute arise in the adjustment of freight to be charged on Treasure, or should any case occur not provided for in these regulations, the subject is to be referred to Government, through the Superintendent, whose decision is to be considered final.

By order of the Hon'ble the Governor in Council

P. M. MELVILL, Lieut. Col. Secy. to Govt.

Bombay Castle, 12th September 1843.

#### NOTIFICATION.—MARINE DEPARTMENT,

BOMBAY CASTLE, 6TH DECEMBER, 1841.

The Honorable the Governor in Council has been pleased to direct, that the following Rules for the regulation of Passages and Passengers in the Government Steam Packets be published for general information, and that these Rules be brought into operation on the first January next, in supercession of those at present in force.—

The names which have been already registered for the January and succeeding Steamers will be placed on the list of applicants for Cabins, in the order in which they now stand.

#### *Rules for the Engagement of Passages and Accommodation of Passengers in the Government Steam Packets, between Bombay and Suez.*

1. Application for Passage is to be made at the Office of the Master Attendant in Bombay, and at other Ports to the Commander.

2. The Vessel which conveys the Mail intended to reach Suez on the 19th of any month is to be designated the Steamer of that month: for instance, the January Steamer is the one which is destined to reach Suez on the 19th January, although leaving Bombay possibly before the end of December.

3. Passengers are to be divided into two Classes, viz:

First Class, who sit at the Commander's Table, and are entitled to all the privileges of the Quarter Deck.

Second Class, who are not entitled to walk aft of the Paddle Boxes, who berth forward, and either arrange for their own provision, or mess with the Warrant Officers or Engineers,

4. Every passenger of the First Class shall pay the following sum, as Table Money, for the voyage from Bombay to Suez, or from Suez to Bombay, viz:—

|                                                    |         |
|----------------------------------------------------|---------|
| A Lady or Gentleman.....                           | Rs. 200 |
| A Child ten years of age and above five years,.... | „ 100   |
| A Child five years and above one.....              | „ 80    |
| A Child one year and under.....                    | „ 50    |
| A Child under one year, and with the mother... ..  | Free.   |

These rates apply to the Steamers of every month throughout the year, with the exception of those of July and August, in which the Table Money from Bombay to Suez will be as follows, viz:—

|                                    |         |
|------------------------------------|---------|
| A Lady or Gentleman.....           | Rs. 300 |
| A Child under 10 years of age..... | „ 150   |
| A Child under 5 ditto .....        | „ 120   |
| A Child under 1 ditto .....        | „ 75    |
| Ditto with the mother.....         | Free.   |

But the rate from Suez to Bombay will be the same in all months. It is to be understood, that for the above sums, the passengers are to be provided with as plain substantial table; but no person is entitled to more than one pint of wine and one bottle of beer per diem. Cabin passengers have the first choice of seats at the table, and after them the Saloon passengers, in preference to those on the Deck, whose priority will be arranged according to their standing on the passage list. The seats will be arranged by the Commander, and once taken they cannot be changed without his permission during the voyage.

5. In addition to the Table Money, the following sums will be charged for the accommodation engaged by First Class passengers, viz.:—

|                     |           |
|---------------------|-----------|
| A treble cabin..... | Rs. 1,000 |
| A double cabin..... | „ 800     |
| A single cabin..... | „ 500     |
| A saloon berth..... | „ 350     |
| A deck passage..... | „ 300     |

6. Every Second Class passenger shall pay Rupees 150.

7. For each European Servant 50 Rupees must be paid as subsistence money, and 50 Rupees as passage money; for Native Servants the charge will be one-half the rate for an European; but none are to be considered and taken as Servants, unless they accompany actually their Masters or Mistresses.

8. Three lists for each month's Steamer will be kept at the Master Attendant's Office, viz. one for Cabin passengers, one for Saloon, and one for Deck passengers. A statement of the number of each Class which each Packet is calculated to accommodate will be open at the same place to the inspection of the public.

9. Every applicant may register his name in whichever of the lists he pleases, but the name of the Packet will not be declared until 10 days prior to the appointed day of sailing, when choice of accommodation will be given according to priority of standing on the lists, Ladies having the preference for the first three Cabins.

10. In the event of a greater number of names having been registered than the Steamer, when declared, is calculated to accommodate, the supernumerary names on the Cabin list may be transferred to that of the Saloon or Deck, and those of Saloon lists to that of the Deck, or they may be withdrawn, and deposit repaid, at the option of the parties. In the case of a transfer under this rule, the name will be placed in the same position in which it would have stood by date of registry had the original application been for a Saloon or a Deck passage instead of for a Cabin, or for a Deck instead of for a Saloon. Should any of the Cabin or Saloon berths remain open after the vessel has left the harbour, the Saloon or Deck passengers may be allowed to take them, on paying into the hands of the Commander the regulated difference of price.

11. Ladies and Children can take passages in Cabins only, and female servants cannot be accommodated otherwise than in the Cabins engaged for the family they accompany.

12. A passenger who has engaged a Cabin may make what arrangements he likes for its occupation; he may either keep it entirely to himself, or admit to share it with any one that he pleases, provided only that the name of the person so admitted (if an adult) must have been previously on one of the lists, and subject to the following restrictions, viz.:—

*A treble Cabin cannot be appropriated to the accommodation of more than*

|                                |                                   |
|--------------------------------|-----------------------------------|
| Four Ladies.                   | Three Ladies and two Children.    |
| Three Gentlemen.               | One Gentleman and three Children. |
| Six Children.                  | Two Gentlemen and two Children.   |
| One Lady and four Children.    | A Lady and her Husband with two   |
| Two Ladies and three Children. | Children.                         |

*A double Cabin cannot be appropriated to more than*

|                            |                                        |
|----------------------------|----------------------------------------|
| Three Ladies.              | Two Ladies and two Children.           |
| Two Gentlemen.             | A Gentleman with two Children.         |
| Four Children.             | A Lady and her Husband with one Child. |
| A Lady and three Children. |                                        |

*A single Cabin cannot be appropriated to more than*

|                |                            |
|----------------|----------------------------|
| Two Ladies.    | Three Children.            |
| One Gentleman. | One Lady and two Children. |

Children under 5 years of age may be taken extra to the complement of a Cabin on payment of 50 Rupees for each, additional.

13. Passages for intermediate places can be engaged only when there is no accommodation not taken up for the entire voyage, unless the parties are willing to pay the price of the whole voyage, in which case they may register their names in the same manner as all other passengers. The vacant accommodation will be declared three days before the sailing of the Vessel. The passage between Aden and Mocha, and Bombay and Suez respectively, will be counted as one-half of the whole passage between Bombay and Suez; between Judda and Suez will be counted as one-third; and between Judda and Bombay as two-thirds; Oossier and Suez are considered to be alike.

14. The engagement of a passage will not be considered valid unless a deposit of the following sums be made at the time of application, viz:—

|                          |         |
|--------------------------|---------|
| For a Cabin passage..... | Rs. 300 |
| For a Saloon .....       | „ 150   |
| For a Deck.....          | „ 125   |

This deposit, should the party not proceed, will invariably be forfeited; except under the provisions of Art. 10, and in cases where, by the production of a Medical certificate, it is satisfactorily shown that the person was compelled by sickness to abandon the passage. A deposit is not required on the registry of the names of children, except when the children are to occupy a Cabin by themselves, in which case the same deposit must be made as for the Cabin passage of a Lady or Gentleman, viz. 300 Rupees.

15. To prevent unnecessary trouble, the Master Attendant is authorized to receive and pass receipts for the deposit money.

16. Ten days prior to the appointed day of sailing, each passenger must pay to the Master Attendant the remaining portion of the passage money, in default of which the deposit will be considered forfeited, and any claim to passage invalid. When the Cabins are finally allotted, an adjustment will be made with the party or parties to whom they are appropriated, the difference between the value of the place occupied by each individual and the deposit made under Article 14 being paid up or returned, as the case may be. When the passage money has been paid up, no portion of it can on any plea be returned, except under the provisions specified in Article 14.

17. Persons who from non-arrival at Bombay may have omitted to pay the balance of the passage money, may be re-admitted as passengers, if before the period of departure the balance is paid. They, however, will be placed at the bottom of the list of the class of passengers in which they are registered.

18. No transfer of accommodation in the Steamer by an individual who has taken a passage to one who has not taken his passage will be permitted; but after the list has been filled up, any person wishing to stand the chance of succeeding to a vacancy caused by a lapse of any kind may do so, by registering his name and paying the required sum, which will be refunded to him should no vacancy occur.

19. It is to be understood, that Government reserves to itself the right of appropriating a Cabin or Cabins, for the use of public functionaries or others

proceeding on duty, or by special order of Government, as passengers in any of the Honorable Company's Steamers.

20. Passengers on a Steamer that may from accident or other cause be obliged to return to Port, will be entitled to the refund of the amount that has been paid, deducting therefrom a sum for the Table Allowance of the Commander according to the number of days that the Vessel may have been at sea, calculating the average time occupied in a voyage to or from Suez to be 18 days, and Aden 10 days.

21.\* All passengers, whether belonging to the public Service or not, are required to make arrangements at Suez, or other intermediate ports, with the Commander for the payment of the passage money before, or at the time of, their embarkation; and it is discretionary with the Commander to accept or decline any orders upon Houses of Agency, or Banks, or individuals in Bombay, which may be tendered.

22. For the convenience of passengers, the Commanders are authorized to receive payment of passage money at Suez, or any port between Suez and Bombay, in Sovereigns, Spanish Dollars, or German Crowns, at the following rates of exchange, viz. Sovereigns at Rupees 11 each, Spanish Dollars at Rupees 2.3.0 each, and German Crowns at Rupees 2.2.0 each. Passengers paying their passage money in the above coins are allowed, if they please, to give notice in writing to the Commanders, Purser or Clerks in Charge at Suez, that they intend to pay their passage money in Company's Rupees at Bombay; in such cases the coins they present at Suez are to be held as in deposit only, and, as such, are to be made over by the Purser, or Clerk in charge, to the Military Pay Master immediately on the arrival of the Vessel in Bombay Harbour, in order that they may be claimed by the parties from the Military Pay Office; but if not claimed within one week, the parties will be considered to have relinquished their claim, and the deposited coins will be sold on account of Government.

23. The Baggage of each passenger must not exceed four boxes, of the following dimensions, viz :—

|              |                 |
|--------------|-----------------|
| Length.....  | 2 feet 5 inches |
| Breadth..... | 1 foot 5 "      |
| Depth.....   | 1 " 3 "         |

and the total weight must not be more than four cwt. Second Class passengers are allowed half the above quantity.

24. Each Cabin passenger may, if he pleases, put all his baggage into his Cabin. The Saloon and Deck passengers will be allowed to keep one box or bag above. The rest of the baggage is to be in the baggage-room, and passengers will be allowed access to it twice a week, on a day and hour fixed by the Commander, who will appoint a person to have charge of the baggage.

25. Any applicant may be refused a passage without any cause being assigned, either by the authorities at Bombay or by the Commander of the Vessel when away from Bombay, but a report of the rejection is to be communicated to Government.

26. All persons who take passage, either themselves or through their Agents, will be considered as thereby binding themselves to comply with these Rules, which will be shown by the Master Attendant or by the Commander of the Vessel to parties who engage a passage.

By order of the Hon'ble the Governor in Council,  
P. M. MELVILL, Lieut. Col., Secy. to Govt.

NOTE.—G. G. Order No. 39, dated 1st April 1848.

\* Paras. 21 and 22 of this Order have been cancelled, and the present substituted, as per Notification, Marine Department, dated April 11th 1849, and published in the Government Gazette under date 12th idem, p. 427.

The Honorable the Governor in Council is pleased so far to relax Article 14 of the Rules for the engagement of passages and accommodation of passengers in the Government Steam Packets between Bombay and Suez as to permit the return of a forfeited deposit, whenever it can be shown that the Government has sustained no loss by the lapse.

#### GENERAL DEPARTMENT.

The Hon'ble the Governor in Council is pleased to intimate for general information, that under instructions from the Hon'ble the Court of Directors, the customary deposit of Rupees (500) five hundred, will, in future, be required on account of all Servants leaving Bombay by any route for Europe, whether such Servants be Asiatic or African, or other persons of colour, born within the limits of the East India Company's Charter.

By order of the Honorable the Governor in Council,  
(Signed) W. ESCOMBE,  
Secretary to Government.

### STEAM COMMUNICATION BETWEEN KURRACHEE AND MOOLTAN.

#### RULES.

A regular communication by the Government Steamers has been established on the Indus between Kurrachee and Mooltan, for the conveyance of Passengers and Merchandize.

At present a Steamer will leave Kurrachee about the 24th of each month, or 48 hours after the arrival of the Steamer from Bombay.

Another will start from Mooltan on the 4th of each month. Passengers by this vessel will reach Bombay on the 26th or 27th, in time to proceed by the Mail Steamer leaving for Suez on the 3rd of the following month: any alteration in these dates will be duly notified.

Except on occasions of public emergency, the Government Vessels appointed to maintain the regular communication between Kurrachee and Mooltan shall so far be reserved exclusively for private Passengers and Merchandize, that such private Passengers and Merchandize shall invariably have the preference, and thereafter any vacant tonnage or accommodation which may be left shall be available for Government Stores or Passengers.

There are three classes of Passengers entitled to Mess with the Commander; the charge for the first class, who have a comfortable cabin, is (5) five annas, for the second class, who sleep and dress in the saloon, (3) three annas, and for the third class, who sleep and dress on deck, (2) two annas per mile, or for the passage from Kurrachee to Mooltan—

|                 |            |
|-----------------|------------|
| 1st Class ..... | Rupees 250 |
| 2nd Class ..... | " 150      |
| 3rd Class ..... | " 100      |

And down from Mooltan at two-thirds the upward rates, viz.—

|                 |            |    |   |
|-----------------|------------|----|---|
| 1st Class ..... | Rupees 166 | 11 | 0 |
| 2nd Class ..... | " 100      | 0  | 0 |
| 3rd Class ..... | " 66       | 11 | 0 |

Deck Passengers, providing their own food, ( $\frac{1}{2}$ ) half an anna per mile. If Europeans, they can mess with the Warrant Officers on paying (2) two Rupees per diem.

Children, who do not sit at the cabin table, (1) one anna per mile, and those in arms free.

Each cabin and deck Passenger is allowed one servant; all others will be charged for as deck Passengers.

1st, 2nd and 3rd class Passengers are allowed half a ton or (25) twenty-five cubic feet of baggage, children (4) four cwt.

Deck Passengers one roll of bedding and a box, solid contents exceeding five cubic feet.

A public table is provided by the officer in charge at (4) four Rupees per diem for each person, exclusive of wine and beer, which, if provided by the Commander are charged at regulated prices, of which a list is exhibited in the dining room.

Children from 6 to 12 years of age (2) two Rupees, and those under the age of 6 and not in arms (1) one Rupee per day; the same charge is made for a Christian servant. Mussulman servants (3) three annas per day. Hindoos provide their own food.

The Passage Money must be paid on engaging a passage, and half the amount of Table Money for the estimated time of voyage, the whole of the latter and half of the former will be forfeited by persons relinquishing a passage after having engaged one.

Freight on all Packages conveyed up-river (excepting treasure) which do not exceed (29) twenty-nine pounds per cubic foot will be charged by the cubic foot at the rate of ( $2\frac{1}{4}$ ) two and a quarter annas per cubic foot per hundred miles; those exceeding (29) twenty-nine pounds per cubic foot, will be charged for by the pound weight at the rate of (5) five annas per maund of (80) eighty pounds per every hundred miles.

|                                | Per Cubic Foot. |    |    | Per Maund of 80 Pounds. |    |    |

Freight on Goods conveyed down river one-third the up-river rates.

Government will not be responsible for any loss or damage after the Goods have been delivered to the Consignee or Order, nor for loss or damage which may occur from accident to the vessel, or other causes whatever, not traceable to negligence or mismanagement.

Specie or Bullion will be conveyed up or down river at the rate of one anna and a half per cent per hundred miles, and whenever the distance exceeds the even hundred, freight will be charged for the even hundred next following: thus, from Kurrachee to Hydrabad is 230 miles,—the charge will be for three hundred miles.

Copper Coin will be charged at the up-river rates of weightable Goods.

The distances between the Stations and Towns on the banks of the river are as follows :—

|                                                                    | Miles. |

## HARBOUR POLICE.

### NOTIFICATION

The Honorable the Governor in Council having approved of the following Rules for the guidance of the Water Division of Police, in respect to Arab Vessels frequenting this Port, they are published for general information.

*Great irregularity appearing to prevail in the arrangements of the departure of Native boats from the harbour of Bombay, the following rules are to be hereafter enforced.*

I. All Arab boats arriving in Bombay, not using a Pilot, shall report their arrival at the Police Office, when the names of the crew and passengers, and any extraordinary occurrence which may have happened, will be taken down, in writing, by the Deputy Superintendent of the Water Division, and a report made to the Senior Magistrate of Police.

II. Two days previous to the departure of the Vessel, the Nacodah or Tindal shall report to the Police Office any casualty or other peculiar circumstance which may have occurred on board the Vessel while it has been in the Harbour, to-

gether with the names of all passengers proceeding in her; this information is, if necessary, to be verified by search under the orders of the Deputy Superintendent of the Water Division.

III. A certificate that this has been duly performed will be given by the Deputy Superintendent of the Water Division, and without which, the certificate from the Senior Magistrate of Police will be withheld.

IV. All boats shall, one day previous to their departure, anchor as near as possible to the Police Hulk, in order that they may be overhauled, and their crews mustered before leaving the port.

V. In reference to the embarkation of Pilgrims the following rules will be in future observed.

VI. When an application for a Clearance is made by the Naoodah of the Vessel, he will deliver in a list of the intended Pilgrim passengers; an officer of the Water Division will then proceed on board and inspect the vessel, compare the list with the Pilgrims on board, and certify before the Senior Magistrate, the state of the vessel, the correctness of the list, &c.

VII. Until this is done no certificate will be granted.

VIII. The officer who proceeds on this duty of inspection, should inspect personally the place allotted to each Pilgrim in the vessel, and to each Pilgrim should be allowed a space of five feet in length, and two and a half feet in breadth.

IX. If the number of Pilgrims be reported by the inspecting Officer as too great, steps should be taken to ensure the removal of the extra portion to some other vessel.

X. Vessels should not be allowed to sail, leaving any of their Pilgrim passengers on shore.

XI. The freight and passage money should also be ascertained and noted down, to prevent imposition, and the food and water provided for the pilgrims on board should form a subject of proper enquiry to the inspecting Officer.

Bombay, 4th November 1844.

P. W. LEGG, Senior Magt. of Police.

Accountant and Actuary.—James Johnson.

### OFFICE RULES OF THE GOVERNMENT SAVINGS' BANK.

1. Mr. James Johnson, the Actuary, is authorized to sign all Receipts and Payments.

2. The Bank opens for the transaction of business at 10 A. M., and closes at 4 P. M. every day, Sundays and Holidays excepted.

3. No deposit will be received of a less amount than One Rupee, nor in excess of Five Hundred.

4. No copper coins will be received, nor other than Government Paper.

5. This book must be produced whenever any sum is deposited or withdrawn.

6. Individuals resident out of Bombay at places where there is no Public Treasury, and females who, according to the manners and customs of the country, do not usually make their appearance in public, are required to appoint (by letter addressed to the Secretary) agents to carry on transactions on their behalf. Payments to these agents will only be made on the production of the Pass Books of the Principals (or the persons in whose names the Accounts stand), accompanied by orders signed by the latter, authorizing the payments. These orders, in cases of Native female depositors, are to bear the signatures of two respectable witnesses as to the signature of the drawers being genuine.

7. Depositors resident at the Presidency, with the exception of the Native females aforesaid, are excepted, on making withdrawals, to attend personally at the Bank, in all practicable cases.

8. It having been observed that many persons deposit money about the beginning of the month, seemingly for safe custody, and then withdraw sums as they are required from time to time in the course of the same month, a practice which, pursued as a system, seems scarcely to come within the legitimate use or proposed ends of a Savings' Bank, the Secretary is, therefore, empowered to close the account of any Depositor who may use the Bank, as an agency by very frequently withdrawing portions of his deposits.

(Signed) J. W. MESPRATT,  
Secretary Govt. Savings' Bank.

### REGULATIONS OF THE FIFTH BOMBAY LAUDABLE SOCIETY.

Article 1st. The object of this association is to provide a fund for the Insur-  
ance of Lives. This fund is to be portioned into shares, and an individual may  
subscribe for a certain number of shares, either on his or her own life, or on the  
life of any other individual. In the former case, the general estate of the deceas-  
ed, or such person or persons as he, or she may, by will or assignment, have ap-

pointed, shall benefit in the event of a lapse; in the latter, the person who may have subscribed on the life of the deceased shall benefit to the extent of the shares subscribed for, unless in either case such shares be especially declared at the time of subscription, to be for the benefit of any other person or persons, or be subsequently made over, according to the form hereafter prescribed, for the benefit of any other person or persons in which case, such person or persons, shall be entitled to benefit in the event of a lapse and no other.

2d. In the case of a person subscribing on the life of another, the party subscribing and not the party on whose life the subscription is made, shall be considered a Member of the Society, and have a voice in the management of its concerns. Co-partners or other bodies of individuals may hold one or more shares jointly on any given life, either for their own benefit or for that of others; but in such case the parties uniting in the subscription shall not be entitled each to a separate voice in the concerns of the Society, but must vote collectively, or by the deputation of one of their number, on all matters thereto relating.

3rd. The great principle of this Society is the equal division of its accumulated funds among the parties entitled to benefit by lapse of lives subscribed on, according to the number of shares which those parties may respectively hold.

4th. The Fifth Laudable Society shall commence on the 1st January 1849, and shall close on the 31st December 1853, at midnight.

5th. Not more than four shares can be subscribed for on any one life, whether those shares be held by one or more individuals.

6th. Persons shall be at liberty to subscribe for half, quarter, or eighth shares either on their own lives or on the lives of others, and in case of lapse the estate of the deceased, or the parties for whose advantage the subscription is declared to be, who may have become entitled to such advantages by will or assignment shall benefit by the fund in a like fractional proportion.

7th. The following are the rates of subscription to be paid half yearly on each share, half, quarter and eighth share, according to the ages of the parties whose lives are subscribed on, at the time of admission into the Society, viz.

| From the Age of. | For a whole Share.  | For a half Share. | For a quarter Share. | For one-eighth of a Share. | From the Age of. | For a whole Share. | For a half Share. | For a quarter Share. | For one eighth of a Share. |

8th. All persons entering the Society between the 1st January and the 30th of June in the year 1849, shall pay on admission, their half year's subscription in advance, or for the remaining part thereof, computing the same from the date of their becoming Members, until the 1st July 1849, and paying for any number of days less than a month, one whole month's subscription. The subsequent half yearly subscription shall be payable on the 1st July and 1st January in each year, commencing with the 1st July 1849.

9th. All persons who may be admitted into the Society subsequent to the 30th June 1849, shall in the first place pay their proportion of the current half yearly subscription, to be calculated agreeably to the above rule from the first day of the month of their admission, until the next following period of payment, and in

the second place, shall pay a Premium of admission to be regulated agreeably to the following scale, viz :

For admission during the second half } A premium equal to 25 per cent. on  
of the first year of the Society. } one half years subscription.

10th. Five persons residing in Bombay shall be nominated Directors of the Fifth Laudable Society, whose business it shall be to superintend and control the management of the Funds, to examine the accounts, to decide on all applications for admission, and generally to transact the current business of the Society. The concurrent opinion of three of the five Directors shall be decisive on all matters relating to the concerns of the Society, not at variance with these fundamental Regulations, which can be altered only by a majority of the Members residing in Bombay. No question, however, shall be proposed to the Members at large without the concurrence of the whole of the Directors. In case of the death or removal from Bombay of any of the Directors, another or others shall be chosen by a majority of the members of the Society then residing in Bombay, or by a majority of such members residing in Bombay, as may attend at a general meeting to be convened for that purpose.

11th. A meeting of the Directors of the Society shall be convened annually between the 1st of January and 30th April in each year, when a Statement of the Accounts of the Society shall be laid before them by the Secretaries, and no account, which shall once have been submitted to and passed by the Directors at such meeting, not less than three then attending, shall afterwards be called in question, unless for some special and manifest error to the amount of five hundred Rupees or upwards.

12th. In the election of Directors, as well as on all other questions relative to the concerns of the Society which may be proposed for the decision of the Members at large, a Member holding four shares on any one Life shall be entitled to three votes, one holding three shares to two votes, and one holding any number of shares less than three to one vote only. Members holding shares on different lives, shall be entitled to the number of votes proportioned to the number of shares which they hold on each life.

13th. Messrs. W. Nicol and Co. shall officiate as Secretaries and Treasurers to the Society, and shall charge a Commission of Five per cent. on all receipts of subscriptions, to be paid out of the funds of the Society, and they shall charge a fee of one Bombay Rupee on each certificate of admission, and one Rupee for the Register of each assignment of shares, or reduction of interest.

14th. The Secretaries and Treasurers shall act in all cases according to the order of the Directors

15th. All applications for admission into the Society from persons residing at any of the Queen's or Company's settlements, shall be made by letter to the Secretaries, and shall be accompanied by a Certificate of health (signed by a Medical Gentleman in the Queen's or Company's Service, a member of the Royal College of Surgeons, or by a Medical Gentleman to the satisfaction of the Directors,) and by a Declaration made and signed by the individual on whose Life the shares are applied for, such Letter, Certificate, and Declaration to be according to the following forms, printed copies of which may be had on application to the Secretaries, viz.

*Form of Letter for persons subscribing on their own lives.*

(Place and date.)

To Messrs. W. Nicol and Co.

Secretaries to the Fifth Bombay Laudable Society.

Gentlemen,

I request to be admitted to hold——Shares in the Fifth Laudable Society on my own Life for the benefit of my Estate after my death, or such person or persons as I may hereafter appoint by Will or Assignment, for which purpose the prescribed Certificate and Declaration of health are herewith transmitted.

I am, Gentlemen,

Your obedient servant.

*Form of Letter for persons subscribing on the lives of others.*

(Place and date.)

To Messrs. W. Nicol and Co.

Secretaries to the Fifth Bombay Laudable Society.

Gentlemen,

I request to be admitted to hold——Shares in the Fifth Laudable Society, on the life of \_\_\_\_\_ for the benefit of \_\_\_\_\_ for which purpose the prescribed Certificate and Declaration of health are herewith transmitted.

I am, Gentlemen,

Your obedient servant.

*Form of Certificate of Health.*

This is to certify that to the best of my knowledge and belief \_\_\_\_\_ is at this date free from any dangerous malady whatever, and that from my acquaintance with his constitution and general state of health for \_\_\_\_\_ and also from the result of the enquiries which I have this day made of him in person, I consider him to be a good life.

I further declare that the said \_\_\_\_\_ is unacquainted with the nature of the above report, which I have sealed before delivering. Given under my hand this—day of—one thousand eight hundred and—

*Form of Declaration of Health.*

I——do solemnly and sincerely declare that I have this day presented myself for Medical examination to——Surgeon; that I have truly and faithfully answered all questions put to me by him; that I have not wilfully or designedly concealed any circumstance relative to my health, habits, or constitution, and that I am unacquainted with the contents of the Sealed Report which he has made regarding my health to the Secretaries of the Fifth Bombay Laudable Society.

I further declare that I have not since my infancy been subject to fits, and that I have had the Small or (Cow) Pox; that my age does not at this time exceed—years and—months; that I have been about—years and no more resident in India; that my present rank, occupation or profession is that of \_\_\_\_\_

and that my usual place of abode is \_\_\_\_\_

and I make this solemn Declaration conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the sixth year of the reign of his late Majesty King William the Fourth intituled, "An act to repeal an Act of the present Session of Parliament, intituled an Act for the more effectual abolition of Oaths and Affirmations taken and made in various departments of the State and to substitute Declarations in lieu thereof, and for the more entire suppression of voluntary and extra judicial Oaths and Affidavits and to make other Provisions for the abolition of unnecessary Oaths."

Declared to before me at \_\_\_\_\_

this \_\_\_\_\_

day of \_\_\_\_\_

18 \_\_\_\_\_

The above declaration must be declared to before a Magistrate or Notary Public, who shall attest the same by his countersignature, or if the party be residing at a station where there is no Magistrate, it may then be attested by the principal Civil or Military Officer of the station. In case of an application for shares on the life of a Minor under fourteen years of age, a Declaration to the same effect as above, must be produced from the Parent, Guardian, or next of kin of the party or the person under whose protection he or she may be residing.

16th. All applications for admission, accompanied by the above prescribed forms of Certificate and Declaration which may be transmitted to the Secretaries, shall be submitted by them to the Directors for their decision. And the Directors shall in all instances be at full liberty to reject any such application without assigning any reason to the applicant for so doing.

17th. In all cases it shall rest with the Committee to judge whether with reference to the circumstances of situation and distance the interval which may have elapsed between the date of any Certificate and Declaration of health, and the time of their presentment be reasonable or otherwise, and to admit or reject such Certificate and Declaration accordingly. In no case, however, is the party subscribing to have any claim on the funds of the late Society in the event of life lapsing between the date of the Certificate and the date on which the applicant may be admitted a Member, unless where the Directors may at the instance of such applicant have originally permitted the subscription to take effect from the date of the Certificate and Declaration of health, which it shall at all times be in their discretion to do, on the arrears of subscription being paid up. In the event, however, of a person dying between the dates of his Certificate and Declaration of health and his admission, and the Insurance on his life was not effected from the date of Certificate and Declaration, the amount of premium paid for such Insurance shall be refunded.

18th. No subscription on any life shall be considered as entitling the party or parties concerned to benefit by the Society, until the life subscribed on shall have been approved by the Directors, the amount of the first subscription and premium of admission paid, and a Certificate of admission granted under the signature of the Secretaries, agreeably to the form annexed to these Regulations. And if any applicant shall omit to pay the amount of such subscription and premium of admission within two months after the life subscribed on shall have been approved by the Directors, such applicant shall forfeit his claim to be admitted except on a fresh application, accompanied by a new Certificate and Declaration of health.

19th. All subscriptions (except the first which is to be paid on admission) shall be paid within one month of the time at which they become due. If not paid within that time, a penalty of two per cent. on the amount of the instalment shall be added, and any Member who shall not have paid his subscription (together with the said penalty) within two months of the day on which his subscription shall have become due, shall be considered to have absolutely and entirely forfeited his share or shares.

20th. Any Member shall be at liberty at any time, to pay up his subscription for the whole unexpired period between the time of such payment and the close of the Society, or for any part thereof, and in the event of a lapse of the life subscribed on, such Member or his representatives shall be entitled to receive back any part of the subscription money so paid up, which would not have been due at the time of the lapse taking place, forfeiting however to the Society all interest which may have intermediately accrued thereon.

21st. No subsequent increase of shares on any life shall be allowed, except on fresh application to be again approved of by the Directors and accompanied by a Certificate and Declaration as above. The subscription on the additional shares

to be according to the age of the party at the time of making the new application.

22d. Any member desiring to transfer his interest in any share, or shares, which he may hold in the Society, shall be at liberty to do so by an endorsement to be written on the original Certificate; which endorsement shall not be valid until the Certificate bearing the same shall have been produced to the Secretaries, and the transfer duly registered by them in a general book of registry to be kept in the office of the Society.

23d. As often as a sum exceeding Rupees two thousand shall be collected, it shall be laid out in the purchase of Government paper, Bank shares, or in Loans secured by a deposit of Government paper to be granted under the control and authority of the Directors, it being clearly understood that in all cases of Loan the saleable value of the Deposit shall be more than sufficient to cover the sum lent. All public securities purchased for the Society shall be especially endorsed to two or more of the Directors, and the interest only shall be made payable to the Secretaries and Treasurers.

24th. The person or persons entitled to benefit by the lapse of a Life in the Society shall in making application to the Secretaries, in writing, accompanied by such proof of the casualty as may be satisfactory to a majority of the Directors, at the expiration of three years from the commencement of the Society receive the sum of four thousand Rupees on each share; one thousand Rupees on each half share; one thousand Rupees on each quarter share; or five hundred Rupees on each eighth share; which he or they may have held, or be entitled to on the lapsed Life, provided that in the opinion of the Directors, the state of the Funds of the Society will admit of so large a payment being made. Should the Directors think, however, that the Funds will not allow of an immediate payment of this amount, then such sum only shall be advanced as they may deem proper, and the balance of the prescribed advance shall be paid so soon as the Directors shall be of opinion that the Funds will safely admit of it.

25th. Arrears of subscription or any other sum due to the Society by the holders of any share or shares on a lapsed Life shall be deducted from the amount of the advance.

26th. At the expiration of this Society on the 31st December 1853, it is proposed that a new Society, on a similar plan, but subject to such alterations as experience may suggest, shall be immediately instituted into which Society all members then holding shares on unexpired Lives in the Fifth Laudable Society shall be at liberty to transfer those shares without any renewed certificate of health, in consideration of a sum of money to be paid to such new Society out of the Funds of the Fifth Laudable Society, and without taking into account any proportion of the advances previously paid by the Society on account of the lapsed Lives. To entitle Members of the Fifth Laudable Society to transfer the shares held by them into the ensuing or Sixth Laudable Society, no regular form of application shall be necessary, but a Certificate of admission into the new Society shall be immediately issued to them on the simple payment of the usual half year's subscription in advance, subject, however, to the established penalty of two per cent, in the event of the payment being delayed beyond the term of one month, from the commencement of the new Society and to the entire forfeiture of the privilege of transfer (excepting on a new application to the Directors, accompanied by the regular certificate of health, &c.) if not made good within the second month from that period. The rates of subscription for Members transferring their shares from the Fifth to the Sixth Laudable Society shall be according to the respective ages of the parties on whose Lives the shares are held on the first of January 1854.

27th. It is proposed to render the institution of the Laudable Society permanent by establishing a new Society, in succession to each Society, as it expires.

28th. Upon the transfer to the Sixth Laudable Society of any share or shares in the Fifth Laudable Society, which may stand assigned by endorsement or otherwise, for the benefit of any other person or persons than the person or persons originally interested therein, or upon any subsequent transfer of any share or shares so assigned from the Sixth or any succeeding Society to the Society next ensuing, such share or shares shall continue in all respects subject to the lien of the Assignee, and shall be declared to stand for the benefit of such Assignee in the Certificate of admission to be issued from the new Society.

29th. Within one month and fifteen days after its termination, the accounts of the Fifth Laudable Society shall be made up and the balance of Funds actually on hand, after deducting for the new Society 12 per cent. on the amount of subscriptions received during the term of the Society, be divided by the number of shares held on Lives subscribed upon in this Society, which may have lapsed between its commencement and its close, and the parties entitled to benefit by such lapses shall each receive his or their proportion of the said Funds, according to the number of shares respectively held by them on the several lapsed Lives, the holders of half, quarter or eighth shares divided according to those fractional proportions. The sum of Rs. 10,000 shall be considered as the maximum payable on any one lapsed share, and any surplus shall be carried to the credit of the new Society.

30th. With respect to any lapses of Lives in this Society, which may not be ascertained on or prior to the 15th of February 1854, such lapses shall be at the risk at the next ensuing or Sixth Laudable Society, and the advances of Dividends to which the parties claiming to benefit by such lapses may be entitled, shall be paid out of the Funds, and agreeably to the Regulations of the said ensuing Society on the lapses being ascertained; but it is hereby expressly provided with respect to any lapses which may have occurred at any place to the eastward of the Cape of Good Hope, that notice of such lapses accompanied by satisfactory proof of the same must be given to the Secretaries of the Sixth Laudable Society within one year from the expiration of the Fifth Society on the 31st December 1853, or within two years if the lapse have occurred in Europe or elsewhere, beyond the Cape of Good Hope; and that in the event of the party or parties interested neglecting to prefer his or their claim on account of any such lapse within the period here prescribed, he or they shall entirely forfeit all right and title to any benefit whatever, by reason of such lapse from the funds of the Sixth or any succeeding Society.

31st. The following are the present Directors of the Fifth Laudable Society, viz:

RODERICK MACKENZIE, Esq.

T. F. GRAY, Esq.

G. WALLACE, Esq.

J. A. BAUMBACK Esq.

ROBERT STRONG, Esq.

Any mis-statement in the Declaration of health makes the Policy void, as does suicide, in cases when a person effects an Insurance on his own life, (unless the Certificate be specially endorsed over for the benefit of a Creditor or Creditors and duly registered) but not so in case of Creditors effecting an insurance on the lives of their debtors.

BOMBAY, *Certificate of Admission.*

Insert name or names, place of abode, and profession at full length.

We do hereby certify that—has been duly admitted to hold—shares in the Fifth Bombay Laudable Society on the life of \_\_\_\_\_ for the benefit of \_\_\_\_\_ who shall be entitled, in the event of a lapse of the aforesaid Life to receive such proportion of the Funds of \_\_\_\_\_

the said Society as by the established Regulations thereof published in the Bombay Government Gazette 28th Dec. 1848, may become due by virtue of this subscription, and at such time or times as the said Regulations direct; subject moreover to all the several provisions and exceptions by the said Regulations prescribed.

We do further acknowledge to have received from the  
 aforesaid, the sum of Bombay Rupees, being  
 amount of subscription in advance and premium of admission, required by the  
 Regulations of the said Society.

In witness whereof, we have hereunto subscribed our names in Bombay this  
 day in the year of our Lord one thousand eight hundred and  
 By Authority of the Directors,

W. NICOL AND CO.

Secretaries and Treasurers.

## THE POST OFFICE.

THE establishment of the Overland communication with Europe made the Bombay Post Office for a time the sole, as it is still the principal, point of receipt and dispatch betwixt India and Europe. It is presided over by a Postmaster General, always a member of the Civil Service, and who enjoys a salary of Rs. 2000 a month; and a Deputy Postmaster, who receives Rs. 500 a month. The emoluments of this latter appointment formerly arose in equal parts from the printership of the Government Gazette, considered a sinecure, and the emoluments of office. The appointments were separated in 1841, on the demise of Mr. C. McLEOD, when the printership was conferred on Mr L. C. C. RIVETT.

The following is a list of the Postmasters and Deputy Postmasters since 1838 :—  
Mr. EDWARD EDEN ELLIOTT.—Made Mint Master and Civil Auditor in 1838, and Accountant-General in 1848.

1841.—MR. JOHN GORDON.—Acting.—In 1843, Deputy Civil Auditor and Deputy Mint Master—in 1844 Post Master—in 1846 died Collector at Surat.

1842.—MR. J. A. SHAW. Retired from the Service in 1845, and shortly afterwards assumed the surname of “ MACKENZIE.”

1842.—MR. W. ESCOMBE.—Became in 1843 Secretary to Government, General Department.—Died on his way home in 1846.

1843.—MR. JOHN GORDON.

1844.—MR. W. COURTNEY.—In 1846 Collector at Poona.—In 1848 Acting Secretary to Government, General Department.—In 1849, Collector at Poona.—In 1851 Revenue Commissioner S. D.

1846.—MR. A. W. RAVENSCROFT.—Present Incumbent.

## DEPUTY POSTMASTERS.

1836.—MR. J. GRAHAME.

1838.—MR. J. McLEOD.

1841.—MR. W. BLOWERS,—the present incumbent.

## POST OFFICE REGULATIONS.

MAILS are received and dispatched daily from and to all parts of India. The Calcutta and Madras Mails, and those from the interior to the south of Bombay are brought by the steamer from Panwell, and arrive betwixt 7 and 8 A. M., and are distributed betwixt 9 and 10. The Agra, Delhi, and North-west Mails go and come by Tanna and Indore. The Post Office closes at 4 P. M. for newspapers and baghies, and 5 P. M. for letters per steamer via Panwell. Letters for the North West Provinces, and Guzerat, are received up to 6 P. M.

The Soinde mails are dispatched thrice a month by the Kurraohee steamer. Ship postage is only charged, on letters, papers and parcels, sent by them. There is a daily dawki for Soinde but as it takes ten days by land, nothing is gained by taking advantage of it, the mails by the steamer reaching quite as soon, though a week later of being dispatched. During the rainy season all mails are sent to Soinde by land.

The Ceylon mails are sent by steamer twice a month, or oftener if circumstances permit: they take seven days on the voyage—by land they occupy sixteen. Aden mails are dispatched once a fortnight. Chinese mails once a month.

Parcels not exceeding 25lbs. weight may be sent by Blangy.

## ° LETTERS FOR EUROPE.

THE Mails for Europe are dispatched on the 3rd and 17th of the months of October, November, December, January, February, March, and April—on the 3rd, 12th, and 20th of May—on the 25th June and July, and on the 1st and 17th September—the irregularities in the four months last mentioned being occasioned by the extra time occupied on the way by the steamers betwixt Bombay and Aden. Letters may be sent via Madras by ordinary post on the 1st June and July, or on the 3rd of these months by express; in August, by the ordinary post on the 3d, and by Express on the 5th, to meet the Calcutta steamers on their way to Suez. They are charged India in excess of English postage. Letters by Southampton go round by the Straits of Gibraltar, and occupy about thirty-five days on the way—they are charged half a rupee each, if not exceeding half an ounce in weight: above half an ounce and not exceeding one ounce, one rupee; above one and not exceeding two ounces, two Rs; and so on, adding one rupee for every ounce or any fraction of it. Payment is optional. Letters via Marseilles, and through France, occupy about thirty days on the way: they are charged—not exceeding  $\frac{1}{4}$  oz., 1s. 10d.;  $\frac{1}{2}$  oz., 2s. 3d.;  $\frac{3}{4}$  oz., 4s. 1d.; 1oz., 4s. 6d.;  $1\frac{1}{2}$  oz., 7s. 9d. Newspapers go free of charge by Southampton—by Marseilles they are charged three pence each. The Southampton postage may be prepaid either way—the Marseilles postage must be prepaid from England, but cannot be so from India. All letters by the mails of the 3rd at present go by Marseilles—there being no direct steamer to carry them on from Malta to Southampton.

- The Bombay steamers of the beginning of the month go directly on to Suez; those of the middle transfer their mails and passengers to the Calcutta steamer at Aden, and themselves proceed no further.

Parcels may be received and transmitted overland through the agencies of Mr BELL and Mr. TURNER, or other Agents.

There are one anna offices, through which letters may be sent or received twice a day, Sundays excepted, when the offices are closed all day. The General Post

## INDO-BRITISH INSTITUTION.

ESTABLISHED IN 1838.

PATRON.—THE LORD BISHOP.

Committee.—Rev. R. Y. Keays, Rev. F. Spring, Rev. J. P. Anderson, and the Rev. J. D. Gibson, the Minister of Trinity Chapel, as Superintendent of the Institution, Col. G. Moore, Col. F. P. Lester, J. Jefferson, Esq., Capt. Tremenhore, Lieut. Marriott, Metcalf Larken, Esq., and W. de Blaquiere, Esq., Treasurer, Col. Moore. Secretary, Rev. G. Candy, Clerk and Accountant, Mr. W. P. Maudment. Solicitor, J. Jefferson, Esq. Medical Attendant, Dr Yuill.

Superintendent of the Institution. Rev. G. Candy.

Master, M. G. West.

Mistress, Mrs West.

Matron Boys' School, Mrs McPhun.

Matron Girls' School, Mrs Martin.

This Institution was established, with a very small beginning, in the latter part of the year 1838, by the Reverend George Candy, who had just been ordained a Missionary and Pastor to the Indo-British population of Bombay. Up to the middle of 1840, the Institution was supported by a Donation of Rs. 1,000 from the Diocesan Committee of the Society for Propagating the Gospel, together with private contributions but at that time the regular support of it was undertaken by the Diocesan Committee, on the application of the Reverend G. Candy, with the view of ensuring to it a greater permanency.

The commodious and substantial School Houses, one for boys and one for girls, were now erected, together with a separate dwelling-house adjoining, for the Master and Mistress, at the cost of between 30,000 and 40,000 Rupees.

As many persons were interested in the progress and prosperity of the Institution, voluntary contributions were from time to time received for its support; but as these fell far short of the sum required, a large balance had to be made good annually by the Society for Propagating the Gospel.

As the operations of the Propagation Society became greatly enlarged, their expenses increased in a corresponding ratio, it was therefore felt to be most desirable that a strictly local institution, established among those who are the professed followers of our blessed Saviour, and for the benefit of fellow Christians, should as much as possible be supported by those among whom it is established, who both witness and superintend its operations, and for whose benevolence it forms an appropriate channel. Under this feeling, the Parent Society was relieved of all expense connected with the Institution, save the salary of Master and Mistress; the Diocesan Committee undertaking to defray the other expenses from local contributions. Subsequently to this, the pressure upon the Parent Society's Finances continuing to increase, the Diocesan Committee came to the resolution to undertake the whole expenses of the Institution, leaving to the Parent Society

no other burden than the salary of the Missionary. This resolution was come to in dependence upon the well-tried liberality of the Christian community in the Bombay Presidency.

In the year 1850 the connexion of this Institution with the Society for Propagating the Gospel was dissolved (save the tie of gratitude) and it is now an entirely local and independent Institution, governed by its own Committee supported principally by voluntary contributions.

The expenses of the Institution are follows:—

|                                                  |     |         |
|--------------------------------------------------|-----|---------|
| Salary of the Master of the Boys' School.....    | Rs. | 125     |
| "    "    Mistress of the Girls' do.....         | "   | 35      |
| Two Matrons or Nurses (each Rs. 15).....         | "   | 30      |
| Medical Attendance and Medicines.....            | "   | 41      |
| Salary of Clerk, Accountant, and Collector... .. | "   | 50      |
| Two Peons, Blicestie, Sweeper, &c.....           | "   | 29      |
| Total Monthly expense                            |     | Rs. 310 |

The above is the regular establishment to which must be added the expense of the food and clothing of the children, together with washing, books, stationery, and other sundries. The expense of each child is computed at Rs.  $7\frac{1}{2}$  per mensem, in which is not included an estimated proportion of the Salary of Master and Mistress, or of the cost and repairs of Buildings.

There are now in the Institution 75 Boys and 40 Girls. Of this number 2 pay in excess of the regulated charge of Rs.  $7\frac{1}{2}$ ; 14 pay exactly that amount; 36 pay less, varying from Rs.  $6\frac{1}{2}$  to one Rupee per mensem; and 63 who are either orphans or the Children of very poor parents, pay nothing at all, but are supported entirely by the charity of the Institution.

Taking all the payments for children into account, there is a monthly balance, to be made good by charitable contributions, of about Rs. 6000 or Rs. 7,2000, yearly.

The Institution is open to all denominations of Christians, without distinction who have no claim upon the Education Society; and children are received into it from any station in the Presidency.

The following is the Classification of the Children now in the Institution:

|                      | Boys. | Girls. |
|----------------------|-------|--------|
| Europeans.....       | 5     | 3      |

The expense of 115 children, at Rs.  $7\frac{1}{2}$  per mensem is... Rs. 862 8 0  
Add Salary of Master and Mistress..... " 160 0 0

1022 8 0

Deduct amount paid by the parents and friends of the Children. Rs. 250 0 0

Monthly balance..... 772 8 0  
Yearly ditto..... 9,170 0 0

This sum does not include contingent expenses.

Of the Rs. 250 mentioned above, about one-third is derived from the Poor Funds of the different Churches in Bombay, and some charitable individuals. The actual amount, therefore, paid by the parents and relatives of the children is only about Rs. 167.

The entire balance of Rs. 772 8 0 a month, or Rs. 9170 0 0 a year, is to be raised in India.

The erection of the chapel cost Rs. 14,020. The purchase of ground for site of chapel and Schools Rs. 15,250, the chapel provides sittings for 350, all free : each school has accommodation for 100 boarders.

The time of services is 11 o'clock A. M., and 6 o'clock P. M. on Sundays, Good-Fridays, and Christ-mas Days, and half-past six P. M. on Wednesdays.

Clerk of Trinity Chapel, Mr. George West.

### BOMBAY DISTRICT BENEVOLENT SOCIETY.

President for 1851.—The Honorable J. P. Willoughby, Esq.—Life Governors by a Donation of one thousand Rs. and upwards. The Hon'ble James Farish, Esq. Sir Jamsetjee Jejeebhoy Knight. Sir James Matheson, of Canton.

Committee for 1851.—Sir Jamsetjee Jejeebhoy. Colonel G. Moore ; The Revds. W. K. Fletcher ; D. O. Allen ; R. Nesbit, and Dr. Wilson ; M. Larken, Esq. ; N. Spencer Esq. ; F. Hutchinson, Esq. ; F. A. Spencer, Esquire ; A. Spens Esq. ; Capt W. Pruen (Europe.)

Honorary Secretary, F. A. Spencer Esq.—Treasurers, Bank of Bombay.—Overseer of the Dhurumsalla, Mr. John Scroggie.

The object of the D. B. Society is to suppress vagrancy, and to afford suitable food, clothing, and shelter, to the extent of its means, to the destitute poor of all classes, without reference to religion, country, or its caste.

To carry out these objects, the public are earnestly requested to lend their aid, and as the Society is in great need of funds to meet the expenses of maintaining the numerous poor who avail themselves of its benefits, contributions from the community are respectfully solicited.

A substantial and comfortable "Dhurumsalla" or "Poor House," situated in Bellases Road, Byculla, has been charitably placed at the disposal of the Society for the use of the Poor, by Sir Jamsetjee Jejeebhoy, at whose entire cost the building was erected.

Contributions in Money are received by the Honorary Secretary, F. A. Spencer, Esq., the smallest subscription or donation being acceptable.

Supplies of old clothing, proving very serviceable to the poor, are respectfully solicited. The Overseer at the Dhurumsalla will receive any such contributions.

For Rules and Regulations see last year's Calendar.—The following are the Bye-Laws of Committees.

1. The Secretary is ex-officio a member of all Committees, but he may or may not be, as the Committee considers it expedient, Secretary to the Committee; it being expedient that Committees should on all occasions choose their own office bearers.

2. Committees appointed for special duties shall confine themselves strictly to the duties for the performance of which they were appointed; additional powers may be obtained from the Society should those originally conferred be considered too limited.

3. So soon as a Committee shall report on all the points entrusted to its arrangement, and its report shall be disposed of by the Society, it shall be considered extinct.

4. That the Society shall have no power over the proceedings or records of Committees until they have presented their report, when that report and whatever documents accompany it become the property of the Society.

5. That in the discussions which take place, much may often occur that does not require to be recorded, and that the Committee alone can determine where to draw the line. But when in Committee a member has formally recorded a minute or other document, it cannot be withdrawn without the consent of his colleagues though it must be manifest that in a Committee cordially and harmoniously working in furtherance of the cause of science, a case can scarcely be imagined where the request of a member to withdraw or amend a minute would be refused.

6. That until a Committee has reported to the Society, no individual member of such Committee can give publicity to, or make use of, its records or proceedings.

## TONNAGE SCALE.

This Scale was originally adopted at a Meeting of Merchants, Ship Owners, and others, held on the 8th September 1836, and came into operation on the 1st April in the following year. On the 17th August 1842, it was revised and modified by general consent of the mercantile community. It is to be considered the Scale to regulate the Trade from Bombay and the Malabar Coast to the United Kingdom, in the absence of special agreement to the contrary:—

In connection with the Students' Literary and Scientific Society are two Vernacular Branches, the objects of which are the diffusion of useful knowledge among the uneducated masses by the reading and discussing of Essays on Literary, Historical, and Social subjects, by weekly Lectures on Physical and Chemical Science, accompanied by experiments, and by the publication of a cheap monthly periodical Literature suited to the requirements and tastes of the people.

The Magazines published by these Societies are :—

1. THE GUJARATHI DNYAN-PRASARAK, of which 25 Nos. have been published.

11. THE MARATHI DNYAN-PRASARAK, of which 10 Nos. have been published.

THE STUDENTS' MISCELLANY (in English,) giving the Reports of the Society and of its Branches, of the Female Schools, Library, Publications, &c., is published annually. Price Rupees (2) two.

The objects of this Institution will be best understood by the following extract from the Circular lately issued by the Committee :—

"1st. The cheap circulation of the best Vernacular works among the reading portion of the Native community who are only acquainted with their own languages.

"2nd. In addition to this, the circulation of Elementary English books of a useful kind, and in the Reading Room the access to Maps, Charts, Globes, &c., for those who have had a rudimentary education and a partial knowledge of English.

"3rd. The advantages of a good General Library in English, combined with easy access to Vernacular Publications, for the class who have received a College Education.

"4th. The supplying individuals in all three classes with works in the Classical Oriental languages, for their amusement or instruction."

The Reading Room is to be opened in January and to be supplied with the best English and Vernacular Newspapers and Periodicals.

These schools were first opened in October 1849. They were originally taught by volunteer Teachers, members of the Society, but latterly paid Teachers have been appointed.

The schools are open from 9 A. M. to 4 P. M.

The nature of the Education imparted will best be seen from the following extract taken from the circular issued at the opening of the Schools:—"The chief attention will be given to the culture of the moral nature, under which is included the formation of habits of order, propriety, and cleanliness; and this is proposed to be effected chiefly by means of moral tales, read by the Masters, which will interest the children. In the Mental culture, every effort will be given to form habits of observation by means of lessons on familiar objects, such as animals, trees, &c., and the Society hope that in a short time they will have attached to each School a small museum and a collection of pictures, which will cultivate not only the senses but the ta-te. In addition to these subjects there will be taught reading, arithmetic, (at first mentally,) linear drawing and writing."

The Society, owing to the kindness of individuals, have also been able to introduce sowing and knitting into the Parsi Schools, and hope soon to be in a position to extend this branch to the Hindu Schools.

#### BOYS' INFANT SCHOOLS.

The Society, encouraged by the success of their Female Schools, have within the last half year opened three Boys' infant Schools, of which two are attended by Parsi, and one by Hindu children; besides these another School in the Fort has been placed under their superintendence by its supporters.

13.—The clipper-Barque "Ariel" burnt off the mouths of the Hooghly : value of vessel and cargo £ 100,000 : supposed to be the work of incendiaries.—Lord M'gilton's horse Flying Dutchman defeats Lord Zetland's Voltigeur at York, in the great match for £ 1000.

14.—Mary White packet ship totally destroyed by fire, near Terceira.

15.—The Cholera Tramway opened ; the works were commenced on the 5th December 1850 and were completed in six months. The Tramway is seven miles in length, and was constructed almost entirely by Native capitalists. It was suggested, planned, and carried out by Major Fulljames, of the Guzerat Irregular Horse, who enjoys, almost undivided, the merit of the work. Tramways of a few hundred yards in length had before existed at Bandoop and Poway, in Salsette ; this is the first of any considerable magnitude in India.—Severe shock of earthquake at San Francisco.—The Duke of Saldanha enters Lisbon, at the head of 3,000 troops.

16.—The House of Commons went into Committee on the Ecclesiastical Titles Bill.—A man condemned by the Sacred Consuever of Rome to 20 years at the galleys, for attempting to prevent a person from lighting a cigar.

17.—Terrible tornado at Louisville (U S) : immense damage done.

20.—The Pacific steamer made the run from New York to Liverpool in 9 days, 19 hours, and 25 minutes.—The Canadian Parliament assembles.

21.—The Epsom Derby won by Sir Joseph Hawley's "Teddington."

23.—The Epsom Oaks won by Lord Stanley's "Iris."

25.—The Right Hon. R. Lalor Sheil dies at Florence.—M. Godard made a successful descent in a parachute at Paris.

26.—The Chess Tournament, at the St. George's Chess Club, commences.

29.—Mr Baillie's motion condemnatory of Lord Torrington's policy in Ceylon lost by a majority of 80.—Cholera prevalent in Cincinnati (U. S.)

30.—The Wheel Tax Fraud Commission closes its proceedings.

#### J U N E.

1.—The Governor-General forwarded to the Bombay Government, (by whom it was forwarded to the Chamber of Commerce) the correspondence with Mr Arratoon on the subject of his cutting timber on the Beas, by which it appears that the attacks made by Sir Charles Napier on the Marquis of Dalhousie at the Byoulla Club Dinner were perfectly baseless.

2.—The Earl of Shaftesbury dies.

4.—Cholera on the increase in the Western States of America.

7.—The S. W. Monsoon sets in at Bombay.—The Russian troops evacuate the Danubian provinces.

8.—Dr J, Esdaile, the great patron and promoter of painless surgery in India, retires from the Bengal medical service and goes home.

9.—News of a revolt of Slaves at Old Calabar: the insurgents in possession of everything.

10.—The three sons of the late Earl of Aldborough arrested, at Leghorn, for conspiracy.

11.—A native vessel, the *Atiet Rohoman*, from Mecca, with 300 pilgrims wrecked off the Island of Kennory at the entrance to the harbour of Bombay. One hundred persons, chiefly passengers, were drowned.—On the same day the English ship *Charlotte* was wrecked on the coast twenty miles to the southward of Bombay, with the loss of two or three of the crew.

13.—Cholera still rages in Jamaica.

14.—Vice Admiral Sir Charles Malcolm, formerly Superintendent of the Indian Navy, dies.—Thomas Moute, Esquire, the Antiquarian, dies.—A notification is issued at Bombay that light rupees which have suffered from fair wearing will still be received as of full value at all the Government Treasuries. Rupees punched, clipped, and otherwise injured, to be received by weight value.

15.—Dr Carr, Bishop of Bombay, resigns his appointment after a distinguished and valuable career as a clergyman of 35 years' duration.

16.—Mrs Graham's balloon destroyed accidentally: the aeronaut and her husband much injured.

17.—70,000 persons this day visited the Great Exhibition of the Industry of all Nations.—Death of Colonel William Ogilvy, Judge Advocate General of the Bombay Army. He had been 46 years in the service, having during the earlier part of his career embarrassed himself by the indiscreetness of his liberality. He led, towards its close, a life of the most heroic privation till all claims against him were liquidated. He was a singularly fine specimen of the accomplished Scotch gentleman of last century, of the Bradwardine School, with the exception of being most temperate in all his indulgences.

18.—The wife of a Hindu at Madras, lately married, who had become a convert to Christianity since his marriage, was taken or spirited away from him by her friends. The Supreme Court was appealed to when it was decided that a husband had a right to the custody of his wife so long as she had no just cause of complaint against him: the wife expressed her perfect willingness to remain with him.—The French troops in Algeria are successful in a series of engagements: the Western tribes submitted; and the French immediately proceed to coerce those on the East of Djyelli.

19.—The House of Commons resolved itself into a Committee on the Smithfield Market Removal Bill, thus striking a fatal blow at the much cherished City nuisance.—News of the close of the war in Yucatan, the Indians having sustained a terrible defeat at Bacolos.

21.—Letters published in the "Bombay Times," with reference to the dismissal of Colonel Davidson of the Bengal Engineers, making fearful disclosures of corruption in the Public Works Department in Bengal.—Total number of visitors since the opening of the Great Exhibition, 1,512,313: the amount received, exclusive of Season tickets, £101,958. 3s.

22.—Splendid meteor seen near Stepney.

23.—Tremendous fire in Alderman Humphrey's and other premises, Montague-cloze, Southwark : damage £109,000.

24.—Lady Godiva procession at Coventry celebrated with great splendour : upwards of 60,000 persons present.

25.—It is resolved in the French Assembly that the Constitution be totally revised : committee appointed.—The Scottish Universities Bill thrown out by a majority of 1.—Royal Thames yacht Club challenge cup won by the "Volante."—Foundation stone of the City of London Hospital for Diseases of the Chest, at Victoria Park, laid by Prince Albert.

26.—Alderman Salomons (a Jew) elected M. P. for Greenwich, by a majority, of 897.—Thermometer in Hyde Park 90° in the shade.

28.—Grand Banquet at the Mansion house (London) to the Royal (Exhibition) Commissioners.—Serious affray at Liverpool between the Military (91st Foot) and the Police.

#### JULY.

2. A return is published of the actions and civil suits brought before the Supreme Court, Bombay, since 1841 : the average on the five years ending 1845 shows 35 in Equity, 249 common Law plaints, and 672 Small Causes :—in November 1846 the Jurisdiction in Small Causes was raised from Rs. 350 to Rs. 600, and the expenses of litigation began from this date to decrease, and the number of suits to rise in proportion—the average on the last five years has been 52 in Equity 361 common Law plaints, and 1127 Small Causes.—The census returns in Ireland shew that the population has not advanced at all for 30 years.—The Bishop of Exeter held a Synod.

3.—A rescript from the Pope is received which causes a great sensation, sanctioning, and promising indulgences to all who subscribe to the Italian Mission of London for building a splendid Roman Catholic Cathedral in one of the leading streets of London.

4.—Lord Ellenborough, in the House of Lords, moved for papers connected with the case of Lalla Jotee Persaud : these were promised by Lord Broughton.—The Parliamentary Committee on steam communication with Australia made their report in favor of the route by the Cape of Good Hope.

9.—A Return is published of the emoluments of the Sheriff of Bombay for the past ten years. The money in all handed over by the Governors for the time, as gifts to their private friends, amounts to £12,826. The most fortunate of the Sheriffs obtained the appointment a few years after his arrival in India, and held the office four times, and received close on £4000. Since A. D. 1800 about £100,000 have thus been gifted away. The office is a pure sinecure, and was never professed to be given on any considerations of qualification, merit, or position. It was simply a present of so much to the friends of the Governor.—Since 1800 there have been 56 Sheriffs, of whom there were Merchants, 14 ; Barristers, 12 ; Editors, 5 ; Retired Officers, 8 ; Clerk to Chief Justice, 1 ; Civil Servants, 2 ; Uncovenanted Magistrates and Assistants in Government Employ, 12 ; Unknown, 1 ; Naval Officers, 1. According to the tables published the following are the Sheriffs of the past ten years, with their emoluments, excluding the Rs. 1200 a year allowed the Deputy, which must be struck off to show the net income :—

Rupees.

|                                                              |        |
|--------------------------------------------------------------|--------|
| 3 Years—L. C. C. Rivett, Esquire, Magistrate.....            | 41,310 |
| 1 Year—J. L. Johnson, Esquire, Merchant.....                 | 7,673  |
| 3 Years—S. S. Dickinson, Esquire, Barrister...               | 32,297 |
| 1 Year—W. De Blaquiere, Esquire, Clerk to Chief Justice..... | 11,226 |
| 2 Years—J. Holland, Esquire, Barrister.....                  | 21,778 |

In ten years—Total Rupees..... 1,14,284

From this it will be seen that the most fortunate amongst the Sheriffs since 1840 is Mr Rivett, who was elected to the office within a few months of his arrival in Bombay,—before he had taken up any particular profession.—The Queen visited the City in state in honor of the Great Exhibition.

10.—Nearly the entire city of San Francisco destroyed by fire, with a loss of property amounting to 15,000,000 dollars.

15.—The services of a Gaelic teacher are engaged for the Prince of Wales.—Mr Deas appointed Solicitor-General for Scotland in the room of Mr John Cowan, raised to the Bench of the Supreme Court in succession to the late Lord Daudrennan.—The Court of Directors and the British Government settle a Pension of £400 a year on Mr Silk Buckingham as compensation for his losses by the act of Governor Adam in 1824, who had caused his deportation from India in consequence of some obnoxious articles published in the "Calcutta Journal."—The Earl of Derby dies.—Dr. Moir, the Poet "Delta" of Blackwood's Magazine, dies.—The "British Association for the advancement of Science" meet at Ipswich.

16.—Major L. Brown, of the 5th Regiment Bombay Native Light Infantry, who so heroically maintained the Murree fortress of Kahan for six months in 1840, dies at Baroda from the effects of a fall from his horse.—Mr. Cormack, and Mr Le Geyt, both of the House of Leckie and Co, died, the former at Poona and the latter at Bombay.

21.—The P and O Company's Steam ship "Pasha" run down by the P and O Co. Steamer "Erin" in the straits of Malacca in 25 fathoms water: nineteen persons were drowned. The ship and cargo were worth £120,000, of which £50,000 was treasure.—Dorabjee Hormusjee and Lalldass Withuldass are convicted of the Robbery of the Oriental Bank in February last, and sentenced to transportation.

22.—The Ecclesiastical Titles Bill is read a second time in the Lords by a large majority.—Sir Thomas Musgrove, Lord Mayor of London, accompanied by a large party from the city, visit Paris and are feted by the President, M. Louis Napoleon.

29.—The Ecclesiastical Titles Bill passed the third reading in the Lords without a division.—The "Madras Spectator" publishes an extract of the letter of remonstrance said to have been written by the Governor-General to the Nizam of Hyderabad, fixing a definite date for the payment of his debt.—Amongst the extracts from the papers published by the authority of the Government of the North-West Provinces is an account by Major Harris, of the discovery of an organized army of thieves and robbers, who meet at a fixed season from headquarters in the N. W. Provinces to commit depredations in all parts of India, returning to their homes before the rains to divide their spoils.

#### AUGUST.

1.—The Royal assent is given by commission to the Ecclesiastical Titles Bill.—The "Bloomer" costume is first displayed in England by two ladies who promenade Oxford street in this guise.—Lieutenants Remington and Staunus, of the Madras Army, drowned while bathing near Kulladghee.

8.—Parliament prorogued by the Queen in person.

11.—Dewan Moolraj, Ex-Nazim of Mooltan, died at Parbutpore, forty miles from Buxar. He was tried at Lahore after his surrender in January 1849, and condemned to perpetual imprisonment for having instigated the murder of Mr. Vans Agnew and Mr. Anderson, at Mooltan. He was one of the bravest and most obstinate of the enemies who ever withstood our arms.

in India: his life might have been illustrious but for the treachery through which Agnew and Anderson were murdered.

12.—Seventeen Moplahs, of an eminently fanatical Mahomedan tribe of about 50,000 residing in Malabar, run a muck, kill the head man of the nearest village, and commit other outrages, take possession of a place near Kolatoor, forty miles from Calicut, and bid defiance to all comers. Part of a detachment of the 39th Regiment Madras N. I. first sent against them throw away their arms and fled before them. A reinforcement of H. M. 94th Foot having taken the field, the whole of the Moplah fanatics were slain. This is the second outbreak of the same tribe within these two years which has taken place.

15.—It is rumoured that the Nizam has paid the British Resident at Hyderabad £400,000 in part liquidation of the debt due by him to Government,—and promises to settle the balance in October.

16.—The Hon'ble Mr. Drinkwater Bethune, Law Member of Council, and President of the Board of Education, died at Calcutta. He was a man of great and varied accomplishments, and great uprightness and benevolence. One of the most devoted and enthusiastic promoters of Native Education, he was the father and promoter of Native Girls' Schools, having just before his last illness bestowed on them £5,000.—Low-caste pupils expelled from the Madras University.

18.—The Earl of Clare, formerly Governor of Bombay, died at Brighton in his 59th year, and is succeeded in the title and estates by his only brother, Colonel the Honble. Richard Fitzgibbon.

19.—Mr. E. F. Danvers, Junior Magistrate of Police, is suspended by Government, until a satisfactory explanation be afforded by him concerning certain matters connected with the Wheel-Tax investigations. Mr. Rivett, third Magistrate, is promoted to fill the acting appointment, and Mr Thornton, Coroner of Bombay, is appointed to act for Mr. Rivett, and Mr. P. M. Dalzell, of the Custom House, to act as Coroner,

19.—Mr. Lang, Barrister, formerly Proprietor and Editor of the "Mofussilite" is found guilty of a libel on Lieutenant-Colonel Mactier, of the Military Board in Bengal. The libel was contained in the published report of the defence of Lalla Jotee Persaud, though not spoken in the address as delivered. Mr. Lang is sentenced to three months imprisonment, in the Jail of Calcutta, and to pay a fine.

20.—Sir William Gomm directs the system of espionage patronized by Sir C. Napier on the Junior officers of the Army, to be discontinued :—the "confidential" returns of Officers Commanding Corps are no longer required.

23.—First Report of the Committee of the Bombay School of Industry published, giving an encouraging and pleasing account of the prospects of the Establishment.

26.—Captain J. C. Hawkins, Senior Officer in India of the Indian Navy—a long time Commodore in the Persian Gulf, and for a time Acting Superintendent of the Indian Navy,—killed by a fall from his carriage near the Apollo Gate, Bombay. He was, at the time of his death, Assistant Superintendent, having succeeded Captain Lynch in that appointment. He was deeply and sincerely regretted by the service to which he belonged, and by all who knew him.

27.—Her Majesty left Osborne for her Highland home in Balmoral, accompanied by the Court.

28.—The "Friend of India" publishes an abstract from the extract of the published record of the Report on the Nurbudda Rivers, from which it appears

for the cause of Hungary are sent to him from all the principal manufacturing towns in Great Britain. A grand entertainment is given to him in the that £370,000 of net profit have been realized since 1824 on the river tolls and that this, which rightly belonged to a purely local fund, established for specific improvements, has been appropriated by the public treasury. When the Court of Directors stated to Parliament that in the course of the past ten years £500,000—or £25,000 annually from Revenue of close on £10,000,000 a year—had been expended on private works, they forgot to mention that three fourths of this sum (£370,000) arose from a direct separate local source, and was not taken from the public purse at all.

29.—Great excitement is created amongst nautical men and all true lovers of their country, by an American yacht named the “America” beating by a long distance the “Titania”, the fastest yacht in England in a race of forty miles out and the same distance back again. “The America” was afterwards purchased for £7,000 by Captain, now Lord, de Blaquiére, of the 3rd West India Regiment. This victory of the Americans in our own waters has roused the energy of the nation, and bets to an enormous amount have been taken that England produces within a given time a yacht that shall beat any American built boat that can be brought against her—the “America” herself included.

30.—News reach England of a piratical expedition under General Lopez having been fitted out at New Orleans and been despatched to Cuba, where it effected a landing: General Lopez is afterwards taken by the Cubans and executed by the garotte: all his followers are taken prisoners and dealt with according to law.—An act abolishing the law of primogeniture has become the law of Upper Canada.

#### SEPTEMBER.

1.—The Queen in her progress through Edinburgh to Balmoral bestows a Pension of £300 a year on Professor Wilson (Christopher North) as a reward for his eminent literary merits.

5.—Government propose covering Bombay Green, the only open breathing space within the Fort, with the building of the new Supreme Court,—for which it offers the very worst site that could have been selected: abundance of excellent situations being at their disposal on Government ground—while it will choke up the open space on which not so much as a cotton bale has been suffered to remain for nearly half a century.

10.—The Report of the Indian Post Office Commission is published: it recommends that the present newspaper postages from 1½d. to 6d. each should be continued, and that those on papers imported overland, which are at present allowed to carry double Indian weights, should be charged like Indian papers. At this rate the “Times” and other large sized papers will be charged from 1s. to 2s. 6d. at outstations:—the measure will virtually exclude English journals from India!

15.—Mr Frederick Hutchinson, Deputy Collector of Land Revenue at Bombay, one of the most energetic of the members of the Board of Conservancy, is appointed Manager of the Commercial Bank, in the room of Mr J. C. Stewart resigned.—The Ship “Lascar” lost off Saugor Bank, in the Bay of Bengal, at the entrance of the Hooghly.—The new Steam Frigate “Zenobia”, built at Bombay for the East India Company’s Packet Service, made her first trial trip, which of course “proved most satisfactory:”—she is much under powered for her tonnage, and quite unfit to compete with any one of the P. and O. Company’s vessels as a Steam-Packet.

24.—Instructions are received from Leadenhall Street, that two magnificent steamers of 850 horse power, and 2000 tons each, are to be built for the Indian Navy—one at Bombay and the other at home. They will cost about £120,000

each, and afford a large amount of patronage. It was expected that the Indian Navy would have been abolished, it being superfluous for a war or transport service, and not required for Survey duty—the P. and O. Company having offered to perform the packet service cheaper by about £70,000 a year.

22.—The Marriage Act for India passed at home—interpolations of Legislative Council of India expunged.—Major Harris gives an account of the Barnagoones, a race of gang robbers who traverse India.—A terrible hurricane visits the Southern part of the United States, sweeping along the Gulf of Florida, extending to the West Indies : immense damage done to the Cotton, Sugar, and Tobacco crops : numerous vessels are wrecked and foundered at sea, involving a heavy loss of human life.

23.—Reports published by the Admiralty, received from the officers engaged in the search for Sir John Franklin and his party : they afford no positive information respecting the missing expedition, except that traces of their existence in 1846 are found at Cape Riley. It is dreaded that the ships of the expedition were destroyed in Baffin's Bay in that year, and that the crews have all perished with them.

24.—Thirteen low-caste Sepoys expelled from the Bgl. Army.—The Lt. Governor of the N. W. Provinces re-issues on the 10th instant the order forbidding Civil and Military servants of the Government from taking any share in the management of joint Stock Companies : this was first issued on the 15th February 1837—reiterated 5th April, and re-published in India 24th July 1839.

25.—A violent storm occurred at Bombay during which a great fire Ball was seen to rush with a loud sound through the air. It plunged into the sea somewhere to the South of the Light-house. It was distinctly heard, and the sound and appearance seemed the same for the space of three miles in a direction at right angles to its path. Two inches of rain fell in little more than an hour.

26.—Six miles of railway, consisting of large wooden joists, with a flat bar of iron on the upper edge, constructed at the Gun-carriage manufactory at Bombay, for service in the Panjaub, with flanged wheels, axles, and other iron work for the carriages. It is meant for the transport of the materials of some of the old Sikh Forts to a place when they may be made serviceable.

27.—A portion of territory on the Northern Frontier of the Punjaub,—a sort of No-Man's-Land,—desired to be appropriated by the Affghans, has been, by desire of the inhabitants, added to our dominions.—An Association is established at Calcutta called "The Good-of-the-Country-Society," for the purpose of raising funds to secure the full and due representation of Native grievances at the coming Charter discussions :—these generally consist in Natives supposing themselves unfairly excluded from a fitting share of Government employment, and not being left sufficiently free to oppress each other.

28.—Lieut. General Sir Richard Armstrong, the new Commander-in-Chief of Madras, arrived.

30.—Kossuth, the illustrious Hungarian patriot and exile, is released from his Turkish prison at Kutyah in Asia Minor, by an order of the Sublime Porte : he afterwards embarks in the American Steam-frigate Mississippi in the Bosphorus and proceeds to Marseilles on his way to England, but is refused a passage through France by M. Louis Napoleon. He lands at Marseilles, where he is received with great enthusiasm, and is feted by the Municipal authorities. After spending two days at Marseilles, he re-embarks on board the "Mississippi" and proceeds to Southampton, where he is received by the Mayor and entertained at the expense of the corporation during his stay there. He next visits London, Liverpool, Manchester, Birmingham, and other large towns in England, and is everywhere received by the people with the greatest enthusiasm, and addresses of sympathy

Guildhall by the Lord Mayor of London, which is attended by all the leading men of the City. He took leave of England on the 20th November, and embarked on board the "Humboldt" steam-packet for New York, where preparations on a grand scale were made to do honor to his arrival.

## OCTOBER.

5.—Report of Colonel Outram, Resident at Baroda, in reference to his disclosures of misconduct amongst the Native subordinates in that Residency, sent in to Government, and the Baroda discussions resumed. In 1846, Hurree Bugtee, the head of one of the richest Banking Houses in Goozerat, died, leaving behind him nearly two millions sterling worth of property, under the charge of his two widows for the behoof of their offspring: one had borne him a son, the other was enuicnt at the date of his death, and in due time gave birth to a son, who when a year old was stolen from her and sent to the wilderness, where he DIED (?)—and she was closely confined in her own house by her native business manager, Baba Nafday, with whose intromissions she had interfered. She was afterwards released and permitted to live with her parents, but under surveillance. She was declared to have been an adulteress in her husband's time, and never to have been confined at all,—the child she called her own being spurious. These allegations being inquired into by the Guicowar, her guilt was said to have been proved, and thereafter she lived a pauper. Her husband's house had enjoyed a formal bond of protection from the British Government, and she had a right to claim from us that justice should be done. Time after time she petitioned, but in vain: the subordinates about the Guicowar's Court and British Residency were corrupted by money from her own treasuries:—Colonel Outram in 1850 at length took up the matter: half of her accusers were convicted out of their own mouths—the rest on the most unexceptionable evidence; she was fully and honorably acquitted of every charge brought against her, and restored in point of character and rights to the position she enjoyed on the death of her son. Government meanwhile determined to see to the return of her property, and she was allowed subsistence money—£120 a year!—while further investigations with which she had no concern were in progress. In this state she was eighteen months after her innocence had been proved,—the delay involving Government in charges of injustice and corruption, which, however groundless save as to the matter of delay, are acquiring universal belief amongst the natives. The imputations against the highest officers of the state that have for some months past been current are amongst the most injurious from which our character ever suffered.

7.—The Queen left Balmoral on her return to England. Her Majesty visited Lancaster, Liverpool and Manchester, in state, during her progress, and conferred the honor of knighthood on the Mayors of the two last named cities.

9.—A Masonic banquet is given to Lieutenant General Sir Charles Napier, at Portsmouth, by the brethren of the three Lodges there. In his speech on this occasion the following remarkable passage occurs:—"That my conduct when I went to India as Commander in Chief, should be approved of by you, my brother Masons and my countrymen, is to me very gratifying. My zeal to fulfil the duties of that high command continued with unabated ardour; but I no longer found the support which I had received from Lord Ellenborough and Lord Hardinge. Support was turned to reprimand; and I found myself loaded with vast responsibility, but denuded of the power to sustain it. I therefore resigned, and thus closed my career in India." The chair was occupied by Lord George Lennox, who presided over 110 brethren.

12.—An American named Hobbs obtains the prize for opening one of Chubb's locks. He also opened Brahmah's prize lock, but his having done so

according to the terms is disputed, and the prize withheld in consequence.—Bloomerism (an ugly invention of the Yankees) is becoming patronized by the more outre of Englishwomen, and lectures are delivered in support of the new costume by ladies in London and Edinburgh.

17.—The Mahomedan Riots begin. A biographical notice of Mahomed, prefaced by a very ill executed lithographic portrait of the Arabian Prophet, in which he is represented as having only one eye and an otherwise very sinister countenance, was published in an illustrated Goozerattee newspaper edited by a Parsee named Cursetjee Byramjee. The portrait was posted upon the door of a mosque; the Mahomedans took fire at the supposed insult: some thousands of them assembled in the principal Mosque of the city, and when service was over rushed out to attack the Parsees, and a great tumult ensued. The disturbances continued for more than a month.

18.—Mr John Mackay, and Miss Helen Elizabeth Mackay, (brother and sister) Missionary Teachers at Belapoor, near Benares, are arrested on a charge of having beaten to death a little girl, the daughter of the former and niece of the latter. They are brought to Calcutta and tried for murder, but the Jury find them guilty of aggravated Manslaughter. They are sentenced by Mr Justice Colvile on the 13th December to transportation for life to Van Diemen's Land,—a sentence which gave general satisfaction throughout India, as their conduct to the unfortunate child was proved at the trial to have been most barbarous and cruel.—A Government Notification published concerning the opening of a monthly steam communication between Kurrachee and Mooltan.

19.—Mr. Porter publishes a prospectus of a plan for raising the "Pasha" Steamer.

20.—The Bombay Government are said to have resolved on appointing an Inspector of Jails for the presidency: the Judges of the Supreme Court are said to have recommended that it should be conjoined with the Sheriffship, (hereafter to be a fixed appointment) to save expence,—or made one of the duties of one of the Police Magistrates. The condition of the Bombay Jail and House of Correction has been the subject of unceasing complaint to every Grand Jury since the Supreme Court was established at Bombay, a quarter of a century ago: it is disgraceful to any civilized country,—places purporting to be establishments for punishment being suited only for corruption and recreation. Jail Inspectors for all the three Presidencies were recommended by the Calcutta Committee (of which Sir George Anderson was a member) in 1837; no notice appears to have ever been taken of their recommendation.

22.—A severe storm visits Calcutta: the "Precursor" and "Powerful" Steamers, with five sailing vessels, driven ashore.

25.—A force of 2500 men, under Brigadier Sir Colin Campbell, march from Peshawur to chastise a refractory tribe of Momunds to the North West of that station. The force was at first employed in the explosion of Rehim Dad Khan's fort of Mitohuie, and the villages surrounding. Heaps of corn that lay in store in the houses of these Momunds were fired, and their goods and chattels thrown into the river. The Momunds themselves fired at our troops from a distance, but their shot did us no mischief. This terrible retribution seemed to have fallen on the miserable foe for the sins of a few scores of lawless ruffians who owned allegiance to no one.

26.—The subordinates of the Bombay Secretariate appear before the Insolvent Court in such numbers that Sir William Yardley, sitting as Commissioner, said that the entire body seemed disposed to take the benefit of the Act!

27.—The Oriental Bank is incorporated by Royal Charter, and from the 1st January 1852 will be styled "THE ORIENTAL BANK CORPORATION."

28.—The Report of the Calcutta Committee on Ship-burning is published.

NOVEMBER

4.—"Khut-pul" (corrupt negotiation) is found to be very rife at Baroda. Colonel Outram intercepts translations of papers addressed to Natives about the Durbar which turn out to be minutes of the Governor of Bombay and his Council, relating to Baroda matters, which had not yet been acted on. These were obtained by corrupt means from the Secretariat:—an investigation is commenced in the Secret Department which ends in the dismissal of a Mr. Marston, one of the junior Assistants in that Department, who is suspected of having been concerned in obtaining copies of these documents for an improper purpose.

5.—The Right Hon'ble the Governor returns to the Presidency.—The Governor-General left Simla on his return to Calcutta.

7.—News reaches Bombay of the death of Mr. E. F. Danvers, junior Magistrate of Police, at Alexandria, on the 18th October. Mr. Danvers came to Bombay as private secretary to Sir James Carnac in 1839, and was shortly afterwards appointed junior Magistrate of Police on the retirement of Mr. H. Willis. He was suspended from his duties in August last, in consequence of crimes having arisen that he had misinformed Government on the state of his liabilities to his native creditors. The matter was referred to the consideration of the Court of Directors, and Mr. Danvers being at liberty to reside where he thought fit during his suspension, proceeded to Europe by the Steamer "Moözaffer" on the 17th September, to offer explanations to the Court, should such be required. He was in perfect health when he left but was attacked with fever betwixt Aden and Suez: this increasing upon him, he, on the recommendation of his friends, went to the hospital for Europeans at Alexandria, where he was attended with the utmost care by the Sisters of Charity until death terminated his sufferings.

10.—The hurricane which visited Calcutta and its neighbourhood on the 22nd and 23rd October, did great damage to the shipping off Diamond Harbour and below Saugor. Two vessels—the "B ngalee," outward bound, and the "Scourfield," inward bound—were wrecked; the former on Saugor Island and the latter near Point Palmyras—crows of both vessels saved.

11.—Sir James Colville, one of the Judges of the Supreme Court at Calcutta, appointed President of the Council of Education there, in room of the late Mr. Bothune.—Our relations with the Burmese assume an unsatisfactory aspect: Commodore Lambert, R. N., proposes to visit Rangoon with a Naval Squadron for the purpose of demanding redress for wrongs inflicted on British subjects there, and for securing better treatment for them in future.—The Commander in Chief of India (Sir William Gomm) left Simla on the 6th instant on a tour of inspection extending over the Punjab.—Lord his brother William de Blaquiere dies.

12.—The entire Median field force were directed on the 2nd ultimo to be prepared for moving at a moment's notice along the line of the frontier and the Derajat.

13.—The Barque "Union" wrecked in Madras Roads.

18.—Ernest, King of Hanover and Duke of Cumberland, the 5th son of George III, and uncle of Queen Victoria, died in his Palace at Hanover in his 81st year. He succeeded to the kingdom of Hanover on the death of William IV.

19.—A Naval Expedition leaves Calcutta to enforce apology and reparation from the Burmese. The expedition left Calcutta on the 19th ultimo, and consists of H. M. S. Fox 42; H. M. S. Serpent 12, with the Honorable Company's war steamers Tenasserim and Proserpine, the whole under the command of Commodore Lambert, R. N. The compensation to be demanded for damages sustained by British subjects is very considerable, and if the Burmese should be found contumacious, the Commodore has orders to inflict chastisement on the offenders without awaiting further orders.

21.—The "London Gazette" contains the new Brevet: the commissions to be dated the 11th instant.—It is decided that another Arctic expedition shall be despatched by the Admiralty from England in 1852 in search of Sir John Franklin and his party. A Hurricane prevailed all over India.—The Bombay Steam

Navigation Company's Steamer "Surat," P. Duverger, Master, supposed to have foundered on her way to Kurrachee, with nearly 100 persons on board.

25.—The Right Reverend Dr. J. Harding, Lord Bishop of Bombay, arrived in the P. and O. Company's Steamer "Achilles."

#### DECEMBER.

2.—An extensive fire broke out in the storehouses of the P. and O. Steam Navigation Company in the Dock yard at Mazagon, by which stores belonging to the Company to the value of from £15,000 to £20,000, were destroyed. The cause of the fire has not been ascertained. The goods consumed by the fire were only partially insured: the buildings in which they were stored were completely destroyed. These latter are valued at £,7500, and belonged to Mirza Mahomed Ali Khan, the owner of the Dockyard, from whom they were rented by the P. and O. Company.

7.—The Naval expedition to Rangoon reached that place on the 27th ultimo, but nothing decisive has yet been performed. The demands of the British Government on the Burmese have been forwarded to the Court at Ava, and thirty-five days have been given to the Rangoon authorities to obtain a reply, after which decisive steps will at once be taken to obtain immediate reparation for the insults and injuries complained of.

10.—It is determined to send a force against Meer Ali Moorad of Khyrpoor, who has proved himself an arch traitor, having ever since the conquest of Soinde by us in 1843 held possession of a large portion territory by means of fraud and treachery.

13.—A number of the Mahomedans engaged in the riots at Bombay are convicted at the Criminal Sessions and sentenced to various terms of imprisonment. Two of the most prominent, who were convicted of felony were sentenced to transportation for ten years to Penang.

20.—News reaches Bombay of the murder of two Revenue Officers in the Salt Department, in the territories of a Mowund Chief named Jehan Dad Khan, in the Hazareh district. The unfortunate victims of treachery, Mr Carne, and his Assistant Mr Tapp, had gone beyond our boundaries in the excess of their zeal for the public service: they were employed in the prevention of Salt smuggling, and in spite of repeated warnings, persisted in going where they would seem to have had no right to trespass. As soon as the circumstance was made known to the Khan he waited upon Major Abbott, our Political Agent in the Hazareh country and expressed his regret at what had occurred, and offered to apprehend the murderers. The offer was accepted, on the understanding that they should be given up in three days: the time had expired and they were still at large, although a number of persons had been given up to Major Abbott, none of whom it has been ascertained had any thing whatever to do in the sad affair. The Khan, fearful that we would hold him personally responsible, summoned the wild tribes on the left bank of the Indus to his assistance, and is now assembling them round his capital of Umb.

22.—The Nizam has not yet paid his debt to the East India Company. He has up to the present time paid only £90,000 of the £400,000 due by him. This will cause further embarrassment of his affairs. It is thought that further time will be granted before proceeding to extremities,—i. e. the sequestration of a portion of his dominions.

24.—Sir Robert Barlow completes his investigation into the charges brought forward by Lord Ellenborough against the proceedings in the Magistrate's Court at Agra in the case of Lalla Jotee Persaud, and sends in his report to Government. It will probably be presented to Parliament next February, and form the nucleus of attack on the Company's civil administration of this country in the discussions on the renewal of the Charter in 1853.—Lord Stanley visits Calcutta, and will come by the way of the Indus to Bombay on his return to England.

31.—No news of the Bombay Steam Navigation Company's Steamer "Surat" which left Bombay on the 19th of November for Kurrachee having been received since her departure, it is concluded that she must have foundered in the gale which swept the coasts of Kattywar and Soinde on the 21st and 22nd of that month, and all souls perished.
